 The short story "The Law of Life" by Jack London is a study on the human psyche, as one faces the familiar cycle of life and death. Old Koskoosh, who is the father of his Native American tribe's chief, is dying. As his people leave him and he lays on the ground in his final hours to wait for his end, he looks back on his life. Memorable events fill his thoughts until the very end - even until the wolves arrive. The short story is one of London's stories inspired by the period the writer spent at the Klondike Gold Rush in the late 19th century and was published in the early 20th century. Jack London (1876-1916) was an American writer and social activist. He grew up in the working class, but became a worldwide celebrity and one of the highest paid authors of his time. He wrote several novels, which are considered classics today, among these 'Call of the Wild', 'Sea Wolf' and 'White Fang'.

The Five Misfits Il Leone Verde

When talking about justice, we mean more than its day-today administration involving officials, institutions, and those most affected. We also refer to an ideal: a set of basic values which guide living together and infuse the distribution of rights and duties, options and obligations, freedoms and restrictions. Losing this reference point means the administration of justice will suffer too, by having lost its sense of direction. With thirty years' experience in the Italian judiciary and dozens of influential judicial inquiries to his name Gherardo Colombo reflects on the culture of justice and the profound meaning of rules. Without respecting rules, we cannot live in society.
