Synopsis: "Damned Beings. The Origin" is a coral novel which presents a gallery of supernatural characters in an urban, cruel and chaotic world. A tormented vampire, necromancers, demons and shapeshifters living together with prostitutes and all kinds of marginal beings. The monster within the monster. The villain inside the hero and the hero inside the villain in a story where nothing is what it seems, which delves into the perspective of the monster, in its fears and insecurities, in its defects and virtues. Greed, cruelty and violence; despair, loneliness and pain; and humor and sex as a means of escape. Welcome to a world of dark fantasy, where humor, mystery, tenderness, eroticism, magic, psychological terror and suspense mix together. Opinions: "Original, different,

intriguing... It is all tat and much more. Through its pages vampires, necromancers, demons parade, but they are not the typical charaters we would expect. They are deep characters, capable of the greatest tenderness and the biggest crimes, contradictory, sensitive, human" Gemma Gerrero, writer. "If you like the vampire, dark beings and magic genre, Damned Beings is your novel and, if not, you will be able to find a book full of very human feelings which will excite you," Ara. "It easily and intelligently drives the action long with the mystery in a novel starring vampires, necromancers, demons, among others, where nothing is at it seems and in which the hero and the villain can switch roles at any time. Splashed with love, fantasy, sex and humor, it is an agile and very nice novel." Pilar Camo. "Damned Beins is written with tremendous craftsmanship, the craftsmanship of professional writing which proposes a complex and different writing in an eroded world where nothing is as it seems." Red Literario Falsaria. "A whole exercise of overflowing imagination with an ending which leaves an open, implicit promise that the second part will be very exciting." Escritorio del buho Blog. "A book which charms through its good pace, which utilizes a simple language to build a plot based on a good labor of documentation. Crude, fun, sex, hate...

a lot of ingredients which fascinate together. I found myself devouring the pages, like abducted by a plot and some characters from whom I needed to know more" Libros que voy leyendo Blog. "It presents a series of dark characters with sparks of humanity. With a contemporary language that does not become vulgar, with constant winks at movies, music and even TV shows currently present, historical characters, with a great sense of humor, Eba keeps the reader avid for more reading" La princesa ya se ve Blog. A book loaded with subliminal messages where very real situations are present, like: bullying, abuse, love, hate and revenge, so it makes you follow two possible readings: the easy and nice one or the one that, between the lines, shows you the society we live in. Rigorously documented and full of literary, musical and humorous brushes, it makes its reading addictive. Along with Dracula, it's one of the best I have read," Nuria. Every damned page of this story knows how to catch the interest of the reader," Juan Manuel. The second part of the saga, Damned Beings. The Conversion, is already available, both in paper and in digital version. The author is working, currently, on the third book of the saga. *Atomic Habits* Tommy Nelson

365 Fairy Tales, Rhymes and Other Stories Penguin

Throughout his illustrious writing career, Charles Dickens often turned his hand to fashioning short pieces of ghostly fiction. Even in his first successful work, *Pickwick Papers*, you will find five ghost stories, all of which are included in this collection. Dickens began the tradition of the 'ghost story at Christmas', and many of his tales in this genre are presented here including the brilliant novella, 'The Haunted Man and the Ghost's Bargain', which deserves to be as well known as A Christmas Carol. While all his supernatural tales aim to chill the spine, they are not without the usual traits of Dickens' flamboyant style, his subtle wit, biting irony, humorous incidents and moral observations. It is a mixture which makes these stories fascinating and entertaining as well as unsettling. To paraphrase the Fat Boy in *Pickwick Papers*: Charles Dickens 'wants to make your flesh creep.'

Tiny Changes, Remarkable Results No matter your goals, *Atomic Habits* offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. *Atomic Habits* will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.
