International finance has become one of the hottest topics in national debates with tariff wars and EU membership dominating the news. As multinational corporations (MNCs) continue to expand their operations globally, they must not only manage the advantages that ensue but also their exposure to risk. The fifth edition of Madura and Fox's International Financial Management offers students a comprehensive introduction to this fast-moving field, discussing not only exchange rate behaviour, exchange rate risk management, long- and short-term asset and liability management, but also topics such as different currencies, dissimilar political situations, imperfect markets and diversified opportunity sets. Engaging real-world examples, critical debate questions and project workshop activities equip students with the essential knowledge they need to succeed in international finance. This textbook is suitable for both final year undergraduate and master's level courses in international financial management. This title is available with MindTap, a flexible online learning solution that provides students with all the tools they need to succeed including an interactive eReader, engaging multimedia, practice questions, assessment materials, revision aids, and analytics to help you track their progress.

Financial Institutions and Markets Cengage Learning

Financial Markets and Institutions is aimed at the first course in financial markets and institutions at both the undergraduate and MBA levels. While topics covered in this book are found in more advanced textbooks on financial markets and institutions, the explanations and illustrations are aimed at those with little or no practical or academic experience beyond the introductory-level finance courses. In most chapters, the main relationships are presented by figures, graphs, and simple examples. The more complicated details and technical problems related to in-chapter discussion are provided in appendixes to the chapters. Since the author team's focus is on return and risk and the sources of that return and risk in domestic and foreign financial markets and institutions, this text relates ways in which a modern financial manager, saver, and investor can expand return with a managed level of risk to achieve the best, or most favorable, return-risk outcome.

Introduction to Business Academic Internet Pub Incorporated

This innovative text emphasizes business concepts and strategy while still providing the plethora of definitions the reader will require. Practical focus addresses how and why businesses operate the way they do, covering topics such as adding value and creating profits through a variety of skill-building projects. Small Business Survey provides a reality-based picture of how small business managers conduct day-to-day business. CHC: Small Business Dilemma tracks a College Health Club business from start-up through topics tied to each chapter in the text. Spotlight on Technology features show the integration of technology and business. "Business On-line" features provide a foundation for student comprehension of the Internet without requiring computer access. Dell

Computer's formula for Success shows how Dell has used key management concepts discussed in the text to succeed in the technology arena.

International Financial Management, Abridged Edition Cengage AU

Financial Institutions and Markets focuses on the operation of Australia's financial system.

Thoroughly updated, this eighth edition retains the structure of the seventh edition, examining the financial system's three main functions: settlement, flow-of-funds and risk transfer. The book provides a comprehensive and comprehensible integrated account of the activities of Australia's financial institutions and markets and their instruments including the major capital and foreign exchange markets, and the markets for derivatives. This new edition is complemented by digital resources on the MindTap online platform - also enabling flipped delivery of the content, expanded learning objectives, and updated case studies and research to cover recent events such as Brexit.
