Imaging and interacting with Sophia as the feminine face of God is the focus of Wisdom's Feast. Moving from ancient biblical references to present day context, the authors skillfully stage a series of thought-provoking and

participative liturgies to integrate experience of Sophia with theory and theology. Sophia enters eucharistic situations, life festivities and shared prayer rites, impacting the reader on an emotional as well as an intellectual plane.

Popular TV Host Reveals How to Get Supernatural Help for Everyday Struggles Many believers know in their

heads that God cares about them. But it's hard to hold that truth in your heart when you're worn out and weary from the mundane, everyday battles and struggles--when you lose your temper again or give in to that persistent temptation or feel paralyzed by overwhelming circumstances. The truth is that the Holy Spirit is right there--waiting for you to let him help. With warmth and encouragement, Sarah Bowling shows how he longs to be part of every situation you face in life, from the exciting, mountaintop experience to day-in, day-out hardships. She'll help you identify the daily challenges and problems and then match those up to the Holy Spirit for supernatural results. As you see how the Helper moved in the lives of the disciples and apostles, you'll

begin to recognize the uniquely supernatural expressions of the Holy Spirit in your own daily life. Your faith will be encouraged as you discover how a Spirit-led life means Spirit-filled help, no matter what you may face.

A collection of one-liner wisdom to help readers learn, laugh, and heal.

"Expectations are premeditated resentments." "Get out of your own way." "Laughter is the sound effect of recovery." Sandi Bachom has spent a fair amount of time "in the hallways" of life, trying to find her way out of, around,

or through various crises—addiction, divorce, unemployment, and more. She developed a keen ear for wise sayings along the way—and it's a good thing she was paying such close attention. In Hell in the Hallway, Bachom shares hundreds of insights gathered in the midst of life's stall-outs, setbacks, and hardships. One-liners dispensed with a humorous slant. Universal truths spelled out in everyday language. Life's lessons boiled down to bite-size pieces. Topics covered range from acceptance to fear, laughter to healing, denial to spirituality, providing readers with an always accessible source of inspiration and support.

The First Native American tradition of elders imparting wisdom to younger generations has no counterpart in contemporary American culture. Our culture has no systematic way of transmitting the knowledge of our

seniors to our young people. If anything, a societal disconnect or gulf exists between our older and our younger people. As a grandfather and as an elder at age 60, I use this book to pass on to my three grandchildren (as well as to other readers) 50 bits of wisdom I have learned from six decades of living in this society. The 50 bits are derived from experiential learning. They come from the joys and the vicissitudes I have had and from the successes and the mistakes I have made. The 50 bits of wisdom are by no means intended to be exhaustive of all the wisdom available to us. Numerous sources contain additional and valuable wisdom, and I encourage my grandchildren (and my readers) to pursue these other helpful resources. The 50 bits are those which I have been

able to integrate into my life, and so I know them personally. They are a part of my value system and my daily behavior. My goal for this book is to help make my three grandsons lives (and my readers lives) a little bit better, happier, or easier. My hope is that something written here will be of benefit to them. The book is organized into three sections and an appendix. Section I: Universal (Non-Spiritual) Concepts is devoted to a discussion of 14 concepts experienced by most, if not all, people; hence, the word, Universal. These concepts are: Change; Struggle; Suffering; Wounded and Healing; Diversity; Acknowledgment; Cause and Effect; Broad Strokes versus Fine Strokes; Communication; Transcending Ego; Projection; Support Systems; Unintended Outcomes; and

Entropy. Section II: Spiritual Concepts explicates 19 concepts which draw on interfaith spiritual wisdom, transcending teachings of any one particular religion. They also draw on near-death experience research findings. The concepts included are: God; The Golden Rule; Unconditional Love; We Are All Children of God; Religious Pluralism; Mindfulness; Balance; Helping Others; Karma; Dark Night of the Soul; Compensatory Gifts; Go With Your God-Given Gifts; Environmental Stewardship; Putting Problems in Gods Hands; Thankfulness; Mission; Be a Good Person; Forgiveness; and Find Your Own Spiritual Path. Section III: Helpful Maxims elucidates 17 principles which have provided guidance for leading my life. These are: take a problem and turn it

into an opportunity; most things in life are neither all black nor all white; always try to make things a little bit better; it is better to be safe than sorry; speak truth to power; bad things may happen to good people; when is enough, enough?; waste not, want not; the known often seems safer than the unknown; all behavior is understandable if seen through the eyes of the person doing the behaving; learn from your mistakes; never stop learning; trust your feelings; if you are not sure, dont make a hasty decision; dont be afraid to go against the grain; make hay while the sun shines; and, vote. And, the Appendix catalogues 20 additional axioms, the truth of which I have been able to glimpse but the essence of which I have not been able to incorporate into my life as fully as the 50

bits of wisdom discussed in Sections I, II, and III. These are: if it isnt broken, dont fix it; let the person who is without sin cast the first stone; dont panic; what are the underlying, unspoken feelings here?; dont look back; cut your losses; everything happens for a reason; make time for play; buyer beware; laughter is good medicine; when one door closes, another door opens; image, regrettably, matters; two steps forward and one step back; expectations may lead to disappointments; speak from your own experience; the ends do not justify the means; do the job right; practice right speech; recognize a window of opportunity; and namaste! From USA Today bestselling author Grahame Claire comes the gripping conclusion to the Crash & Burn Duet. For as long as I can remember I've wanted to fight fire. There's no high like rushing into a burning building knowing you could save a life. Ever since I met Pepper, I've only put her in danger. But even that knowledge can't keep me away. She's everything I never knew I needed. Kind, brave, and never hesitates to put me in my place. But someone isn't happy I've found a place with her. As the threats close in around us, I have a

choice make. Give up everything I've dreamed or lose the woman who has made me whole. The fires are closing in. Time is running out. And we might both be burned to ashes.

Are you looking for a job?. As one door closes another one opens. There may be a brief time in between the doors when you are meant to reflect or learn from your old door before you can be ready to step into the opening of a new one. A closed door may be an opportunity to move forward in our lives. This is a time of preparation, a time to find peace within you. The door that was shut will always be a glass door. Look back through it with gratitude and embrace every moment you had, while it was open. It was a part of you, which has helped mold you into the person you

have become. Failure is there not without a reason. It's there to give you the wisdom you need to succeed. Each failure you encounter increases your wisdom and brings you one step closer to success. If you have this mindset, you will see failure differently. You will see each failure as an opportunity to learn. "Your new door is opening; don't miss a step or a chance to walk through it". Your three most powerful tools at this point will be to have faith, allow time to heal wounds, and have patience. When one door closes another one opens bringing opportunities and adventure beyond our wildest imagination. When faced with that locked door, take a deep breath, give a prayer of thanks, and prepare for the miracle that will become your life. Hold on to your dreams and

never let them go. Show the rest of the world how wonderful, unique and special you are by giving your circumstances a chance and others the benefit of the doubt. Never give up.

The concept of gender is one that is static for many and malleable for some. Many mistakenly interchange gender with sexuality. Some argue that it is cultural/environmental, while other say that it is genetic. What is gender? The answer continues to elude. Tarynn Whitten's introspective work seeks to

explore the mystery of gender identity through an integration of various principles of Taoism. The Tao of Gender grew out of a personal need to provide peaceful reading for those who seek “The Way” on their journey through life, in a world where transgenderism and transsexuality are all too often misunderstood. The author hopes to help those on this journey to find balance by tapping into their infinite capacity for resourcefulness and wisdom within. What readers are saying This book is a gift of inspiration and insight for those who experience gender fluidity or want to explore the nature of transgenderism. Tarynn artfully weaves the personal and the philosophical, creating a tapestry of gender and Taoism with threads of self-discovery and

renewal.—Randi Ettner, Ph.D., author of Gender Loving Care; and Confessions of a Gender Defender
