This excursion into American cultural history looks at the toothpaste and toothbrush industries from 1900 to 2008. During these years, America moved from cleaning their teeth mostly

with homemade powders to using an enormous array of brands, often applied with an electric toothbrush. From early 20th century products like Forhan's (which "cured" pyorrhea) to the whiteners of the 1920s (which unfortunately also removed tooth enamel), and from paste that eliminated "that clinging film" and to copywriters who "wondered where the yellow went," the history of toothpaste has long been a testament to the power of misleading advertising. Interrupting a steady flow of hyperbole was the one true wonder ingredient—fluoride, which enabled Crest to be for decades America's top-selling brand.

Mit der zunehmenden Internationalisierung der Märkte verändern sich auch Geschäftsaktivitäten und -felder der Unternehmen. Die Akteure stammen aus ganz unterschiedlichen Ländern und Kulturen, haben ungleiche Wertvorstellungen und zeichnen sich durch divergierende Denk- und Handlungsweisen aus. Den damit verbundenen Ansprüchen an das Management wird allerdings in der Alltagswirklichkeit nur unzureichend entsprochen. Dieses Buch verfolgt daher das Ziel, interkulturelles Handeln in seinen vielfältigen Formen in den Mittelpunkt zu stellen. Neben einer Einführung in grundlegende Fragen des interkulturellen Managements wird anhand von fünf Länderbeispielen (Japan, China, Vietnam, Russland und den Golfstaaten) ein ausführlicher Einblick in die konkrete Umsetzung gegeben.
