The oral factor in Chinese literature, although critically important, has been largely neglected in the scholarship of the last generation. In this study, one of the leading specialists in classical Chinese literature introduces readers to a repertoire of seventy-seven songs and ballads of early imperial China. Each song-text is newly translated and fully annotated and explicated. Anne Birrell deals systematically with problems of the earliest sources, attribution, textual variants, meter, and structure. Her

introductory essay provides a valuable sociohistorical context for this material. First published in 1988, this important study of the folk song has become standard reading for students of oral literature and Chinese folklore and popular culture.

The valleys, mountains, and deserts of Utah have been home to native peoples for thousands of years. Like peoples around the world, Utah's native inhabitants organized themselves in family units, groups, bands, clans, and tribes. Today, six Indian tribes in Utah are recognized as official entities. They

include the Northwestern Shoshone, the Goshutes, the Paiutes, the Utes, the White Mesa or Southern Utes, and the Navajos (Dineh). Each tribe has its own government. Tribe members are citizens of Utah and the United States; however, lines of distinction both within the tribes and with the greater society at large have not always been clear. Migration, interaction, war, trade, intermarriage, common threats, and challenges have made relationships and affiliations more fluid than might be expected. In this volume, the editor and authors endeavor to write the history of Utah's first residents from an Indian perspective. An introductory chapter provides an overview of Utah's American Indians and a concluding chapter summarizes the issues and concerns of contemporary

Indians and their leaders. Chapters on each of the six tribes look at origin stories, religion, politics, education, folkways, family life, social activities, economic issues, and important events. They provide an introduction to the rich heritage of Utah's native peoples. This book includes chapters by David Begay, Dennis Defa, Clifford Duncan, Ronald Holt, Nancy Maryboy, Robert McPherson, Mae Parry, Gary Tom, and Mary Jane Yazzie. Forrest Cuch was born and raised on the Uintah and Ouray Ute Indian Reservation in northeastern Utah. He graduated from Westminster College in 1973 with a bachelor of arts degree in behavioral sciences. He served as education director for the Ute Indian Tribe from 1973 to 1988. From 1988 to 1994 he was employed by the

Wampanoag Tribe in Gay Head, Massachusetts, first as a planner and then as tribal administrator. Since October 1997 he has been director of the Utah Division of Indian Affairs. This book is a joint project of the Utah Division of Indian Affairs and the Utah State Historical Society. It is distributed to the book trade by Utah State University Press.

This study of nationhood explores the 19th-century confrontation of ideas that transformed the kingdom of Siam into the modern conception of a nation. *Siam Mapped* demonstrates that the physical and political definition of Thailand on which other works are based is anachronistic.

Freedom in the World 2004 The Annual Survey of Political Rights & Civil Liberties  
 “This shocking expose of the CIA operation aimed at destroying the Vietcong infrastructure thoroughly conveys the hideousness of the Vietnam War” (Publishers Weekly). In the darkest days of the Vietnam War, America’s Central Intelligence Agency secretly initiated a sweeping program of kidnap, torture, and assassination devised to destabilize the infrastructure of the National Liberation Front (NLF) of South

Vietnam, commonly known as the “Viet Cong.” The victims of the Phoenix Program were Vietnamese civilians, male and female, suspected of harboring information about the enemy—though many on the blacklist were targeted by corrupt South Vietnamese security personnel looking to extort money or remove a rival. Between 1965 and 1972, more than eighty thousand noncombatants were “neutralized,” as men and women alike were subjected to extended imprisonment without trial, horrific torture, brutal rape, and in many cases execution, all under the watchful eyes of US government agencies. Based on extensive research and in-depth interviews with former participants and observers, Douglas Valentine’s startling exposé blows the lid off of what was

possibly the bloodiest and most inhumane covert operation in the CIA's history. The ebook edition includes "The Phoenix Has Landed," a new introduction that addresses the "Phoenix-style network" that constitutes America's internal security apparatus today. Residents on American soil are routinely targeted under the guise of protecting us from terrorism—which is why, more than ever, people need to understand what Phoenix is all about.

A collection of essays written on

twentieth-century Vietnamese society, *Vit Nam Expos* is one of only a handful of books written by French scholars for an English-speaking audience. The volume is multidisciplinary and represents a new trend in Vietnamese studies that addresses issues beyond politics, wars, and violence, exploring the complexity of more subtle power relationships in Vietnamese society. The book is divided into three parts. Part I, "Vietnamese Society in the Early Twentieth Century," takes a micro approach to the study of Vietnamese society on the eve of the irreversible social transformation that occurred as the colonial infrastructure took root in Indochina. Part II, "Vietnamese Intellectuals: Contesting Colonial Power," contains biographical accounts of Vietnamese intellectuals

who tried to reform their society under colonial domination. Part III, "Post-Colonial Vietnam: From Welfare State to Market-Oriented Economy," traces Vietnam's search for a viable economic model while maintaining itself as a socialist state. The book speaks to diverse themes, including the nature of village life, the development of health care during the colonial era, the status of women, the role of Vietnamese intellectuals in the anticolonial struggle, the building of a socialist state, contemporary rural migration, labor relations, and Vietnam in an age of globalization. This study uncovers the traditions behind the formative Classic Shàngshū (Venerated Documents). It is the first to establish these traditions—“Shū” (Documents)—as a historically evolving practice of thought-production. By focusing on the literary form of the argument, it interprets the “Shū” as fluid text material that embodies the ever-changing cultural capital of projected conceptual communities. By showing how these communities actualised the “Shū” according to their changing visions of history and evolving group interests, the study establishes that by the Warring States period (ca. 453–221 BC) the “Shū” had become a literary

genre employed by diverse groups to legitimize their own arguments. Through forms of textual performance, the “Shū” gave even peripheral communities the means to participate in political discourse by conferring their ideas with ancient authority. Analysing this dynamic environment of socio-political and philosophical change, this study speaks to the Early China field, as well as to those interested in meaning production and foundational text formation more widely.
