Ibn Al Arabi, the mystic scholar of the thirteenth century, highlights the ambiguities of language and the polysemantic, multifaceted text of the Quran. With Al Arabi's help Winkel expounds how narrowly religion is interpreted by most scholars. Al Arabi disturbs the comfort of man-made religion by his reflections on language, and Winkel's book takes up the same challenge.

Every generation needs to reinterpret its great men of the past. Akbar Ahmed, by revealing Jinnah's human face alongside his heroic achievement, both makes this statesman accessible to the current age and renders his greatness even clearer than before. Four men shaped the end of British rule in India: Nehru, Gandhi, Mountbatten and Jinnah. We know a great deal about the first three, but Mohammed Ali Jinnah, the founder of Pakistan, has mostly either been ignored or, in the case of Richard Attenborough's hugely successful film about Gandhi, portrayed as a cold megalomaniac, bent on the bloody partition of India. Akbar Ahmed's major study redresses the balance. Drawing on history, semiotics and cultural anthropology as well as more conventional biographical techniques, Akbar S. Ahmad presents a rounded picture of the man and shows his relevance as contemporary Islam debates alternative forms of political leadership in a world dominated (at least in the Western media) by figures like Colonel Gadaffi and Saddam Hussein. *Sultan Muhammad Al-Fateh: The Conquerer of Constantinople* Dissertation.com Examines religious practices from an anthropological perspective Religions in Practice, 6/e, offers an issues-oriented perspective on everyday religious behaviors – prayer, sacrifice, initiation, healing, etc. – by focusing on such topics as transnationalism, gender, and religious laws. The text examines a full spectrum of religions, from small-scale societies to major, established religions.

The in-depth treatment of Islam, Hinduism, and Christianity is particularly noteworthy and easily supplemented with field projects directly related to the text.

The Siwak is one tool of hygiene which holds particular importance in Islam. It is a simple twig for cleaning the teeth, originating from the desert but popularised for ever more by the example and directives of the Messenger of Allah Ta'ala. It is no exaggeration to say that Rasulullah [PBUH] is the first dental educator in proper oral hygiene in history. The Prophet's Siwak of choice was from the Arak (Aloes tree or *Salvadora Persica*). The Siwak is a natural twig fortified with natural minerals that help clean the teeth, other inhibitors that prevent gums from bleeding, cleaning agents that kill microbes and germs and remove plaque, and a scent that gives breath a naturally fresh smell. The Siwak is an ideal, natural brush that has been endowed with more than any artificial toothpaste could ever have. The wicks on the Siwak clean between the teeth and do not break under any amount of pressure; rather, they are flexible and strong. The small wicks bend to the appropriate shape to get plaque and leftover food out from in between teeth while avoiding any damage to the gums. The Siwak is comprised of many beneficial ingredients. Most significant among them are: - Antibacterial acidic inhibitors that fight decay. They are natural disinfectants and can be used to stop bleeding. They disinfect the gums and teeth and close any microscopic cuts that may have existed in the gums. On first usage, the Siwak will taste harsh, and maybe even burn, because of a mustard-like substance found in it, but this is the ingredient that fights decay in the mouth and kills germs. - Minerals such as sodium chloride, potassium, sodium bicarbonate and calcium oxides. These clean the teeth. The American Dental Association considers sodium bicarbonate to be a preferred ingredient in toothpastes. - Natural scented oils that taste and smell nice, give the mouth a pleasant smell. They make up about 1% of the Siwak. - Enzymes that prevent the build-up of plaque that causes gum disease. Plaque is also the no. 1 cause of premature loss of teeth. - Anti-decay and anti-germ ingredients that act as a penicillin of sorts, decreasing the amount of bacteria in the mouth, which means cleaner teeth and cleaner air when breathing through the mouth. The presence of these properties has actually encouraged some toothpaste laboratories to incorporate powdered stems and/or root material of *Salvadora Persica* in their products.

This book provides the first full account of America's relations with the Islamic Republic of Iran from Jimmy Carter's presidency to Barack Obama's. It discusses all major facets of Iranian policy of interest to the United States: nuclear proliferation, revolutionary export and support for international terrorism, efforts to undermine the Israeli-Palestinian peace process, and violations of human rights. It compares developments in Iran to their perception in Washington, providing the clearest picture available yet of the discrepancies between the complex and elusive Iranian reality and its understanding in the United States.

The journey of humanity started in Paradise first and then continues on Earth. God created human beings in the best form and endowed them with the necessary capacity that enables them to be vicegerents of God. So, humankind is destined to act behalf on God; to provide justice and contribute to harmony among the creatures. Fulfilling this responsibility needed divine guidance and continuous support for humankind. God had sent many messengers to different nations in different time segments throughout history. We do not know all the prophets, but some of them are mentioned in the Qur'an. The Prophet Muhammad (pbuh) is the final Messenger of God, and the Qur'an is the final revelation to guide humanity to happiness in both this world and the next, by offering them the most suitable lifestyle. In this regard, it is pivotal to know the life of the Prophet Muhammad (pbuh), because it provides the proper understanding of the Qur'an. The last revelation was experienced, practiced, and taught by him, so it is not an exaggeration to say that God articulated His last message in the Prophet's life. Therefore, to understand the words of God better, it is essential to learn the life of the Prophet. The Prophet is the best role model for humankind and he represented the best human values in his nature. Discovering the different aspects of his life is indeed discovering the real value of humankind. This will also enlighten us as to why God chose humankind to be his vicegerent on Earth. He explained the meaning of this universe and introduced our Creator with His names and attributes. If we know God in His true sense, it is because of the Prophet Muhammad. Similarly, if we know how to be perfect man and represent the universal values, it is again through His exemplary life. All of humanity is in great debt to him, regarding learning the meaning of their life on Earth and achieving the happiness in both worlds. In this work, we tried to show his exemplary life, so that people can follow his way and find solutions for all kinds of problems. In this book, I discovered the different aspects, dimensions, and praiseworthy characteristics of the Prophet Muhammad (pbuh). Through this, I came to the conclusion that it is beneficial to combine Sirah with the philosophy behind it, so I have attempted to do so in this humble work.
