MELINA HUFFMAN

A Concise History of Modern Europe Cambridge University Press

By investigating the major changes in world history during the past five hundred years, Woodruff explains to what extent world forces have been responsible for shaping both the past and the present. This extraordinary book tells of the rise and fall of empires and civilizations; it recounts the growing communality and interdependence of nations; it shows how so many problems of the contemporary world are the legacy of an unprecedented era of western domination - the end of which was hastened by the two world wars. In explaining how the world has come to be what it is, the author examines the implications surrounding the end of the cold war, the unravelling of communism in Eastern Europe, and the growing challenge of the non-western world to western superiority. It is Woodruff's belief that we have reached a crucial transitional stage in world history

in which the world will no longer be shaped by the single image of western modernism, but increasingly by the image of all cultures and civilizations. With the shift of geopolitical and geoeconomic power to Asia, and with the growing world-wide influence of religious fundamentalism and revolutionary nationalism, the need for a global perspective has become acute. *A Concise History of the Modern World* encompasses the learning and the insights gleaned by the author from a life-time career as a world historian.

A Concise History of Italy Rowman & Littlefield

The multi-faceted, problematic history of the German lands has supplied material for a wide range of debates and differences of interpretation. This second edition spans the early Middle Ages to the present day, synthesizing a vast array of historical material. Mary Fulbrook explores the interrelationships between social, political and cultural factors in the light of the latest scholarly controversies. First Edition Hb (1991): 0-521-36283-0 First Edition Pb (1991): 0-521-36836-7

Concise History of the Language Sciences Cambridge University Press

Margaret Conrad's history of Canada begins with a challenge to its readers. What is Canada? What

makes up this diverse, complex and often contested nation-state? What was its founding moment? And who are its people? Drawing on her many years of experience as a scholar, writer and teacher of Canadian history, Conrad offers astute answers to these difficult questions. Beginning in Canada's deep past with the arrival of its Aboriginal peoples, she traces its history through the conquest by Europeans, the American Revolutionary War and the industrialization of the nineteenth and twentieth centuries to its prosperous present. Despite its successes and its popularity as a destination for immigrants from across the world, Canada remains a curiously reluctant player on the international stage. This intelligent, concise and lucid book explains just why that is.

Reconstruction Cambridge University Press

"This concise introduction to the French Revolution explains the origins, development, and eventual decline of a movement that defines France to this day. Through an accessible chronological narrative, Sylvia Neely explains the complex events, conflicting groups, and rapid changes that characterized this critical period in French History. She traces the fundamental

transformations in government and society that forced the French to come up with new ways of thinking about their place in the world and led to liberalism, conservatism, terrorism, and modern nationalism. All readers interested in France and revolutionary history will find this a rewarding read."--BOOK JACKET.

A Concise History of Spain Cambridge University Press

A Concise History of the Caribbean presents a general history of the Caribbean islands from the beginning of human settlement about seven thousand years ago to the present. It narrates processes of early human migration, the disastrous consequences of European colonization, the development of slavery and the slave trade, the extraordinary profits earned by the plantation economy, the great revolution in Haiti, movements toward political independence, the Cuban Revolution, and the diaspora of Caribbean people. Written in a lively and accessible style yet current with the most recent research, the book provides a compelling narrative of Caribbean history essential for students and visitors.

A Concise History of Germany Rowman & Littlefield

An illustrated introduction to Mexico's historical and contemporary issues, problems and events.

A Concise History of the Catholic Church (Revised Edition) Rowman & Littlefield Publishers

A chronology of world history ranges from the dawn of humankind to the present day, examining important events, milestones, ideas, and personalities that occurred simultaneously in different regions of the world.

A Concise History of the American Republic: Volume 1 Paw Prints

This is the most up-to-date and comprehensive study of French history available ranging from the early middle ages to the present. Amongst its central themes are the relationships between state and society, the impact of war, competition for power, and the ways in which power has been used. Whilst taking full account of major figures such as Philip Augustus, Henri IV, Louis XIV, Napoleon and de Gaulle, it sets their activities within the broader context of changing economic and social structures and beliefs, and offers rich insights into the lives of ordinary men and women. This third edition has been substantially revised and includes a new chapter on contemporary France - a society and political system in crisis as a result of globalisation, rising unemployment, a failing educational system, growing social and racial tensions, corruption, the rise of the extreme right, and a widespread loss of confidence in political leaders.

A Concise History of the Caribbean Cambridge University Press

A concise history of Italy from the fall of the Roman empire in the west to the present day.

A Concise History of the Third Reich OUP USA

Chronicles the history of Buddhism and discusses where the religion originated, what its major beliefs are, how it has changed throughout history, and other related topics.

A Concise History of the Modern World The Lawbook Exchange, Ltd.

Born out of violence and the aspirations of its early settlers, the United States of America has become one of the world's most powerful nations. The book begins in colonial America as the first Europeans arrived, lured by the promise of financial profit, driven by religious piety and accompanied by diseases which would ravage the native populations. It explores the tensions

inherent in a country built on slave labour in the name of liberty, one forced to assert its unity and reassess its ideals in the face of secession and civil war, and one that struggled to establish moral supremacy, military security and economic stability during the financial crises and global conflicts of the twentieth century. Woven through this richly crafted study of America's shifting social and political landscapes are the multiple voices of the nation's history: slaves and slave owners, revolutionaries and reformers, soldiers and statesmen, immigrants and refugees. These voices help define the United States at the dawn of a new century.

A Concise History of Byzantium Springer

In its first Spanish edition, Herbert Klein's A Concise History of Bolivia won immediate acceptance within Bolivia as the new standard history of this important nation. Surveying Bolivia's economic, social, cultural and political evolution from the arrival of early man in the Andes to the present, this current version brings the history of this society up to the present day, covering the fundamental changes that have occurred since the National Revolution of 1952 and the return of democracy in 1982. These changes have included the introduction of universal education and the rise of the mestizos and Indian populations to political power for the first time in national history. This second edition brings this story through the first administration of the first self-proclaimed Indian president in national history and the major changes that the government of Evo Morales has introduced in Bolivian society, politics and economics.

A Concise History of American Music Education Image

Kentucky is most commonly associated with horses, tobacco fields, bourbon, and coal mines. There is much more to the state, though, than stories of feuding families and Colonel Sanders' famous fried chicken. Kentucky has a rich and often compelling history, and James C. Klotter and Freda C. Klotter introduce readers to an exciting story that spans 12,000 years, looking at the lives of Kentuckians from Native Americans to astronauts. The Klotters examine all aspects of the state's history -- its geography, government, social life, cultural achievements, education, and economy. A Concise History of Kentucky recounts the events of the deadly frontier wars of the state's early history, the divisive Civil War, and the shocking assassination of a governor in 1900. The book tells of Kentucky's leaders from Daniel Boone and Henry Clay to Abraham Lincoln, Mary Breckinridge, and Muhammad Ali. The authors also highlight the lives of Kentuckians, both famous and ordinary, to give a voice to history. The Klotters explore Kentuckians' accomplishments in government, medicine, politics, and the arts. They describe the writing and music that flowered across the state, and they profile the individuals who worked to secure equal rights for women and African Americans. The book explains what it was like to work in the coal mines and explains the daily routine on a nineteenth-century farm. The authors bring Kentucky's story to the twenty-first century and talk about the state's modern economy, where auto manufacturing jobs are replacing traditional agricultural work. A collaboration of the state historian and an experienced educator, A Concise History of Kentucky is the best single resource for Kentuckians new and old who want to learn more about the past, present, and future of the Bluegrass State.

A Concise History of Germany MacMillan Distribution Limited

Originally published: 5th ed. Boston: Little, Brown and Co., 1956.

A Concise History of Greece Cambridge University Press

An incisive account of the entire history of historical writing worldwide by one of the leading intellectuals in the field.

A Concise History of Canada University Press of Kentucky

During the 1930s, Franklin D. Roosevelt's New Deal carried out a program of dramatic reform to counter the unprecedented failures of the market economy exposed by the Great Depression. Contrary to the views of today's conservative critics, this book argues that New Dealers were not 'anticapitalist' in the ways in which they approached the problems confronting society. Rather, they were reformers who were deeply interested in fixing the problems of capitalism, if at times unsure of the best tools to use for the job. In undertaking their reforms, the New Dealers profoundly changed the United States in ways that still resonate today. Lively and engaging, this narrative history focuses on the impact of political and economic change on social and cultural relations.

A Concise History of Buddhism Cambridge University Press

Engaging history of the rich cultural, social and political life of Spain from prehistoric times to the present.

A Concise History of the Spanish America Cambridge University Press

When the British occupied the tiny island of Hong Kong during the First Opium War, the Chinese empire was well into its decline, while Great Britain was already in the second decade of its legendary "Imperial Century." From this collision of empires arose a city that continues to intrigue observers. Melding Chinese and Western influences, Hong Kong has long defied easy categorization. John M. Carroll's engrossing and accessible narrative explores the remarkable history of Hong Kong from the early 1800s through the post-1997 handover, when this former colony became a Special Administrative Region of the People's Republic of China. The book explores Hong Kong as a place with a unique identity, yet also a crossroads where Chinese history, British colonial history, and world history intersect. Carroll concludes by exploring the legacies of colonial rule, the consequences of Hong Kong's reintegration with China, and significant developments and challenges since 1997.

A Concise History of Mexico Cambridge University Press

This book provides a clear and informative guide to the twists and turns of German history from the early middle ages to the present day. The multi-faceted, problematic history of the German lands has provided a wide range of debates and differences of interpretation. Mary Fulbrook provides a crisp synthesis of a vast array of historical material, and explores the interrelationships between social, political and cultural factors in the light of scholarly controversies. First published in 1990, A Concise History of Germany now appears in an updated second edition.

A Concise History of Hong Kong Oxford University Press

Reconstruction: A Concise History' is a gracefully-written interpretation of Reconstruction as a spirited struggle to re-integrate the defeated Southern Confederacy into the American Union after the Civil War, to bring African Americans into the political mainstream of American life, and to recreate the Southern economy after a Northern, free-labor model.
