This definitive guide is a must-have resource for the day-to-day use of Financial Accounting with SAP. Using clear, simple step-by-step instructions and detailed screenshots, you will learn how to perform key activities in the core areas of SAP General Ledger, Asset Accounting, Accounts Payable, Accounts Receivable, Banking, and the Special Purpose Ledger. Each section starts with

quick reference material such as transaction codes, tables, and menu paths, and ends with easy-to-use answers to frequently asked questions and problems commonly encountered by users. Day-to-Day Solutions Discover practical, detailed guidance for the day-to-day use of Financial Accounting with SAP ERP Financials, including troubleshooting and problem-solving information. Quick Reference Take advantage of Quick Reference boxes at the beginning of every section to immediately identify the key pieces of information you need. All Key Functions Detailed Find all of the major

subcomponents of Financial Accounting with SAP ERP Financials covered here: SAP General Ledger, Asset Accounting, Accounts Payable, Accounts Receivable, Banking, and the Special Purpose Ledger. FAQ and Troubleshooting Tips
Get expert insight into everyday problems and the answers you need.
Hands-On Format Learn in an interactive, hands-on way through the use of screenshots, menu paths, and transaction codes throughout the book.
Highlights * SAP General Ledger * Organizational Entities in Financial Accounting * Accounts Payable and Accounts Receivable * Asset Accounting * Banking * Special Purpose Ledger * Transaction Codes * Tables and Program Codes

Packt Publishing Ltd
SAP can help you capture better information and deliver it more quickly, allowing you to make better decisions and maximize the business value of everything you do. However, SAP implementations require massive effort, total buy-in, and significant change throughout the organization. In *SAP Implementation Unleashed*, 10 expert SAP project managers, functional consultants, and technologists guide you through the entire journey, helping you avoid pain and pitfalls and gain all the benefits of SAP. The authors introduce start-to-finish business, technical, and project management roadmaps for successful SAP implementation. Then, drawing on their immense experience, they walk you through the entire process

of planning and deployment—addressing make-or-break issues and hidden gaps that other guidebooks ignore. You'll discover how to employ processes, models, and toolsets that help you achieve implementation excellence while systematically reducing cost and business risk. Along the way, you'll find actionable advice and real-world insight into innovative project management, best-suited leadership, effective load testing, contemporary infrastructure implementation, and more. George W. Anderson is responsible for providing enterprise applications thought leadership for the EDS/HP office of the CTO. A long-time SAP consultant and PMI-certified project manager, George has authored several best-selling books and enjoys new challenges. Charles D.

Nilson is a senior program manager for EDS/HP and has led many successful SAP implementation teams over the years. He is a PMI PMP and is SAP Partner Academy certified in MM and PP. Tim Rhodes is a senior SAP technical consultant for EDS/HP and a Basis/infrastructure veteran focused on implementing, migrating, and upgrading SAP Business Suite and NetWeaver solutions. Tim is also an SAP-certified technical consultant, OCP, MCSE, and HP Master ASE. Detailed Information on How To... SAP Global Trade Services (GTS) helps companies maximize supply chain performance and reduces the overall cost and risk of global trade by ensuring regulatory compliance, accelerating trade activity, and enabling trade

compliance automation. The Practical Guide to SAP GTS Part II dives into customs management and preference processing. Explore how to leverage self-filing, using a broker model, and adopting a free trade agreement to improve ROI. The book is current to version 10.1 and explores version 11.0 and its new features including Fiori apps and UX. - Best practices for leveraging SAP GTS for trade compliance - Fundamentals of preference implementation and system set up - How self-filing, broker models and free trade agreements can improve ROI - Review of Version 11.0 with screenshots
SAP SD Shipping and Transportation
Peritos Solutions
Implement critical business processes with mySAP Business Suite to integrate

key functions that add value to every facet of your organization

Key Features Learn master data concepts and UI technologies in SAP systems

Explore key functions of different sales processes, order fulfillment options, transportation planning, logistics execution processes, and customer invoicing

Configure the Order to Cash process in SAP systems and apply it to your business needs

Book Description Using different SAP systems in an integrated way to gain maximum benefits while running your business is made possible by this book, which covers how to effectively implement SAP Order to Cash Process with SAP Customer Relationship Management (CRM), SAP Advanced Planning and Optimization (APO), SAP Transportation

Management System (TMS), SAP Logistics Execution System (LES), and SAP Enterprise Central Component (ECC). You'll understand the integration of different systems and how to optimize the complete Order to Cash Process with mySAP Business Suite. With the help of this book, you'll learn to implement mySAP Business Suite and understand the shortcomings in your existing SAP ECC environment. As you advance through the chapters, you'll get to grips with master data attributes in different SAP environments and then shift focus to the Order to Cash cycle, including order management in SAP CRM, order fulfillment in SAP APO, transportation planning in SAP TMS, logistics execution in SAP LES, and billing in SAP ECC. By the end of this SAP book, you'll have

gained a thorough understanding of how different SAP systems work together with the Order to Cash process. What you will learn Discover master data in different SAP environments Find out how different sales processes, such as quotations, contracts, and order management, work in SAP CRM Become well-versed with the steps involved in order fulfillment, such as basic and advanced ATP checks in SAP APO Get up and running with transportation requirement and planning and freight settlement with SAP TM Explore warehouse management with SAP LES to ensure high transparency and predictability of processes Understand how to process customer invoicing with SAP ECC Who this book is for This book is for SAP consultants, SME managers, solution

architects, and key users of SAP with knowledge of end-to-end business processes. Customers operating SAP CRM, SAP TMS, and SAP APO as part of daily operations will also benefit from this book by understanding the key capabilities and integration touchpoints. Working knowledge of SAP ECC, SAP CRM, SAP APO, SAP TMS, and SAP LES is necessary to get started with this book. *Leveraging SAP GRC in the Fight Against Corruption and Fraud* Espresso Tutorials GmbH This book focuses on customizing and design changes for Controlling in SAP S/4HANA. Understand the changes to the functionality in SAP S/4HANA Finance, and how to configure them for Controlling. Compare the features of SAP Controlling in ECC and in SAP S/4HANA.

Learn about modifications in SAP S/4HANA that are specific to Controlling. Obtain detailed guidelines for ledger and currency types in SAP S/4HANA. Find out about important design and configuration changes, including: cost elements now part of G/L Account, cost of goods sold (COGS) split in FI, production variance split in FI, profitability analysis in SAP S/4HANA, and Material Ledger in SAP S/4HANA. Discover more about embedded analytics and other innovations. By using practical examples, tips, and screenshots, this book brings readers up to speed on: - Key changes to Controlling with SAP S/4HANA - Customizing updates in SAP S/4HANA - Ledger and currency types in S/4HANA - Five important design configuration changes

Migrating to SAP S/4HANA SAP

Implementation Unleashed

The methods used for inventory valuation have been transformed with SAP S/4HANA. The material ledger is now integrated with the Universal Journal and is the sole means for valuing materials. This book covers how valuation is managed in up to three different currencies, in parallel, without requiring the actual costing functionality. Learn how the material ledger interacts with the Universal Journal and how to configure the currencies used for parallel valuation. Investigate various valuation approaches and see how legal, group, and profit center valuation views can be used to help understand company profitability. Be guided through the configuration steps that enable these

multiple valuation approaches. For those who are using or intending to use actual costing, learn how the actual cost is determined and the steps required to set this up to achieve maximum benefit. Find out how the actual costing run works and how alternative valuation runs can be used to provide additional information about inventory values. Review the optional business functions FIN_CO_COGM for parallel valuation of cost of goods manufactured, and LOG_MM_SIT for intercompany stock-in-transit and actual costing to see how they can be used for additional analysis of inventory. Investigate the different forms of balance sheet valuation and how they interact with the material ledger. - Valuation in parallel currencies, with and without transfer pricing -

Defining currencies and using them with the material ledger - Valuation using standard cost, moving average cost, and actual cost - Balance sheet valuation methods

SAP PR Release strategy concept and configuration guide: A case study Ahmad Rizki

If you work in a company that uses SAP or other non-SAP ERP systems and are looking at migrating to the latest digital core from SAP, whether the cloud or on-

premise edition, then this book is for you! Explore your options for transitioning to SAP S/4HANA. Walk in detail through the phases of a data migration project using SAP Activate methodology. Identify SAP rapid data migration best practices for SAP S/4HANA with SAP Data Services. Learn about methods for migrating data to a new SAP implementation scenario, as well as the SAP Data Services architecture that deals with the process of extraction, transformation, and load (ETL) of data. Examine the steps required to execute the migration within the ETL stages and how SAP Data Services can be extended to meet additional migration needs. Take a deep dive into SAP S/4HANA migration cockpit and SAP S/4HANA migration object

modeler. Walk through the steps required for migrating data from source systems to SAP S/4HANA (on-premise or cloud edition) using the preconfigured data migration objects delivered by SAP. Delve into the process of creating a migration project and generating the upload template, as well as the steps for uploading and validating the data, including error handling. Review the various migration options and tools available for migrating your legacy data to SAP S/4HANA (on-premise or cloud edition). - Data migration scenarios and tools for moving data to S/4HANA - Plan an S/4HANA data migration using SAP Activate methodology - Step-by-step guide for using S/4HANA migration cockpit and S/4HANA migration object modeler - Evaluate S/4HANA migration

tools

SAP SD Sales PHI Learning Pvt. Ltd.

Details and Overviews This is a detailed book that covers every screen of the SAP Menu and IMG. Details are preceded by overviews that show the larger picture and linkages between different concepts. **Learning Guide** This book can be used to learn SAP. You can start learning SAP using this book even if you know nothing about SAP. How to read this book in multiple iterations is explained in the book. **Technical Reference** If you are in SAP menu or IMG and want to find the relevant material in this book, it is very easy. Both SAP menu and IMG are expanded and section number is provided against each item. **A New Approach to SAP Implementation** You can use this book to implement SAP in a

structured way. This approach is explained in the book. Configuration manual The documentation of SAP implementation includes a configuration manual. This configuration manual may be structured on the lines of this book. User manual The documentation of an SAP implementation includes a user manual. This book should serve as a generic user manual. Company-specific user manual may also be structured on the lines of this book and may include only company-specific guidelines for the users.

Practical Guide to SAP Cost Center

Accounting Packt Publishing Ltd

Take a tour of the many detailed features of costing with quantity structure in SAP Product Cost Planning (CO-PC-PCP). Take an in-depth look at

how Bill of Materials (BOMs), routes, and recipes are used to allocate manufacturing costs to products. Learn about the different types of special procurement keys and how each one is used in cost estimates. Review different methods of including additional costs in the cost estimates, such as overhead costing sheets, templates, and additive cost estimates. Receive an introduction to SAP variant configuration and how costs are applied to material variants. See how co-products and by-products are used in manufacturing and how they affect material cost estimates. Explore costing runs and how they can be used to make your job easier. Get an overview of the various costing reports and how they can be used to gain a deeper understanding of the product costs. Take

a look at the product costing tables which can be used to create custom reports and database queries. - Explore how different costing variants can be used as analytical tools - Review different manufacturing scenarios and how product costing applies to them - Gain further insights into configuring your product costing implementation - Find out about the latest enhancements to product costing in SAP S/4HANA

A GUIDE BOOK TO MANAGING SAP SRM SYSTEM EFFECTIVELY McGraw Hill

Professional

Dive into SAP Product Cost Planning (CO-PC-PCP) and explore in depth how costs are assigned to materials. Walk through SAP S/4HANA configuration tasks and how these decisions impact unit costing and cost estimates with quantity

structure. Determine how to manually specify unit cost estimates during the early stages of product development. Find out how to use SAP Easy Cost Panning to estimate costs for a new product, before the material is created. Review cost component views and configuration to understand how this can be used to enrich the information displayed in cost estimates. Understand how material and manufacturing overhead costs are assigned to materials. Learn more about single and multilevel cost estimates, both with and without quantity structure. Evaluate your SAP CO options for defining product costs using cost estimates with quantity structure. Based on an example company, learn more about methods for generating raw material cost estimates.

Obtain tips for updating the material master. - Delve into configuration of costing variants and valuation variants - Examples of how configuration choices affect costs - Master data required for generating the cost estimates - Types of costing supported in SAP Product Cost Planning

Practical Guide to SAP Business Partner Functions and Integration with SAP S/4HANA Espresso Tutorials GmbH

This book explains all the concepts underpinning SAP's HR Time Management Module. It is a comprehensive technical manual which explains every single node of the User Menu and the Configuration. The book first gives an overview of a concept explaining what it is, how it is used and how it relates to the other concepts. It then

explains its properties, which are fields in a configuration node. This book is designed to be used both as a reference manual and a learning guide. As a learning guide, it offers four views, each for a different target audience. • It can be read from the Senior Management's perspective to gain a broad understanding of the subject and what SAP can do for them. • Business Process Owners can achieve a higher level of understanding by getting to know more of SAP concepts and how to perform different tasks in SAP. • Users can acquire a thorough understanding of different tasks and concepts underlying them. • Functional consultants and proficient users can read the book to gain a complete understanding of the system. As a technical reference, the

book can be used to locate the relevant material through the Table of Contents, Index, 'SAP Menu' and 'SAP Customizing Implementation Guide (IMG)'. The last two follow the Table of Contents. If the reader is in SAP's User Menu or Configuration, the chapter number for these nodes can be found in 'SAP Menu' and 'IMG'. If a node is not covered in the book, the reason for not doing so is mentioned. The implementation of SAP HR Time Management and documentation can also be guided by the structure of this book. A BETTER WORLD : There is a lot we can do to make our world a better world, just as we discover better ways to support our businesses. Read short articles inside on some of the ideas of World Integration and Improvement Initiative. World

Government 691 World Language 693
Good Governance 699 City without
Traffic Lights 705 SAP is a great
software. One needs to fully understand
its features in order to effectively exploit
them for the benefit of customers. Mr.
Agrawal's books on SAP HR have a
unique approach. A chapter usually
focuses on a single business concept,
and discusses the user interface as well
as its associated configuration. This
logical division makes it easier for
readers to understand the functionality.
Another important feature of these
books is the level of detail. Each screen
and each field in a screen is explained.
Explanation includes meaning, use case
and in some cases guidelines. Details
are balanced by overviews explaining
the concepts and their relationships.

While explaining functionality, Mr. Agrawal has taken efforts to highlight what can be done and how it is to be done. This is particularly important for less experienced users and consultants. Indicating chapter numbers against each menu and configuration item is a very useful innovation, as it establishes direct link between the SAP system and the book. Another useful feature is that these books can be read not only by consultants, but also by users, business process owners and even by senior managers. The importance of each topic for each category of users is specified. Mr. Agrawal has taken considerable pain in writing these books, and I congratulate Mr. Agrawal on his achievement and thank him for his contribution to the SAP community. K.

Put together a centralised repository for all financial information and alter it as you see fit

KEY FEATURES

- Expert-led approach to implementing S/4 Central Finance in a wide range of companies.
- Solution-focused responses on Central Finance, Group reporting, BPC, and Fiori.
- Preparation guide for the certification exam and SAP S/4HANA Interview.

DESCRIPTION Your SAP S/4HANA journey has just begun. This book details several processes, methods, and expert strategies for integrating central finance into your IT systems, streamlining finance operations, data reporting, and master data preparation. With the help

of this book, you'll learn all you need to know to get the most out of SAP S/4HANA Central Finance, SAP Group Reporting, BPC, Fiori, and other cutting-edge technologies. This book includes numerous examples to demonstrate the essentials of SAP S/4HANA Central Finance, SAP Group reporting, BPC, and Fiori. It offers extensive hands-on practice utilizing SAP S/4HANA standards to demonstrate Fiori, BPC, SAP S/4HANA Central Finance, and Group reporting. The book contains many applications and projects from throughout the industry spectrum. Interviewing for a job and passing the SAP Certification exam can be made easier with the help of this book! After reading this book you will be able to perform SAP S/4HANA Central Finance and SAP Group reporting

operations. You can also define complex activities in SAP S/4HANA. WHAT YOU WILL LEARN ● Conduct the implementation of Central Finance in your IT environment. ● Consolidate your SAP S/4HANA system's finances. ● Carry out currency conversion, intercompany elimination, financial closure, and reporting. ● Perform a BPC Evaluation. ● Carry out SAP S/4HANA Central Finance and Group reporting functions. ● Utilize Fiori applications to perform SAP S/4HANA operations. WHO THIS BOOK IS FOR This book is a must for SAP consultants, architects, and project managers who wish to become proficient in the SAP S/4HANA project life cycle phases. TABLE OF CONTENTS 1. Key success factors for adopting S/4 Central Finance in any organization 2. Pragmatic

approach - BPC, Fiori, S/4 Central Finance and SAP Group reporting 3. Interview questions and answers on BPC, Central Finance and Group reporting *Material Valuation and the Material Ledger in SAP S/4HANA* Espresso Tutorials GmbH

Implement a powerful end-to-end SAP administration solution Get peak performance from your SAP ERP infrastructure using the detailed implementation, maintenance, and support information in this comprehensive resource. SAP Basis Administration Handbook, NetWeaver Edition delivers integrated management strategies covering both ABAP and Java stacks. Discover how to deploy components, accurately size throughout, configure Oracle databases, back up

your system, and repair performance problems. Career trends, certification requirements, and marketable SAP Basis skills are also discussed in this practical guide. Essential Skills for SAP Professionals: Plan, prepare, and install SAP NetWeaver Application Server Set up, configure, and troubleshoot Java and ABAP stacks Establish server infrastructure and efficiently balance workloads Incorporate transport management and software logistics Resolve performance issues and startup problems Access SAP support infrastructure through SAP Service Marketplace Manage and back up Oracle databases using BR*TOOLS Perform system copies, stack upgrades, and OS/DB migrations

This book offers a comprehensive
introduction to SAP ERP Profit Center
Accounting (PCA) for both classic general
ledger (GL) and the new GL. Get the
tools you need to set profitability targets
for business (planning) and then
compare actual results against those
targets to improve overall profitability.
Solidify your understanding of the
difference between PCA and SAP
Controlling Profitability Analysis (CO-PA)
views. Gain in-depth knowledge of the
concepts, objects, and functionality
available in PCA in SAP ERP, including
the relevant master data set-up, actual
data flows, planning scenarios, and
reporting options. Clarify the differences

between PCA and CO-PA and understand when it is best to use each. Dive into profit center transfer pricing and obtain detailed configuration and set-up steps required for activation. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. - Fundamentals of SAP Profit Center Accounting (PCA) - Concepts, master data, actual data flow, and planning basics - Differences between PCA in classic and new GL - Reporting for Profit Center Accounting (PCA)

Decision-Maker's Guide to SAP S/4HANA Cloud, essentials edition

Syngress

With the conversion from SAP ERP to SAP S/4HANA, the concept of classic customers and vendors is a thing of the

past. SAP Business Partner is now the leading object for processing master data information for customers and vendors. Transactions such as FD01/FK01, FD02/FK02 and XK01/XK02 are automatically redirected to the leading transaction BP. In this practical guide, learn step by step how to work with SAP Business Partner, including primary customization settings, and the creation of an SAP business partner with single and grouped roles. Specialized topics such as search help, field attributes, and authorizations are also covered. A comparison of greenfield and brownfield approaches is an essential aspect of this book. For readers who want, or need, to migrate their current data, guidance is provided on business partner conversion types. This guide

pays special attention to master data synchronization via the CVI Cockpit, including the assignment of number ranges and intervals. - The SAP Business Partner concept - SAP Business Partner integration in SAP ERP and SAP S/4HANA - SAP Business Partner synchronization and Customer-Vendor Integration (CVI) - Overview of customization settings and master data maintenance

SAP S/4HANA Delta for CO

Configuration Espresso Tutorials GmbH
This up-to-date quick reference guides the reader through the most popular SAP module (myERP Financial 6.0). It thoroughly covers all of the sub modules of ERP Financials, including, FICO, FSCM,

New GL functionality, SAP integration points, and Report Painter. Unlike other books that only provide questions and answers for certification preparation, this book covers both configurations and end user transactions for validating the implementation methods. A companion CD-ROM with FICO templates, short cuts, and color figures is included. Features: * Includes both configurations and end-user transactions for validation * Uses a quick-reference style for finding information quickly * Covers the latest account configurations for New GL * Includes a CD-ROM with FICO templates, short cuts, and color figures.
