Violin Concerto No.2 Indiana University Press

Over the past two centuries Western culture has largely valorized a particular kind of “good” music—highly serious, wondrously deep, stylistically authentic, heroically created, and strikingly original—and, at the same time, has marginalized music that does not live up to those ideals. In *Good Music*, John J. Sheinbaum explores these traditional models for valuing music. By engaging examples such as Handel oratorios, Beethoven and Mahler symphonies, jazz improvisations, Bruce Springsteen, and prog rock, he argues that metaphors of perfection do justice to neither the perceived strengths nor the assumed weaknesses of the music in question. Instead, he proposes an alternative model of appreciation where abstract notions of virtue need not dictate our understanding. Good music can, with pride, be playful rather than serious, diverse rather than unified, engaging to both body and mind, in dialogue with manifold styles and genres, and collaborative to the core. We can widen the scope of what music we value and reconsider the conventional rituals surrounding it, while retaining the joys of making music, listening closely, and caring passionately.

A Living Jazz Legend, musician and composer David Baker has made a distinctive mark on the world of music in his nearly 60-year career—as player (chiefly on trombone and cello), composer, and educator. In this richly illustrated volume, Monika Herzig explores Baker's artistic legacy, from his days as a jazz musician in Indianapolis to his long-term gig as Distinguished Professor and Chairman of the Jazz Studies department at Indiana University. Baker's credits are striking: in the 1960s he was a member of George Russell's "out there" sextet and orchestra; by the 1980s he was in the jazz educator's hall of fame. His compositions have been recorded by performers as diverse as Dexter Gordon and Janos Starker, the Beaux Arts Trio, the Composer's String Quartet and the Czech Philharmonic. Featuring enlightening interviews with Baker and a CD of unreleased recordings and Baker compositions, this book brings a jazz legend into clear view.

In 1829 Goethe famously described the string quartet as 'a conversation among four intelligent people'. Inspired by this metaphor, Edward Klorman's study draws on a wide variety of documentary and iconographic sources to explore Mozart's chamber works as 'the music of friends'. Illuminating the meanings and historical foundations of comparisons between chamber music and social interplay, Klorman infuses the analysis of sonata form and phrase rhythm with a performer's sensibility. He develops a new analytical method called multiple agency that interprets the various players within an ensemble as participants in stylized social intercourse - characters capable of surprising, seducing, outwitting, and even deceiving one another musically. This book is accompanied by online resources that include original recordings performed by the author and other musicians, as well as video analyses that invite the reader to experience the interplay in time, as if from within the ensemble.
