**Dyslexia's Competitive Edge** The Millionaire Master Plan Your Personalized Path to Financial Success

The Millionaire Master Plan is a unique and fresh approach as to how individuals can not only get a sense of where they stand on the spectrum of personal wealth, but more importantly, how they can learn to ascend from their present state to a higher level. Roger James Hamilton, himself a highly successful entrepreneur and successful investor, has designed nine steps - from barely surviving - all the way to the highest level of ultimate wealth for life - and he lays out his nine steps in an easy-to-understand color-coded manner that ranges from red (barely living paycheck-to-paycheck) all the way to ultra-violet (where generating income is simply no longer a worry). Along the way, the reader first takes a quick test to determine where one is on the financial spectrum, and then Hamilton provides key insights and practical tips as to how one can progress to the next level. You track your progress by ascending from one color to the next.

Why do entrepreneurs constantly search for success, when it is happiness they are after? It is this question that many never stop to think about on their entrepreneurial journey. This blind push has created a crisis that is driving many entrepreneurs down the wrong path, and leading to lives of complete unhappiness, frustration, and a loss of who they are. Regardless of their success. Despite how they feel, they push even harder hoping that they will be able to move forward and feel better

once they reach the next level. But no matter what they do, or what level they are at, these deep feelings, thoughts, and emotions, never go away. The constant barrage of emotions, influence, and beliefs has only strengthened this crisis. It has become a large epidemic that very few people are talking about or even realize exists. It is destroying who entrepreneurs are, and ultimately keeping them from what they really want. "The Entrepreneurial Identity Crisis" aims to answer why this is happening to so many entrepreneurs, and why so many of them don't even realize they have been drawn into this crisis. Along with explaining why this is happening, this book aims to show entrepreneurs what they can do to not only reach the level of success that they want, but to feel happy, content, and fulfilled as well.

NEW YORK TIMES BESTSELLER • When did America give up on fairness? The author of *Fantasyland* tells the epic history of how America decided that big business gets whatever it wants, only the rich get richer, and nothing should ever change—and charts a way back to the future. “Essential, absorbing . . . a graceful, authoritative guide . . . a radicalized moderate’s moderate case for radical change.”—The New York Times Book Review During the twentieth century, America managed to make its economic and social systems both more and more fair and more and more prosperous. A huge, secure, and contented middle class emerged. All boats rose together. But then the New Deal gave way to the Raw Deal. Beginning in the early 1970s, by means of a long war conceived of and executed by a confederacy of big business CEOs, the superrich, and right-wing zealots, the rules and norms that made the American middle class possible were undermined and dismantled. The clock was turned back on a century of economic progress, making greed good, workers powerless, and the market all-powerful while weaponizing nostalgia, lifting up an oligarchy

that served only its own interests, and leaving the huge majority of Americans with dwindling economic prospects and hope. Why and how did America take such a wrong turn? In this deeply researched and brilliantly woven cultural, economic, and political chronicle, Kurt Andersen offers a fresh, provocative, and eye-opening history of America’s undoing, naming names, showing receipts, and unsparingly assigning blame—to the radical right in economics and the law, the high priests of high finance, a complacent and complicit Establishment, and liberal “useful idiots,” among whom he includes himself. Only a writer with Andersen’s crackling energy, deep insight, and ability to connect disparate dots and see complex systems with clarity could make such a book both intellectually formidable and vastly entertaining. And only a writer of Andersen’s vision could reckon with our current high-stakes inflection point, and show the way out of this man-made disaster.

In 1967 Sally Smith needed a school for her son Gary, who suffered from dyslexia, among other learning disabilities. Finding none, she founded one, the Lab School of Washington. In the process, she developed the Academic Club Methodology, by which children with learning disabilities can be engaged and inspired in school, where they had previously suffered only frustration and defeat. While directing the Lab School, Smith taught her system and ran the master's program in special education at American University for 32 years, inspiring a new generation of teachers to pioneer innovations in education. Smith also wrote books, starting with ""No Easy Answers"" in the late 70s and in various editions thereafter, that serve as the definitive works in the special education field. Smith was driven, creative, unique, and unforgettable.
