Written by a practicing emergency physician, *The White Coat Investor* is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by

unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. The Insurance Forum Business Plus

What can one person do when a powerful industry censors the person's views? That is the question Joseph M. Belth tries to answer in this memoir about his publication of an independent monthly periodical called *The Insurance Forum*. He started the periodical with the January 1974 issue after he had experienced 31 incidents of censorship over a period of eight years. The censorship was the work of trade press periodicals, professional journals, professional organizations, insurance companies, and others who wanted to prevent him from expressing his views. He ended the Forum when he published the December 2013 issue after 40 consecutive years of publication. This memoir reveals the inside story of Belth's victories, partial victories, and defeats. His memoir explains why and how the Forum began and describes significant events that occurred during the four decades of operation, including those relating to life insurance, annuities, company operations, and regulation. Belth also describes his adolescent years and education prior to joining the faculty of Indiana University in 1962, and his long association with the University. -- From book jacket.
