A 'field guide' is a small, pocketable book that accompanies you on an adventure or journey. It's Not Too Late is a field guide to hope--sized so that you can carry it along with you on your daily journey of faith. The entries in this book will help you find hope, whether it's right in front of you or it remains elusive despite your searchings. The 'field' for this guide is the deterioration of the earth's environment and the economic well-being of humankind. Sitze wrote this book to thwart Despair and provides practical helps for pilgrims who are hungry for hope and want to find it. Sitze approaches hope-seeking in an appreciative way--believing hope already exists, that it waits your discerning eye and receptive spirit. Because you are looking for hope, you will soon find it to be present all around you--

no matter what the field might look like. Sitze encourages us to follow the example of hopeful people who surround us, invisibly and quietly. His yearning is that we will see in God the source of hope who will sustain our spirit and ministry into the years ahead. It's never too late for you to hope. Never too late to speak of hope or to act hopefully. Never too late to seek hope. No matter the circumstances in which you find yourself. No matter who wants to tempt you to be afraid, angry, or desperate. These ideas fill this book.

The Hope A Guide to Sacred Activism
This Teachers' Guide to Wilfred McClay's *Land of Hope: An Invitation to the Great American Story* will be an invaluable aid to classroom teachers who use *Land of Hope* as a textbook for courses in United States history. McClay has coauthored the Guide with John McBride, a master teacher with over thirty years of secondary and collegiate teaching experience. The result is an exceptionally rich and useful resource for the enhancement of the classroom experience. Each chapter of *Land of Hope* has a five-part treatment: a short summation of the chapter's contents, a lengthy set of questions and answers about the text of the chapter, materials that can be deployed in testing or used to sharpen classroom discussion; a set of short objective tests, suitable for quizzes and exams; a primary-source document for class study and analysis; and questions and answers to accompany the document. In addition, there are special units to assist teachers in the giving special coverage to the Declaration of Independence, the Constitution, the Bill of Rights, and the Origins of the Two-Party System. Like *Land of Hope* itself, these materials are designed to help students come away from the study of the American past with a coherent sense of the larger story, and a sense of history as a profoundly reflective activity, one that goes to the depth of our humanity.

From New York Times bestselling author and world-renowned scientist Jane Goodall, as seen in the National Geographic documentary *Jane*, comes a fascinating examination of the critical role that trees and plants play in our world. *Seeds of Hope* takes us from Goodall's home in England to her home-away-from-home in Africa, deep inside the Gombe forest, where she and the chimpanzees are enchanted by the fig and plum trees they encounter. She introduces us to botanists around the world, as well as places where hope for plants can be

found, such as The Millennium Seed Bank. She shows us the secret world of plants with all their mysteries and potential for healing our bodies as well as Planet Earth. Looking at the world as an adventurer, scientist, and devotee of sustainable foods and gardening--and setting forth simple goals we can all take to protect the plants around us--Goodall delivers an enlightening story of the wonders we can find in our own backyards.

The Hope Compendium Incorporated
The Tactics of Hope is a call to action for individuals around the world who are concerned about global issues such as poverty, human rights, social justice, and environmental sustainability, but are not clear what steps they might best take to move from concern to effective action. The book recounts the inspiring stories of twenty-seven social entrepreneurs, offering readers innovative approaches to tackling the pressing issues of our time themselves. Wilford Welch's global mosaic brings together stories of disparate individuals who are, each in their own way, helping to create a shared vision of progress. Social entrepreneurs see opportunities where others see barriers. Daring to think outside the box, they are part of the fastest-growing grassroots movement in human history. This book is both a celebration of the individual successes of today and a guide for what is possible tomorrow.

On the heels of her mother's death, Hope Logan reluctantly returned to her grandparents' home place in search of a journal that revealed explosive crimes and atrocities of the past that had haunted her grandma for nearly sixty-five years. Bitterness, unforgiveness, and anger consumed her as she set out to solve the mystery that surrounded her grandma's life. The dark evil secret that was contained in the journal only deepened her resentment of God. Because of her quest, she came in contact with many strong believers, especially a handsome young pastor and three senior citizens. In that small town in the foothills of the mountains of North Carolina, Hope's bitterness, unforgiveness, and anger slowly began to fade in the light of the strong faith of the young pastor and three senior citizens. She discovered the true meaning of faith and hope in Christ in the midst of adversity. Carolyn Digh Griffin, a native North Carolinian, resides in Waxhaw, North Carolina, with her husband, Hoyle. She is retired from Union County Public Schools where she was an Administrative Assistant to the Assistant

Superintendent. She has two daughters and four grandchildren who also reside in the Old North State.

Fighting Cancer with Knowledge and Hope Thomas Nelson

NATIONAL BESTSELLER Two great spiritual masters share their own hard-won wisdom about living with joy even in the face of adversity. The occasion was a big birthday. And it inspired two close friends to get together for a talk about something very important to them. The friends were His Holiness the Dalai Lama and Archbishop Desmond Tutu. The subject was joy. Both winners of the Nobel Prize, both great spiritual masters and moral leaders of our time, they are also known for being among the most infectiously happy people on the planet, despite having experienced great personal and national suffering. From the beginning the book was envisioned as a three-layer birthday cake, the first being their personal stories and teachings about joy. Both the Dalai Lama and Tutu have been tested by extraordinary adversity, oppression, and conflict. The second layer consists of the exciting research into joy as well as the other qualities essential for any enduring happiness, like gratitude,

humility, humour, compassion, generosity, and forgiveness. And the third encompasses practical exercises and guidance based on the Dalai Lama's and Tutu's own daily practices, which anchor their emotional and spiritual lives. Most of all, during that landmark week in Dharamsala, they demonstrated by their own exuberance, compassion, and even wise-cracking humour, how joy can be transformed from a fleeting emotion into an enduring way of being.
