Lose weight and keep it off the easy way Orion Si King and Dave Myers, AKA the Hairy Bikers have travelled an interesting road. Born in the north of England, both Si and Dave had their childhood challenges. For Si, being bullied as the fat kid in class was part of his daily school routine. For Dave, his life changed when he became a childhood carer for his mother. But through the challenges of their early years came a love of really good food. And it was food that brought Si and Dave together. Their eyes met over a curry and a pint on the set of a Catherine Cookson drama, and they knew they would be firm and fast friends for life. From deserts to desserts, potholes to pot roasts, the nation's favourite cooking duo reveals what's made their friendship such a special and lasting one. They've eaten their way around the world a good few times, but have never lost sight of what matters: great friends, great family and great food. In this heartwarming memoir of friendship and hilarious misadventure, Si and

Dave take you on the ride of their lives!

momentous medical breakthrough —a scientifically proven program for managing and reversing Type 2 Diabetes at any stage of health. The fastest growing disease in the world, Type 2 diabetes has long been regarded as an incurable, lifelong condition that becomes progressively worse over time, resulting in pain, loss of vision, amputation, and even premature death. But there is hope. For more than four decades, Dr. Roy Taylor has been studying the causes of diabetes. In 2017, he had a breakthrough: he found scientific proof that Type 2 diabetes is not only reversible, but that anyone following a simple regimen can prevent and cure it. Dr. Taylor's research shows that Type 2 diabetes is caused by too much fat in the liver and pancreas, which interferes with both organs' normal functioning. By losing less than 1 gram of fat, the liver and organ can begin to perform as they were

designed to once again—thus beginning the reversal process. The most efficient way to shed fat from the liver and pancreas is to lose weight as quickly as possible. Life Without Diabetes makes it easy for people to cut back on their daily calorie intake and avoid the two big problems of dieting—hunger and choice—and lose up to 35 pounds in just eight weeks. Thanks to Dr. Taylor, we can now fundamentally change how we treat and prevent this debilitating and all-too-common disease forever.
