From License Application to Program Management Lulu.com
Brings together in a single collection all international and national space regulations and related materials of interest. Although the United States was the most dominant nation during the early development of space law, a growing number of nations

have since contributed their national law to the field of space jurisprudence and increasingly, non-U.S. law has been added. To reflect this development, the title has been changed to Space law, a title which more appropriately reflects the comprehensive content of the volumes.
