blow sky high when international murder hits dangerously close to home in this dynamite novel by Janet Evanovich. "The most popular mystery writer alive."—The New York Times Before Stephanie can even step foot off Flight 127 Hawaii to Newark, she's knee deep in trouble. Her dream vacation turned into a nightmare, and she's flying back to New Jersey solo. Worse still, her seatmate never returned to the plane after the L.A. layover. Now he's dead, in a garbage can, waiting for curbside pickup. His killer could be anyone. And a ragtag collection of thugs and psychos, not to mention the FBI, are all looking for a photograph the dead man was supposed to be carrying. Only one

other person has seen the missing photo—Stephanie Plum. Now she's the target, and she doesn't intend to end up in a garbage can. With the help of an FBI sketch artist Stephanie re-creates the person in the photo.

Unfortunately the first sketch turns out to look like Tom Cruise, and the second sketch like Ashton Kutcher. Until Stephanie can improve her descriptive skills, she'll need to watch her back. Over at the bail bonds agency things are going from bad to worse. The bonds bus serving as Vinnie's temporary HQ goes up in smoke. Stephanie's wheelman, Lula, falls in love with their largest skip yet. Lifetime arch nemesis Joyce Barnhardt moves into Stephanie's

apartment. And everyone wants to know what happened in Hawaii? Morelli, Trenton's hottest cop, isn't talking about Hawaii. Ranger, the man of mystery, isn't talking about Hawaii. And all Stephanie is willing to say about her Hawaiian vacation is . . . It's complicated.

Blonde Angel - War Girl Ursula LSU Press

In her moving and deeply personal memoir, Ella E. Schneider Hilton chronicles her remarkable childhood - - one that took her from the purges of Stalinist Russia to the refugee camps of Nazi and postwar Germany to the cotton fields of Jim Crow Mississippi before granting her access to the American dream. Despite her hard life as a refugee,

Ella finds solace in others and retains her indomitably inquisitive spirit. Throughout her ordeals, she never relinquishes hope or sight of her goal of education. Poignantly and freshly rendered, this is a tale of determination. It is the story of a girl caught up first in the maelstrom of World War II and then in the complexities of American southern culture, adjusting to events beyond her control with resiliency as she searches for faith, knowledge, and a place in the world.

 "This book will astonish and inspire you. One woman's shocking true story of abduction, war and survival." - Brian Whitney, author of *SUBVERSIVE* In the fall of 1994, 21-year-old

Elena Nikitina disappeared. Drugged and kidnapped by a group of Chechen gangsters, she was driven through the night to Chechnya. Kept prisoner in a tiny room, she waited while the gang tried to ransom her back to her mother. But a few weeks after the abduction, war broke out between Russia and Chechnya. Life became very cheap, very quickly, and tiny Chechnya became an apocalyptic killing zone. All contact was cut off. There was no electricity. There was no telephone service. There could be no negotiations for Elena's release. Elena was one lost soul, powerless, and at the mercy of hardened criminals who now fancied themselves patriotic

freedom fighters. And she was their enemy – the face of the Russian invader. Through eight horrifying months of captivity, trapped in a land where countless people were dying every day, Elena fought desperately to stay alive, stay sane, and not lose the one thing that kept her going - hope. GIRL, TAKEN is her powerful memoir of that time. It is the harrowing yet stirring tale of a young woman whose courage, determination, and inner strength ultimately delivered her back to her life and her loved ones.

Each suicide is as unique as the individuals involved, especially if one examines the nature of

the act and to what extent these acts can be viewed as a theatrical performance. Focusing on the dramatic aspects of suicide may seem tangential to the physical and mental pain experienced by those who try to kill themselves, but dramatic aspects often provide important clues for understanding the mental state of suicidal individuals. David Lester and Steven Stack investigate what happens in the weeks, days and hours before a suicide when the suicidal individual must make decisions and formulate the script for his or her suicidal act. The editors argue that these choices may help us understand and prevent other suicides and stimulate new and

innovative research in this important area. Through twenty-five substantive chapters, including both quantitative and qualitative analyses, this book offers insights into suicide as a dramatic act, with chapters on the intended audience, the suicide note, the location and method chosen, and cultural scripts, including suicide-by-cop, sati, seppuku, and duels. The contributors to this volume argue that psychological, social, and cultural factors influence these choices and that the decisions made by the individual are important for understanding the mental state of the person choosing to die by suicide.

Suicide as a Dramatic

Performance Marion Kummerow
 “A rip-roaring Swiftian satire from a contemporary Chinese master” follows a rural community’s transformation from small village to megalopolis (The Economist). With the Yi River on one side and the Balou Mountains on the other, the village of Explosion was founded more than a millennium ago by refugees fleeing a seismic volcanic eruption. But in the post-Mao era the name takes on a new significance as the community grows explosively from a small village to a vast metropolis. Behind this rapid expansion are members of the community’s three major families, including the four Kong

brothers; Zhu Ying, the daughter of the former village chief; and Cheng Qing, who starts out as a secretary and goes on to become a powerful political and business figure. Linked together by a complex web of loyalty, betrayal, desire, and ambition, these figures are the driving force behind their hometown's transformation into an urban superpower. Brimming with absurdity, intelligence, and wit, *The Explosion Chronicles* considers the high stakes of passion and power, the consequences of corruption and greed, the polarizing dynamics of love and hate between families, as well as humankind's resourcefulness through the vicissitudes of life.

"Yan's burlesque of a nation driven insane by money is equally a satire of some of the excesses of the Chinese Revolution."

What if in the future there really was a perfect race, or at least the beginnings of one?

Well, that is exactly what started on Earth in a secret laboratory, and when K1374, or the being more commonly known as "K" escaped, the galaxy had never seen anything comparable to her abilities and strength. Once K arrives on her new planet, she learns about many different cultures, customs and individuals, and eventually becomes a revered leader among her people. A true warrior, she defends those she cares about and annihilates those attempting to do harm, all the while watching over her shoulder for representatives from Earth who might come looking for her. Having a family and leading the way into the future is what drives this truly

“perfect being” in her quest for happiness. Follow her gripping adventures in this new-age science fiction tale **The Grace of Kings** Archway Publishing In Afghanistan, British secret servicewoman Marcie Brown, posing as the third wife of one of ISAF’s most trusted operatives, is killed in a drone strike. Or at least, that’s what the official report states. Deep inside enemy territory, what remains of her body is deemed irrecoverable. Seven thousand miles away, in Britain, her grieving husband, MI7 Officer Nicholas Fleming, joins a police investigation which stumbles onto an Islamist plot to bomb central London. Handed responsibility for the counter-terrorism initiative, he uncovers evidence that

one of the bombers is his wife. By degrees, the utterly unbelievable becomes plausible and, at last, undeniable. Questions such as what really happened to her become academic as love and duty are rendered incompatible. To save the lives of hundreds of innocent people, Fleming must order the destruction of the only woman he has ever loved. To make matters worse, there is evidence that she is slowly recovering her memory ... The Girl From Kandahar is a love story played out on both sides of the War on Terror. Its detailed understanding of Pashtun culture and Islam is matched by a corresponding recognition of Western motives and concerns.

Above all, it deals with the human side of the conflict: families split, loved ones lost, communities broken, distrust, hostility, grief. Yet its prognosis is far from bleak. In the end, it may be that no ideology is as powerful as the simple truth that our best hope lies in each other.

The Media's Role in Defining the Nation

HarperCollins

In 1897, William Randolph Hearst said that his newspaper did not simply cover events that had already happened. «It doesn't wait for things to turn up», Hearst said. «It turns them up.» This book traces the close relationship between media and the United States' development from the colonial period to the twenty-first century. It explores how the active voice of citizen-journalists and trained media professionals has turned to media to

direct the moral compass of the people and to set the agenda for a nation, and discusses how changes in technology have altered the way in which participatory journalism is practiced. What makes the book

powerful is that its assessment of the influence and use of media encompasses many levels: it explores the potential of media as an agent for change from within small communities to the national stage.
