*History of Chicago: Volume 1* University of Chicago Press

The first novel in the epic quartet about the last days of British rule in India, "as much a story of romantic love as it is of crime . . . an artful triumph" (The New Yorker). The Jewel in the Crown is the first of Paul Scott's renowned historical novels that "limn the Anglo-Indian world with its lovers, friends, family servants, soldiers, businessmen, murderers and suicides—all involved in one another's fate" (The New York Times). It opens in 1942 as the British fear both Japanese invasion and Indian demands for independence. On the night after the Indian Congress Party votes to support Gandhi, riots break out and an ambitious police sergeant arrests a young Indian for the alleged rape of the woman they both love. "What has always astonished me about The Raj Quartet is its sense of sophisticated and total control of its gigantic scenario and highly varied characters . . . The politics are handled with an expertise that intrigues and never bores, and are always seen in terms of individuals." —New Republic "Paul Scott's vision is both precise and painterly." —The New

York Times Book Review "Few people have written about India quite as seductively, or as intelligently, with a sense of loss but also a sense of responsibility and fallibility." —Kirkus Reviews (starred review)

*Black Chicago's First Century* Wentworth Press

The author of the highly acclaimed *The Yacoubian Building* returns with a story of love, sex, friendship, hatred, and ambition set in Chicago, with a cast of American and Arab characters achingly human in their desires and needs. Egyptian and American lives collide on a college campus in post-9/11 Chicago, and crises of identity abound in this extraordinary and eagerly anticipated new novel from Alaa Al Aswany. Among the players are a sixties-style anti-establishment professor whose relationship with a younger African-American woman becomes a moving target for intolerance; a veiled PhD candidate whose belief in the principles of her traditional upbringing is shaken by her exposure to American society; an émigré whose fervent desire to embrace his American identity is tested when he is faced with the issue of his daughter's "honor"; an Egyptian informant who spouts religious doctrines while hankering after money and power; and a dissident student poet who comes to America to finance his literary aspirations but whose experience in Chicago turns out to be more than he bargained for. Populated by a cast of intriguing, true-to-life characters, Chicago offers an illuminating portrait of America—a complex, often contradictory land in which triumph and failure, opportunity and oppression, licentiousness and tender love, small dramas and big dreams, coexist. Beautifully rendered, Chicago is a powerfully engrossing novel of culture and individuality from one of the most original voices in contemporary world literature.

*Political Essay on the Kingdom of New-Spain* University of Illinois Press

In *Black Chicago's First Century*, Christopher Robert Reed provides the first comprehensive study of an African American population in a nineteenth-century northern city beyond the eastern seaboard. Reed's study covers the first one hundred years of African American settlement and achievements in the Windy City, encompassing a range of activities and events that span the antebellum, Civil War, Reconstruction, and post-Reconstruction periods. The author takes us from a time when black Chicago provided both workers and soldiers for the Union cause to the ensuing decades that saw the rise and development of a stratified class structure and growth in employment, politics, and culture. Just as the city was transformed in its first century of existence, so were its black inhabitants. Methodologically relying on the federal pension records of Civil War soldiers at the National Archives, as well as previously neglected photographic evidence, manuscripts, contemporary newspapers, and secondary sources, Reed captures the lives of Chicago's vast army of ordinary black men and women. He places black Chicagoans within the context of northern urban history, providing a better understanding of the similarities and differences among them. We learn of the conditions African Americans faced before and after Emancipation. We learn how the black community changed and developed over time: we learn how these people endured—how they educated their children, how they worked, organized, and played. *Black Chicago's First Century* is a balanced and coherent work. Anyone with an interest in urban history or African American studies will find much value in this book.

*W. E. B. Du Bois, 1919-1963* Wentworth Press

The first major history of Chicago ever written, *A History of Chicago* covers the city's great history over two centuries, from 1673 to 1893. Originally conceived as a centennial history of Chicago, the project became, under the guidance of renowned historian Bessie Louise Pierce, a definitive, three-volume set describing the city's growth—from its humble frontier beginnings to the horrors of the Great Fire, the construction of some of the world's first skyscrapers, and the opulence of the 1893 World's Fair. Pierce and her assistants spent over forty years transforming historical records into an inspiring human story of growth and survival. Rich with anecdotal evidence and interviews with the men and women who made Chicago great, all three volumes will now be available for the first time in years. *A History of Chicago* will be essential reading for anyone who wants to know this great city and its place in America. "With this rescue of its history from the bright, impressionable newspapermen and from the subscription-volumes, Chicago builds another impressive memorial to its coming of age, the closing of its first 'century of progress.'"—E. D. Branch, *New York Times* (1937)
