PERKINS BROOKLYN

The new army list, by H.G. Hart [afterw.]
Hart's army list. [Quarterly] PublicAffairs
A thrilling adventure story chronicling the perilous journey of the scientists who set out to prove the theory of relativity--the results of which catapulted Albert Einstein to fame and forever changed our understanding of the universe. In 1911, a relatively unknown physicist named Albert

Einstein published his preliminary theory of gravity. But it hadn't been tested. To do that, he needed a photograph of starlight as it passed the sun during a total solar eclipse. So began a nearly decade-long quest by seven determined astronomers from observatories in four countries, who traveled the world during five eclipses to capture the elusive sight. Over the years, they faced thunderstorms, the ravages of a world war, lost equipment, and local superstitions. Finally, in May of 1919, British expeditions to northern Brazil and the island of Príncipe managed to

photograph the stars, confirming Einstein's theory. At its heart, this is a story of frustration, faith, and ultimate victory--and of the scientists whose efforts helped build the framework for the big bang theory, catapulted Einstein to international fame, and shook the foundation of physics.

An author and title list with subject index (1920-1924, index issued separately).

Popular Photography Lawrence Crider
First hand accounts of the men who took part in the heroic and tragic Charge of the Light Brigade at the Battle of Balaclava on the 25th October 1854. Previously unpublished biographies of the men and photographs bring their stories to life. What became of our heroes? Some died penniless while others found fame and fortune. Set within an unrelenting and cruel military campaign, where many

would perish, unravelling the myths to find many of the missing Chargers was a massive undertaking.

Nature In Search of the Light Brigade
Includes section "Review of recent geological literature."

Geophysical Abstracts Geological Society of America
Beginning in 1947, includes program and abstracts of papers presented at its annual meeting.
