 Shortlisted for the Lionel Gelber Prize There has

always been some gap between rich and poor in this country, but recently what it means to be rich has changed dramatically. Forget the 1 percent—Plutocrats proves that it is the wealthiest 0.1 percent who are outpacing the rest of us at breakneck speed. Most of these new fortunes are not inherited, amassed instead by perceptive businesspeople who see themselves as deserving victors in a cutthroat international competition. With empathy and

intelligence, *Plutocrats* reveals the consequences of concentrating the world's wealth into fewer and fewer hands.

Propelled by fascinating original interviews with the plutocrats themselves, *Plutocrats* is a tour de force of social and economic history, the definitive examination of inequality in our time.

Myth and Hate from Antiquity to the Present
 Nordic Africa Institute
 In this provocative book, Marvin Perry and Frederick M. Schweitzer analyze the lies, misperceptions, and myths about Jews and Judaism that anti-semites have propagated throughout the centuries. Beginning with antiquity, and continuing into the present day, the authors explore the irrational fabrications that have led to numerous acts of violence and hatred against Jews. The book

examines ancient and medieval myths central to the history of anti-semitism: Jews as 'Christ-killers', instruments of Satan, and ritual murderers of Christian children. It also explores the scapegoating of Jews in the modern world as conspirators bent on world domination; extortionists who manufactured the Holocaust as a hoax designed to gain reparation payments from Germany; and the leaders of the slave trade that put Africa in chains. No other

book has focused its attention exclusively on a thematic discussion of historic and contemporary anti-semitic myths, covering such an expansive scope of time, and allowing for such a painstaking level of exemplification. Anti-semitism is an essential book that will serve as a corrective to bigotry, stereotype, and historical distortion.

From the New York Times bestselling author of the *Wedding Pact* and *Rose Gardner* series comes a friends-to-lovers romance that "reads like a great Hollywood rom-com" (Apple Books). Romance isn't an option for Holly Greenwood. With her wedding planner career on the line she needs to stay focused, and that means pleasing her demanding boss, not getting distracted by her mind-alteringly hot neighbor . . . Ex-Marine Kevin Vandemeer craves

normalcy. Instead, he has a broken-down old house in need of a match and some gasoline, a meddling family, and the uncanny ability to attract the world's craziest women. At least that last one he can fix: he and his buddies have made a pact to swear off women, and this includes his sweetly sexy new neighbor. After one hot night that looks a whole lot like a disaster in the light of day, Kevin and Holly are about to learn that true love doesn't play by the rules . . .

Sarah Carter's "*Imperial Plots: Women, Land, and the Spadework of British*

Colonialism on the Canadian Prairies" examines the goals, aspirations, and challenges met by women who sought land of their own. Supporters of British women homesteaders argued they would contribute to the "spade-work" of the Empire through their imperial plots, replacing foreign settlers and relieving Britain of its "surplus" women. Yet far into the twentieth century there was persistent opposition to the idea that women could or should

farm: British women were to be exemplars of an idealized white femininity, not toiling in the fields. In Canada, heated debates about women farmers touched on issues of ethnicity, race, gender, class, and nation. Despite legal and cultural obstacles and discrimination, British women did acquire land as homesteaders, farmers, ranchers, and speculators on the Canadian prairies. They participated in the project of dispossessing Indigenous people. Their

complicity was, however, ambiguous and restricted because they were excluded from the power and privileges of their male counterparts. Imperial Plots depicts the female farmers and ranchers of the prairies, from the Indigenous women agriculturalists of the Plains to the array of women who resolved to work on the land in the first decades of the twentieth century.
