of the principal cases. This concise version is a stream-lined version of the Standard version for a four unit course. It omits note materials and cases and a few principal cases that are included in the longer version to underscore or elaborate upon the key principles in each unit. West Academic Publishing Legal Drafting in a Nutshell, 4th Edition, provides guidance on producing transactional documents, contracts, instruments, legislation, and regulations that solve existing problems and prevent future problems. The book provides both a large scale, macro overview of the drafting process as well as small scale, micro focused discussion of the mechanics of legal documents at the sentence, word, and

punctuation level. For this fourth edition, each chapter has been extensively updated to incorporate the current and developing perspectives regarding subjects like plain English, legal typography, and document preparation in the 21st century. This is especially the case in the sections of the text dealing with contracts and instruments, although it is true throughout the text. Legal drafting is as much a thought process as a writing process; clear thinking leads to clear

drafting. This book is a guide for clear, structured thinking about drafting in order to provide readers with a structured process to follow when assembling useful legal documents. *Uniform Commercial Code in a Nutshell* West Academic Publishing Essential revision tool: they provide a concise outline of the principles for each of the major subject areas within undergraduate law. Written in clear, straightforward language, the authors explain the principles, and highlight

key cases and legislative provisions for each subject.

Gaming Law in a Nutshell discusses all aspects of gambling law, and on all levels: local, tribal, state, national and international. It covers all forms of wagering, legal and illegal, including casino games and slot machines, lotteries, poker, bingo, sports betting, racing and Internet gaming. This book explains why legal gambling, one of the

fastest growing industries in the world, still faces restrictions on its right to advertise or even have its contracts enforced. It has separate discussions of many jurisdictions, including Nevada, New Jersey, Macau, Canada and other countries; Indian and charity gaming; taxes; intellectual property; compulsive gambling; and the most popular forms of gambling.
