Quotes by Bernadette Jiwa Differences in Form Submission. The fundamental difference between METHOD="GET" and METHOD="POST" is that they correspond to different HTTP requests, as defined in the HTTP specifications. The submission process for both methods begins in the same way - a form data set is constructed by the browser and then encoded in a manner specified by the enctype attribute. GET vs POST - Difference and Comparison | DiffenWhile

a single page site may improve relevancy for your primary keywords, it's more likely it will dilute relevancy for sub-topics and terms that might rank better, or at all, on their own pages. Defining content sections and using anchor links is the suggested method for increasing single-page SEO. Using H1 tags is also highly advised.
