Handbook on Pretrial Justice Routledge

Criminal Justice 101: A First Course is an introductory level book intended for beginning criminal justice students. It provides students with a practical, reader-friendly experience and we present and explain our materials, as much as possible, in an easy-to-read, conversational style. The fundamentals and basic tenets of criminal justice are explored in 12 chapters (easily covered in one semester) and we avoid the sometimes lengthy and oftentimes cumbersome information that is prevalent in so many other publications. Our text also attempts to eliminate the unnecessary legal formulations and esoteric terminology that the beginning criminal justice student may not always need. The book provides basic and fundamental information that can easily be absorbed by the beginning criminal justice student in one semester. It is our intent to provide a book that will engage students, rather than burdening them with information that may, at times, be overwhelming and unnecessary at the introductory level.

The Handbook of Criminological Theory Springer

Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century. In the Handbook of Transnational Crime and Justice, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes, and criminal justice responses to transnational crime. This concise, reader-friendly handbook is organized logically around four major themes: the problem of transnational crime; analysis of specific transnational crimes; approaches to its control; and regional geographical analyses. Each comprehensive chapter is designed to be explored as a stand-alone topic, making this handbook an important textbook and reference tool for students and practitioners alike.

A Victim's Handbook on the Criminal Justice System Oxford Handbooks in Law

The Handbook on Crime is a comprehensive edited volume that contains analysis and explanation of the nature, extent, patterns and causes of over 40 different forms of crime, in each case drawing attention to key contemporary debates and social and criminal justice responses to them. It also challenges many popular and official conceptions of crime. This book is one of the few criminological texts that takes as its starting point a range of specific types of criminal activity. It addresses not only 'conventional' offences such as shoplifting, burglary, robbery, and vehicle crime, but many other forms of criminal behaviour - often an amalgamation of different legal offences - which attract contemporary media, public and policy concern. These include crimes committed not only by individuals, but by organised criminal groups, corporations and governments. There are chapters on, for example, gang violence, hate crime, elder abuse, animal abuse, cyber crime, identity theft, money-laundering, eco crimes, drug trafficking, human trafficking, genocide, and global terrorism. Many of these topics receive surprisingly little attention in the criminological literature. The Handbook on Crime will be a unique text of lasting value to students, researchers, academics, practitioners, policy makers, journalists and all others involved in understanding and preventing

criminal behaviour.

Handbook of Criminal Justice Evaluation John Wiley & Sons

Over the last two decades, researchers have made significant discoveries about the causes and origins of delinquency. Specifically, we have learned a great deal about adolescent development and its relationship to decision-making, about multiple factors that contribute to delinquency, and about the processes and contexts associated with the course of delinquent careers. Over the same period, public officials have made sweeping jurisprudential, jurisdictional, and procedural changes in our juvenile justice systems. The Oxford Handbook of Juvenile Crime and Juvenile Justice presents a timely compilation of state-of-the-art critical reviews of knowledge about causes of delinquency and their significance for justice policy, and about developments in the juvenile justice system to prevent and control youth crime. The first half of the handbook focuses on juvenile crime and examines trends and patterns in delinquency and victimization, explores causes of delinquency-at the individual, micro-social, and macro-social levels, and from natural and social science perspectives-and their implications for structuring a youth justice system. The second half of the handbook concentrates on juvenile justice and examines a range of issues-including the historical origins and re-invention of the juvenile court; juvenile offenders' mental health status and considerations of trial competence and culpability; intake, diversion, detention, and juvenile courts; and transfer/waiver strategies-and considers how the juvenile justice system itself influences delinquency. The Oxford Handbook of Juvenile Crime and Juvenile Justice provides a comprehensive overview of juvenile crime and juvenile justice administration by authors who are all leading scholars involved in cutting-edge research, and is an essential resource for scholars, students, and justice officials.

Criminal Justice 101 Routledge

This work addresses perspectives on the judicial, correctional and law enforcement components of the criminal justice system, including history, ethics, prevention, intervention, due process, marginalized populations, international consequences and demands for professionalism. It also examines critical variations in the criminal justice systems of countries worldwide.

Merriam-Webster's Dictionary of Law Oxford University Press

This book brings together leading international scholars and offers the first comprehensive and holistic overview of global research on technology, crime and the contemporary criminal justice process

Handbook of Criminal Justice Administration OUP USA

The Routledge Handbook of Criminal Justice Ethics Routledge

Routledge Handbook on Victims' Issues in Criminal Justice Oxford University Press

The Routledge Handbook on Victims' Issues in Criminal Justice is a comprehensive and authoritative handbook on current issues, with a distinctive emphasis on the delivery of suitable and effective services. The editor provides an introduction and conclusion to the handbook, synthesizing original contributions from current leaders in the field, surveying victims' rights in the United States, victim participation in the criminal justice system, victims' welfare and needs, and most notably the services that have been developed in response. A section on special populations in the United States

brings focus to current and emerging issues faced within the country, while a section covering international and transnational victimization explores globalization and the implications of other legal traditions and systems. This handbook addresses the crucial and complex topic of victims' issues, examining both societal and governmental reactions to victims' concerns and acquainting readers with the issues that discord may cause, and how they affect the provision of services. This book will serve as an essential reference for academics and practitioners working with crime victims, as well as for students taking courses in victimology, criminology, sociology, and related subjects.

The Oxford Handbook of Philosophy of Criminal Law Academic Press

A comprehensive and accessible overview of the operation of the American criminal justice system. This handbook's extensive coverage of the criminal justice system in the U.S. makes it an important reference for students and scholars in criminal justice, law, and public policy.

Handbook of Transnational Crime and Justice CRC Press

This authoritative volume explores different perspectives on economic and social justice and the challenges presented by and within the criminal justice system. It critically discusses key concerns involved in realizing economic and social justice, including systemic issues in economic and social justice, issues related to organizations and social institutions, special issues regarding specific populations, and a review of national and international organizations that promote economic justice. Addressing more than just the ideology and theory underlying economic and social justice, the book presents chapters with practical examples and research on how economic and social justice might be achieved within the criminal justice systems of the world. With contributions from leading scholars around the globe, this book is an essential reference for scholars with an interest in economic and social justice from a wide range of disciplines, including criminal justice and criminology as well as sociology, social work, public policy, and law.

Routledge Handbook of International Criminal Law Routledge

This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology. The work as a whole includes chapters on the measurement of criminal typologies, the offenders, offending and victimization, criminal justice organizations, and specialized measurement techniques. Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area. More importantly, each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas. An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research. The goal of this volume is to provide a definitive reference for professionals in the field, researchers, and students. This volume in the Handbooks in Criminology and Criminal Justice series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues. In each chapter, authors provide a summary of the prominent data collection efforts in the topical area, provide an overview of the current methodological work, discuss the challenges in the measurement of central concepts in the subject area, and identify new horizons emerging in data collection and measurement. We encouraged authors to discuss work

conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate.

The Oxford Handbook of Criminal Process NOLO

International criminal law has developed extraordinarily quickly over the last decade, with the creation of ad hoc tribunals in the former Yugoslavia and Rwanda, and the establishment of a permanent International Criminal Court. This book provides a timely and comprehensive survey of emerging and existing areas of international criminal law. The Handbook features new, specially commissioned papers by a range of international and leading experts in the field. It contains reflections on the theoretical aspects and contemporary debates in international criminal law. The book is split into four parts for ease of reference: The Historical and Institutional Framework – Sets international criminal law firmly in context with individual chapters on the important developments and key institutions which have been established. The Crimes – Identifies and analyses international crimes, including a chapter on aggression. The Practice of International Tribunals – Focuses on topics relating to the practice and procedure of international criminal law. Key Issues in International Criminal Law – Goes on to explore issues of importance such as universal jurisdiction, amnesties and international criminal law and human rights. Providing easy access to up-to-date and authoritative articles covering all key aspects of international criminal law, this book is an essential reference work for students, scholars and practitioners working in the field.

The Handbook of Social Control The Routledge Handbook of Criminal Justice Ethics

The Handbook on Pretrial Justice covers the front end of the criminal legal system from pretrial diversion to pretrial detention or release. Often overlooked, the decisions made at the earliest phases of the criminal legal system have huge implications for defendants and their families, the community, and the system itself, and impact the entire criminal legal system. This collection of essays and reports of original research explores the complexities of pretrial decisions and practices and includes chapters in the following broad areas: the consequences of detention, pretrial decision-making, community supervision, and risk assessment. The book also includes a section looking at pretrial justice outside of the U.S. Each chapter summarizes what is known, identifies the gaps in the research, and discusses the theoretical, empirical, and policy implications of the research findings. This is Volume 6 of the American Society of Criminology's Division on Corrections and Sentencing handbook series. The handbooks provide in-depth coverage of seminal and topical issues around sentencing and correction for scholars, students, practitioners, and policymakers.

Handbook of Crime Correlates John Wiley & Sons

The Routledge Handbook of International Crime and Justice Studies presents the enduring debates and emerging challenges in crime and justice studies from an international and multi-disciplinary perspective. Guided by the pivotal, although vastly under-examined, role that consumerism, politics, technology, and culture assume in shaping these debates and in organizing these challenges, individual chapters probe the global landscape of crime and justice with astonishing clarity and remarkable depth. A distinguished collection of experts examine the interdisciplinary field of international crime and justice. Their contributions are divided into thematic sections, including: theory, culture, and society industries of crime and justice: systems of policing, law, corrections and punishment the criminal enterprise global technologies media, crime, and culture green criminology

political violence public health criminology the political economy of crime and justice. All the chapters include full pedagogy and instructional resources for easy referencing or classroom use. This Handbook will be useful for students, scholars and practitioners of law, medicine, history, economics, sociology, politics, philosophy, education, public health, and social policy.

The Handbook of Comparative Criminal Law SAGE Publications

The Handbook of Social Control offers a comprehensive review of the concepts of social control in today's environment and focuses on the most relevant theories associated with social control. With contributions from noted experts in the field across 32 chapters, the depth and scope of the Handbook reflects the theoretical and methodological diversity that exists within the study of social control. Chapters explore various topics including: theoretical perspectives; institutions and organizations; law enforcement; criminal justice agencies; punishment and incarceration; surveillance; and global developments. This Handbook explores a variety of issues and themes on social control as being a central theme of criminological reflection. The text clearly demonstrates the rich heritage of the major relevant perspectives of social control and provides an overview of the most important theories and dimensions of social control today. Written for academics, undergraduate, and graduate students in the fields of criminology, criminal justice, and sociology, The Handbook of Social Control is an indispensable resource that explores a contemporary view of the concept of social control.

The Handbook of Measurement Issues in Criminology and Criminal Justice Oxford University Press

The criminal justice system is a complex maze of rules and procedures. The police and criminal courts confuse and intimidate people. And the media features plenty of conflicting images about what to expect if you're the victim of -- or accused of committing -- a crime.

[The Oxford Handbook of Criminal Law](#) Routledge

This handbook offers a comprehensive examination of crimes as public policy subjects to provide an authoritative overview of current knowledge about the nature, scale, and effects of diverse forms of criminal behaviour and of efforts to prevent and control them.

The Oxford Handbook of Crime and Criminal Justice Oxford University Press

This authoritative volume explores different perspectives on economic and social justice and the challenges presented by and within the criminal justice system. It critically discusses key concerns involved in realizing economic and social justice, including systemic issues in economic and social justice, issues related to organizations and social institutions, special issues regarding specific populations, and a review of national and international organizations that promote economic justice. Addressing more than just the ideology and theory underlying economic and social justice, the book

presents chapters with practical examples and research on how economic and social justice might be achieved within the criminal justice systems of the world. The Oxford Handbook of Ethnographies of Crime and Criminal Justice Merriam-Webster

'This timely, valuable and thought-provoking contribution to our understanding of the vibrant new subject that is international criminal law, is a great addition to the literature and to our understanding. Professor Bart Brown deserves real appreciation for bringing it together.' - Philippe Sands QC, University College London and Matrix Chambers, UK 'The Research Handbook is a comprehensive up-to-date guide to one of the youngest yet most dynamic areas of international law. It tackles the pertinent challenges and opportunities, starting with the classical issues like categories of international crimes and complementarity, going on to address the problems ahead including the Guantánamo regime, crimes against women and the status of private security contractors. The Handbook will be a valuable source for both general and advanced international criminal law research.' - James Crawford, Cambridge University, UK This carefully regarded and well-structured handbook covers the broad range of norms, practices, policies, processes and institutional mechanisms of international criminal law, exploring how they operate and continue to develop in a variety of contexts. Leading scholars in the field and experienced practitioners have brought together their expertise and perspectives in a clear and concise fashion to create an authoritative resource, which will be useful and accessible even to those without legal training. The Research Handbook on International Criminal Law will appeal to practitioners who may want to defend, or prosecute, international criminal law cases, and academics researching and writing on international criminal law. Graduate students studying international criminal law, international human rights or international humanitarian law as well as those studying international justice, international politics, international organization or public policy analysis, will also find this book invaluable.

The Routledge Handbook of Criminal Justice Ethics SAGE Publications, Incorporated

Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century. In the Handbook of Transnational Crime and Justice, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes, and criminal justice responses to transnational crime. This concise, reader-friendly handbook is organized logically around four major themes: the problem of transnational crime; analysis of specific transnational crimes; approaches to its control; and regional geographical analyses.
