Jane Grigson's Vegetable Book Grub
Street Publishers

Published to coincide with the anniversary of 25 years since her untimely death and having been out of print for more than a decade, Grub Street is republishing the ultimate compendium of Jane Grigson's recipes. Following the success of her first book, Charcuterie and French Pork Cooking, Grigson's research and flair for cooking speak for themselves within this tome. With a delightful introduction by her friend, and the equally remarkable Elizabeth David, this book is a staple for

every cook. The book is organized into regional cuisines from across the globe including: the Americas, the Mediterranean, the Europeans, India and the Far East and contains sections entitled At Home in England and At Home in France; both places close to Jane's heart. There is also, of course, a detailed chapter on charcuterie. The recipes are introduced in English, with brief descriptions by Grigson, but are also simultaneously designated in the native language of their origin. There are graphs and pictorials for the accurate cooking of meat joints by weight and detailed instructions for picking the best ingredients and making the most of them when they are in season. The book concludes with a chapter on the enjoyment of food which encapsulates Grigson's approach to cooking along with the experience of reading this book. The recipes are diverse and diligent to detail. There are recipes for the simple weekday dinner to the elaborate celebratory feast. This collection of her best and most-loved recipes, with her introductions, anecdotes, quotations and poems, is a fitting tribute, not only to her culinary and literary skills, but also to the warmth, wit and intelligence that shines through all her books.

Jane Grigson's Fruit Book includes a wealth of recipes, plain and fancy, ranging from apple strudel to watermelon sherbet. Jane Grigson is at her literate and entertaining best in this fascinating compendium of recipes for forty-six different fruits. Some, like pears, will probably seem homely and familiar until you've tried them $\frac{3}{4}$ la chinoise. Others, such as the carambola, described by the author as looking 'like a small banana gone mad,' will no doubt

be happy discoveries. ø You will find new ways to use all manner of fruits, alone or in combination with other foods, including meats, fish, and fowl, in all phases of cooking from appetizers to desserts. And, as always, in her brief introductions Grigson will both educate and amuse you with her pithy comments on the histories and varieties of all the included fruits. ø All ingredients are given in American as well as metric measures, and this edition includes an extensive glossary, compiled by Judith Hill, which not only translates unfamiliar terminology but also suggests American equivalents for British and Continental varieties where appropriate.

The Fruit, Herbs and Vegetables of Italy Sybex

Winner of the Jane Grigson Trust Award 2017 and the Aragonese Academy of Gastronomy's 2017 Prize for Research *New Art of Cookery*, Drawn from the School of Economic Experience, was an influential recipe book published in 1745 by Spanish friary cook Juan Altamiras. In it, he wrote up over 200 recipes for meat, poultry, game, salted and fresh fish, vegetables and sweet things in a chatty style aimed at readers who cooked on a modest budget. He showed that economic cookery could be delicious if flavors and aromas were blended with an appreciation for all sorts of ingredients, however humble, and for diverse food cultures, ranging from that of Aragon, his home region, to those of Iberian court and New World kitchens. This first English translation gives guidelines for today's cooks alongside the original text, and interweaves a new narrative portraying 18th-century Spain, its everyday life, and food culture. The author traces links between *New Art's* dishes and modern Spanish cookery, tells the story of her search to identify the book's author and understand the popularity of his book for over 150 years, and takes travelers, cooks, historians, and students of Spanish language,

culture, and gastronomy on a fascinating journey to the world of Altamiras and, most important of all, his kitchen.

This timeless classic of French cuisine brings age-old mastery of everything pork into your kitchen, one easy-to-follow step at a time. Every town in France has at least one charcutier, whose windows are dressed with astonishing displays of delicious food: pâté, terrines, galantines, jambon, saucissons, and boudins. The charcutier will also sell olives, anchovies, and condiments, as well as various salads of

his own creation, making it an essential stop when assembling picnics or impromptu meals. But the real skill of the charcutier lies in his transformation of the pig into an array of delicacies; a trade which goes back at least as far as classical Rome, when Gaul was famed for its hams. First published in 1969, Jane Grigson's classic *Charcuterie and French Pork Cookery* is a guide and a recipe book. She describes every type of charcuterie available for purchase and how to make them yourself. She describes how to braise, roast, pot-roast, and stew all cuts of pork, how to make terrines, and how to cure ham and make sausages at home.

A Curious Absence of Chickens Grub Street Cookery

The map of England bears names which used to resonate through kitchens in the land: Colchester, Cheddar, Hereford, Swaledale, Bath, Lincoln, York, Wensleydale - the list goes on. England has more breeds of livestock, fruit cultivars and vegetable seeds to its credit than any other country in the world. Sussex, for example, was known for its cockles, herrings, truffles, seakale, cabbage, alongside its middlehorn beef, Southdown mutton and Tipper beer. We tend to think that our native food has disappeared off the map completely - and in some cases it is undoubtedly endangered. But Marwood Yeatman shines a light on what remains, and highlights what could endure. His quest to find the 'last food' in England leads to his discovery of the last domestic faggot oven in use; the undertaker-cum-butcher who roasts his own oxen; the fisherman who regularly takes his life in his hands

to catch oysters; green top milk being made deep in the forest; crayfish facing extinction; four types of English butter. This book is a wonderful voyage of discovery - an invitation to cook without recipes, travel without guides, and find history without museums. Take time to read about our fertile food heritage and the map of England will never look the same again.
