The potato--humble,

lumpy, bland, familiar-- is a decidedly unglamorous staple of the dinner table. Or is it? John Reader's narrative on the role of the potato in world history suggests we may be underestimating this remarkable tuber. From domestication in Peru 8,000 years ago to its status today as the world's fourth largest food crop, the potato has played a starring--or at least supporting--role in many chapters of human history. In this witty and engaging book, Reader opens our eyes to the power of the potato. Whether embraced as the solution to hunger or wielded as a weapon of exploitation, blamed for famine and death or recognized for spurring progress, the

potato has often changed the course of human events. Reader focuses on sixteenth-century South America, where the indigenous potato enabled Spanish conquerors to feed thousands of conscripted native people; eighteenth-century Europe, where the nutrition-packed potato brought about a population explosion; and today's global world, where the potato is an essential food source but also the world's most chemically-dependent crop. Where potatoes have been adopted as a staple food, social change has always followed. It may be "just" a humble vegetable, John Reader shows, yet the history of the potato has been anything but dull.

God created animals with everything they needed. To be content and succeed, He designed homes perfectly suited to each one. However, the animals were unhappy with the places that God had made for them and eventually gave into the insecurities and fears they all felt. Owl was

frightened of the dark, Mountain Goat became faint-hearted as he looked down from the narrow mountain ledge. Duck panicked every time she neared the water. Camel detested the hot, dry wind and Penguin hated the icy cold. Through whimsical illustrations and creative prose, "God Gave Me Everything I Need To Be Me!" encourages self acceptance, individuality and appreciation as the animals finally realize God had given them exactly what each one required to make them complete.

*Japanese - The Spoken Language* Metropolitan Museum of Art  
Sanford Gifford (American, 1823-1880), a leading Hudson River School

landscape painter and a founder of The Metropolitan Museum of Art, was so esteemed by the New York art world that, at his untimely death, the Museum mounted a show of his work-the first monographic exhibition accorded any artist-and published a Memorial Catalogue that, for nearly a century, remained the principal source on his oeuvre. Gifford's art, which was inspired by the work of Thomas Cole, the founder of the Hudson River School, and by that of British artist J.M.W. Turner, and enriched by his travels in Europe (from 1855 to 1857, and from 1868 to 1869), came to be called "air painting," for he made the ambient light of each scene-color saturated

and atmospherically potent-the key to its expression. His approach to painting and his unique style gave rise to a highly distinctive body of work with enchanting and mesmerizing effect. This publication examines seventy paintings by the artist and includes comparative illustrations of related works by Gifford, his Hudson River School mentors and colleagues, and those painters, in addition to Cole and Turner, who exerted influence on his art, including Frederic Edwin Church and John F. Kensett. The essays discuss Gifford's place in the Hudson River School, his numerous Catskill Mountain subjects, his experiences and perceptions as a

traveler both at home and abroad, and the variety of his patrons. -

Rodopi Haggai, Zechariah 1-8, Volume 25B in the acclaimed Anchor Bible part of the Scripture known as the Minor Prophets, were written during a critical period in Israel's history, the momentous return of the Jews from Babylonian exile. Following the conquest of Babylon by the Persian Empire, the Israelites sought to reestablish their ethnic and religious legacy in Judah. This was a time of profound turmoil and uncertainty, and Haggai and Zechariah provided a crucial measure of support and inspiration. They rallied Israel's energies

and exhorted their fellow countrymen to heed the word of God. Under their guidance the Jews restored the Temple at Jerusalem, which had been destroyed by the armies of Nebuchadnezzar. Together the two prophets guided Israel through an important transitional epoch, and reconciled the influences of Persia's dominion with the sacred traditions of the Hebrew people. In this illuminating new translation and commentary, Carol and Eric Meyers consider the Book of Haggai and the first eight chapters of the Book of Zechariah in a linguistic, social, and historical context. They underscore the literary artistry, the political acumen, and the

prophetic authority of these fascinating volumes that proved so vital to the survival of Israel and the preservation of the Jewish faith.

Two hundred years before Hardy disguised it as Casterbridge, Dorchester was a typical English county town, of middling size and unremarkable achievements. But on 6 August 1613 much of it was destroyed in a great conflagration, which its inhabitants regarded as a 'fire from heaven', the catalyst for the events described in this book. Over the next twenty years, a time of increasing political and religious turmoil all

over Europe, Dorchester became the most religiously radical town in the kingdom. The tolerant, paternalist Elizabethan town oligarchy was quickly replaced by a group of men who had a vision of a godly community in which power was to be exercised according to religious commitment rather than wealth or rank. One of this book's most remarkable achievements is the recreation, with an intimacy unique for an English community so distant from our own, of the lives of those who do not make it into history books. We glimpse the ordinary men and women of the town drinking and swearing, fornicating and repenting, triumphing over their neighbours or

languishing in prison, striving to live up to the new ideals of their community or rejecting them with bitter anger and mocking laughter. In its subtle exploration of human motives and aspirations, in its brilliant and detailed reconstruction, this book shows how much of the past we can recover when in the hands of a master historian.

"During the years of the Great Depression in America, modernist designers developed products and lifestyle concepts intended for middle-class, not elite, consumers. In this fascinating book, [the author] coins the term 'livable modernism' to describe this school of design. Livable modernism combined international style functional efficiency and sophistication with a respect for American consumers' desires for physical and psychological comfort, paving the way for the work of Charles and Ray Eames and other post-World War II designers. [The author] offers a new view of modernist furnishings marketed for middle-class living rooms, dining rooms, and bedrooms of the

1930s, and provides groundbreaking analyses of many of the most popular items, including George Sakier's stemware for the Fostoria Glass Company, Russel Wright's American modern furniture for Macy's, and Gilbert Rohde's clocks for the Herman Miller Clock Company. As the first study of the marketing of modern design during the Depression years, [this book] features an extensive array of vintage advertisements from such magazines as 'Better Homes and Gardens', 'House Beautiful', 'Ladies' Home Journal', and the 'Saturday Evening Post'. [The author] discusses the relation of modernism to the cultural and economic

climate of the Depression and examines the sophisticated marketing strategies of the movement that coincided with a period of tremendous growth for print magazines and the advertising industry. Filled with fresh insights into a fascinating period in American modern design, this book provides an important new look at these designers' and design companies' philosophies, innovations, and influence that until now have been under-appreciated"--

Penguins Downsvievw : Ontario, Ministry of Transportation, Electrical Engineering Section "Fairies Afield" is a children's fantasy story written by Mary Louisa Molesworth, a well-known English children's author in the late nineteenth and early twentieth century. The book, published in 1902, is

part of Molesworth's wide body of work, which includes a number of novels and stories for children. The story follows two siblings, Tottie and Tittie, as they go on a fantastic journey into the world of fairies. The children discover a secret road in the woods that leads them to the world of the fairies, where they meet a variety of wonderful creatures and participate in quirky and enchanting adventures. The kids become friends with fairies, elves, and other mystical creatures as they explore this magical realm. Like children's books from the Victorian and Edwardian eras, the story is full with endearing moments and soft moral messages. The

narratives of Molesworth highlight kindness, amazement, and inventiveness. "Fairies Afield" perfectly encapsulates the essence of beloved children's books with its themes of friendship, magic, and youthful innocence. For those who appreciate classic stories of magic and adventure, the novel is still enjoyable.
