We Fear Naught But God Springer
Nature Mathews Phosa developed his love for poetry as a young boy growing up in rural Mpumalanga and Limpopo. Mostly written while in exile as the commander of an MK unit, Chants of Freedom vividly recreates the feelings of anger, defiance, frustration, shame, pain and ultimately

hope that characterised the exiles' experience of the struggle to abolish apartheid in South Africa. Writing in a lyrical style, Phosa addresses such themes as oppression, violence, death and hatred, and recalls the atrocities and tragedies of the migrant-labour system, the murders of innocent children, the detentions without trial, the bannings and the state-sanctioned executions that

characterised the apartheid era. He recalls the influences on his life, from his grandparents to struggle leaders, and pays tribute to the role played by women and the youth in the liberation struggle. He celebrates the victory over apartheid and eulogises all those who contributed to the fight for democracy, black and white. Chants of Freedom provides raw, powerful and unprecedented insight into the

consciousness of a freedom fighter, and ultimately reveals his humanity.

Transboundary Environmental Governance

Study and Master Life Sciences Grade 11 CAPS Study GuideLife Sciences, Grade 12Like Vanessa In this book the author examines the illegal wildlife trade from multiple perspectives: the historical context, the impact on the environment, the scope of

the problem internationally, the sociocultural demand for illegal products, the legal efforts to combat it, and several case studies from inside the trade. The illegal wildlife trade has become a global criminal enterprise, following in the footsteps of drugs and weapons. Beyond the environmental impact, financial profits from the illegal wildlife trade often fund organized crime groups

and violent gangs that threaten public safety and security in myriad ways. This innovative volume covers several key questions surrounding the wildlife trade: why is there a demand for illegal wildlife products, which actors are involved in the trade, how is the business organized, and what are the harmful consequences . The author performed ethnographic fieldwork in three key markets:

Russia, Morocco, and China, and has constructed a detailed picture of how the wildlife trade operates in these areas. Conversations with informants directly involved in the illegal business ensure unique insights into this lively black market. In the course of his journey the author follows the route of the illegal wildlife trade from poor poaching areas to rich business districts where corrupt officials, legally registered companies, wildlife farms and sophisticated criminal organizations all have a share. A fascinating look inside the world of poachers, smugglers and traders.

Saturday's Soldiers New York : Farrar, Straus, Giroux Contemporary Criminological Issues tackles some of today's most pressing social issues, from the criminalization of Indigenous peoples to interpersonal violence, border control, and armed conflicts. This book advances cutting-edge theories and methods, with the aim of

moving beyond the scholarship that reproduces insecurity and exclusion. The breadth of approaches encompasses much of the current critical criminological scholarship, serving as a counterpoint to the growth of managerial and administrative criminologies and the rise of explicitly exclusionary and punitive state policies and practices with respect to 'crime' and 'security.' This edited collection

featuring two books, one in English and one in French, includes important contributions to knowledge and public policy by eminent experts and emerging scholars. This book is published in English.
