This memoir by empress Farah Pahlavi looks back on her reign over an Iran so modern it is unrecognizable today-- written just a few years before the Islamic Revolution of 1979. "Beautifully written, intelligent and insightful, the

memoirs of Farah Diba Pahlavi open a window on the life of one of the great women of our time and offer a unique perspective on the extraordinary country over which she and her husband reigned before darkness fell." --Bob Colacello, founding editor Interview magazine  
At the time I wrote my memoir, I had no idea what was to come . . . Empress Farah Pahlavi was the first crowned empress of Iran, little did she know she would also be the last. This memoir was written in 1976, at the height of her reign on the glittering peacock throne. The candid words reveal her vision for a better Iran, without any idea of what

history would bring--the end of the fairy tale. Farah Pahlavi helped usher in a modern Iran now lost to the sands of time.

A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • A hugely ambitious, “delightfully readable, genuinely informative” portrait (The New York Times) of the two-centuries-long entwined histories of Iran and America—two powers who were once

allies and now adversaries—by an admired historian and former journalist. In this rich, fascinating history, John Ghazvinian traces the complex story of the relations between these two nations back to the Persian Empire of the eighteenth century—the subject of great admiration by Thomas Jefferson and John Quincy Adams—and an America seen by Iranians as an ideal to emulate for their own government. Drawing on years of archival research both in the United States and Iran—including access to Iranian government archives rarely available to Western scholars—the Iranian-born, Oxford-educated historian leads us through the four seasons of U.S.–Iran relations: the spring of mutual fascination; the summer of early interactions; the autumn of close

strategic ties; and the long, dark winter of mutual hatred. Ghazvinian makes clear where, how, and when it all went wrong. America and Iran shows why two countries that once had such heartfelt admiration for each other became such committed enemies—and why it didn't have to turn out this way.

"It's all here-Islam, the family tree, a sea of oil and money to match, palace intrigue...This is high drama and an epic tale." -Tom Brokaw Though Saudi Arabia sits on one of the richest oil deposits in the world, it also produced fifteen of the nineteen 9/11 hijackers. In this immensely important book, journalist Robert Lacey draws on years of access to every circle of Saudi society giving readers the fullest portrait yet of a land

straddling the worlds of medievalism and modernity. Moving from the bloody seizure of Mecca's Grand Mosque in 1979, through the Persian Gulf War, to the delicate U.S.-Saudi relations in a post 9/11 world, *Inside the Kingdom* brings recent history to vivid life and offers a powerful story of a country learning how not to be at war with itself.

This is the first full-length account of the CIA's coup d'etat in Iran in 1953—a covert operation whose consequences are still with us today. Written by a noted New York Times journalist, this book is based on documents about the coup (including some lengthy internal CIA reports) that have now been declassified. Stephen Kinzer's compelling

narrative is at once a vital piece of history, a cautionary tale, and a real-life espionage thriller.

Christopher de Bellaigue, a former contributor to *The Economist*, brings to light the fascinating story of one of the great anti-colonial heroes of the twentieth century: Muhammad Mossadegh, the great Iranian leader whose untimely demise resulted in the Islamic Revolution of 1979, and a man who has been demonized, ridiculed, and misunderstood in the West while remaining an icon and an inspiration across the Middle East. *Patriot of Persia*, a new biography exploring his life and impact, opens a crucial new window into Mossadegh—whose role in the evolution

of Iran's political climate cannot be overemphasized—providing a resource that will prove equally invaluable to academics, newshounds, and activists as they struggle to understand Mideast politics, Iran, Ahmadinejad, and the future of the region—and the world.

*The Dark Valley* Simon and Schuster Learn why the Roman Republic collapsed -- and how it could have continued to thrive -- with this insightful history from an award-winning author. In *Mortal Republic*, prize-winning historian Edward J. Watts offers a new history of the fall of the Roman Republic that explains why Rome exchanged freedom for autocracy. For centuries, even as Rome grew into the Mediterranean's premier military and political power, its governing institutions, parliamentary rules, and political

customs successfully fostered negotiation and compromise. By the 130s BC, however, Rome's leaders increasingly used these same tools to cynically pursue individual gain and obstruct their opponents. As the center decayed and dysfunction grew, arguments between politicians gave way to political violence in the streets. The stage was set for destructive civil wars -- and ultimately the imperial reign of Augustus. The death of Rome's Republic was not inevitable. In *Mortal Republic*, Watts shows it died because it was allowed to, from thousands of small wounds inflicted by Romans who assumed that it would last forever. *Mortal Republic* Penguin

What You Have Heard is True is a devastating, lyrical, and visionary memoir about a young woman's brave choice to engage with horror in order to help others. Written by one of the most gifted poets of her generation, this is the story of a woman's radical act of empathy, and her fateful encounter with an intriguing man who changes the course of her life. Carolyn Forché is twenty-seven when the mysterious stranger appears on her doorstep. The relative of a friend, he is a charming polymath with a mind as seemingly disordered as it is brilliant. She's heard rumors from her friend about who he might be: a lone wolf, a communist, a CIA operative, a

sharpshooter, a revolutionary, a small coffee farmer, but according to her, no one seemed to know for certain. He has driven from El Salvador to invite Forché to visit and learn about his country. Captivated for reasons she doesn't fully understand, she accepts and becomes enmeshed in something beyond her comprehension. Together they meet with high-ranking military officers, impoverished farm workers, and clergy desperately trying to assist the poor and keep the peace. These encounters are a part of his plan to educate her, but also to learn for himself just how close the country is to war. As priests and farm-workers are murdered and protest marches attacked, he is determined to save his country, and Forché is swept up in his work and in the lives of his friends.

Pursued by death squads and sheltering in safe houses, the two forge a rich friendship, as she attempts to make sense of what she's experiencing and establish a moral foothold amidst profound suffering. This is the powerful story of a poet's experience in a country on the verge of war, and a journey toward social conscience in a perilous time.

An immersive, gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow, Empress Farah, Iranian revolutionaries and US officials from the Carter administration. In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career

alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries; President Jimmy Carter and White House officials; US Ambassador William Sullivan and his staff in the American embassy in Tehran; American families caught up in the drama; even Empress Farah herself, and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families,

the unseating of which helped set the stage for the current state of the Middle East.

The reign of the last Shah of Iran, Mohammad Reza Pahlavi (1941–79), marked the high point of Iran's global interconnectedness. Never before had Iranians felt the impact of global political, social, economic, and cultural forces so intimately in their national and daily lives, nor had Iranian actors played such an important global role – on battlefields, barricades, and in board rooms far beyond Iran's borders. Iranian intellectuals, technocrats, politicians, workers, artists, and students alike were influenced by the global ideas, movements, markets, and conflicts that they also helped to shape. From the launch of the Shah's White Revolution in 1963 to his overthrow in the popular revolution of 1978–79, Iran saw the

longest period of sustained economic growth that the country had ever experienced. An entire generation took its cue from the shift from oil consumption to oil production to dream of, and aspire to, a modernized Iran, and the history of Iran in this period has tended to be presented as a prologue to the revolution. Those histories usually locate the political, social, and cultural origins of the revolution firmly within a national context, into which global actors intruded as Iranian actors retreated. While engaging with that national narrative, this volume is concerned with Iran's place in the global history of the 1960s and '70s. It examines and highlights the transnational threads that connected Pahlavi Iran to the world, from global traffic in modern art and

narcotics to the embrace of American social science by Iranian technocrats and the encounter of European intellectuals with the Iranian Revolution. In doing so, this book seeks to fully incorporate Pahlavi Iran into the global history of the 1960s and '70s, when Iran mattered far beyond its borders.

The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries "An original interpretation that puts Iranian actors where they belong: at center stage."--Michael Doran, Wall Street Journal "For the clearest view of Iran for the last 100 years, this book is it."--Marvin Zonis, author of *Majestic Failure: The Fall of the Shah* Offering a new view of one of America's most important, infamously strained, and widely misunderstood relationships of the postwar era, this book tells the

history of America and Iran from the time the last shah, Mohammad Reza Pahlavi, was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power. This revolution was not, as many believe, the popular overthrow of a powerful and ruthless puppet of the United States; rather, it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and, ultimately, lost the support of every sector of Iranian society. Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events--including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini--

significantly revising our understanding of America and Iran's complex and difficult history.
