*Arthur and the
True Francine*

Little, Brown
Books for
Young
Readers

This book asks
the question
"How are we
going to get to
a world more-
so of free
interacting
fellow
individual
people and
less-so of
restricted
groups

intrinsically
apart from
one another?
We don't live
in a world so
much of
cultural
groups,
religions,
nations, skin
colors, and
genders as
much as one
of fellow
individual
people- like
ourselves.
Recognizing
your
individuality
and that of
others is not
the same as
being

individualistic-
it is not selfish
nor self-
absorbed- it is
instead our
most
widespread
and
fundamental
common
language and
honest base of
community
with each
other. The
root of
prejudice,
terrorism, war
and many of
humankind's
problems is a
failure of
people to
recognize and

accept their own individuality socially and respect and empathize with the fundamental individuality of all others. Socially we should recognize, empathize, and respect each other as individuals regardless of what groups we belong to. No individual should have their skin color or gender define who they are throughout their lives on this planet. We need to transform into a 'fellow

individual' based society rather than one of fundamentally separated groups of people. We can do this without losing our cultures, religions, nations, states, tribes, languages, etc. - we just need to prioritize- and lead with- individual respect towards all other people. If you have ever wondered why you • gain

weight • lack energy • retain fluid • get headaches • lack mental clarity • suffer from digestive problems • have joint stiffness ---- and what to do about it---- Then your problems could be food related. This may be the book you need. "I love Caroline Sutherland's easy and delicious recipes. Her information totally inspired me to lose 50 pounds and, thanks to my newfound energy and

mental clarity. I am really enjoying live.”
 -Barbara C., Los Angeles, California “I will always be grateful to Caroline Sutherland for her guidance and refinement of food choices. In order to stay very healthy and have lots of energy, I grow my own food and I am very aware of the foods that are right for me.”

Shows how

the
networking-
averse can
succeed by
working with
the very traits
that make
them hate
traditional
networking
Written by a
proud
introvert who
is also an
enthusiastic
networker
Includes field-
tested tips
and
techniques for
virtually any
situation Are
you the kind
of person who
would rather
get a root
canal than
face a group
of strangers?
Does the
phrase
"working a

room" make
you want to
retreat to
yours? Does
traditional
networking
advice seem
like it's in a
foreign
language?
Devora Zack,
an avowed
introvert and
a successful
consultant
who speaks to
thousands of
people every
year, feels
your pain. She
found that
most
networking
advice books
assume that
to succeed
you have to
become an
outgoing,
extraverted
person. Or at
least learn

how to fake it.
 Not at all.
 There is
 another way.
 This book
 shatters
 stereotypes
 about people
 who dislike
 networking.
 They're not
 shy or
 misanthropic.
 Rather, they
 tend to be
 reflective—the
 y think before
 they talk.
 They focus
 intensely on a
 few things
 rather than
 broadly on a
 lot of things.
 And they need
 time alone to
 recharge.
 Because
 they've been
 told
 networking is
 all about small

talk, big
 numbers and
 constant
 contact, they
 assume it's
 not for them.
 But it is! Zack
 politely
 examines and
 then smashes
 to tiny
 fragments the
 "dusty old
 rules" of
 standard
 networking
 advice. She
 shows how the
 very traits
 that ordinarily
 make people
 networking-
 averse can be
 harnessed to
 forge an
 approach that
 is just as
 effective as
 more
 traditional
 approaches, if
 not better.

And she
 applies it to all
 kinds of
 situations, not
 just formal
 networking
 events. After
 all, as she
 says, life is
 just one big
 networking
 opportunity—a
 notion readers
 can now
 embrace.
 Networking
 enables you to
 accomplish
 the things that
 are important
 to you. But
 you can't
 adopt a style
 that goes
 against who
 you are—and
 you don't
 have to. "I
 have never
 met a person
 who did not
 benefit

tremendously from learning how to network—on his or her own terms”, Zack writes. “You do not succeed by denying your natural temperament; you succeed by working with your strengths.” Individual Respect Is a Language Everyone Can Understand
Golden Books
The next bull market is here. It’s not in stocks. It’s not in bonds. It’s in commodities - and some smart investors will

be riding that bull to record returns in the next decade. Before Jim Rogers hit the road to write his best-selling books *Investment Biker* and *Adventure Capitalist*, he was one of the world’s most successful investors. He co-founded the Quantum Fund and made so much money that he never needed to work again. Yet despite his success, Rogers has never written a book of practical investment advice - until

now. In *Hot Commodities*, Rogers offers the low-down on the most lucrative markets for today and tomorrow. In late 1998, gliding under the radar, a bull market in commodities began. Rogers thinks it’s going to continue for at least fifteen years - and he’s put his money where his mouth is: In 1998, he started his own commodities index fund. It’s up 165% since then, with more than \$200

million invested, and it's the single-best performing index fund in the world in any asset class. Less risky than stocks and less sluggish than bonds, commodities are where the money is - and will be in the years ahead. Rogers's strategies are simple and straightforward. You can start small - a few thousand dollars will suffice. It's all about putting your money into stuff you understand, the basic

materials of everyday life, like copper, sugar, cotton, corn, or crude oil. Once you recognize the cyclical and historical trading patterns outlined here, you'll be on your way. In language that is both colourful and accessible, Rogers explains why the world of commodity investing can be one of the simplest of all - and how commodities are the bases by which investors can value companies,

markets, and whole economies. To be a truly great investor is to know something about commodities. For small investors and high rollers alike, Hot Commodities is as good as gold . . . or lead, or aluminium, which are some of the commodities Rogers says could be as rewarding for investors.

Since the Koran is famously known to be unreadable, how can this be? The Koran found in the bookstore is not the historical Koran of Mohammed. The original Koran was a story that</p>
---	--	--

unfolded as Mohammed's life situations changed. The bookstore Koran is arranged by length of chapter, not time. The bookstore Koran has no time, no Mohammed and no story. Therefore, it makes no sense. Using statistical methods to select the verses, the Two-Hour Koran has woven Mohammed's life back into the Koran itself. Now the verses have context and meaning.

Everything is in the right order and the original story has been restored. Once you have read A Two-Hour Koran, you can pick up a bookstore Koran and understand what you are reading.

Arthur's Chicken Pox
Little, Brown Books for Young Readers
Probably no decade saw as many changes in the Hollywood film industry and its product as the 1930s did. At the beginning of the decade, the industry was still struggling with the transition to talking pictures. Gangster films and naughty comedies starring Mae West were popular in urban areas, but aroused

threats of censorship in the heartland. Whether the film business could survive the economic effects of the Crash was up in the air. By 1939, popularly called "Hollywood's Greatest Year," films like *Gone With the Wind* and *The Wizard of Oz* used both color and sound to spectacular effect, and remain American icons today. The "mature oligopoly" that was the studio system had not only

weathered the Depression and become part of mainstream culture through the establishment and enforcement of the Production Code, it was a well-oiled, vertically integrated industrial	powerhouse. The ten original essays in American Cinema of the 1930s focus on sixty diverse films of the decade, including Dracula, The Public Enemy, Trouble in Paradise, 42nd Street, King Kong,	Imitation of Life, The Adventures of Robin Hood, Swing Time, Angels with Dirty Faces, Nothing Sacred, Jezebel, Mr. Smith Goes to Washington, and Stagecoach . <u>Science</u> <u>Fiction Shorts:</u> <u>Earth invaded</u>
