Brisingr There is more adventure at hand for the Rider and his dragon, as Eragon finds himself bound

by a tangle of promises he may not be able to keep. When unrest claims the rebels and danger strikes from every corner, Eragon must make choices that may lead to unimagined sacrifice. **The Mighty Odds (The Odds Series #1)** Harper Collins

YA. Adventure fiction. Fantasy fiction. Listen then, and I'll tell you again of the Battle of the Rock. But none of your usual wriggling, or I'll stop before I've begun . . . Halli loves the old stories from when the valley was a wild and dangerous place - when the twelve legendary heroes stood together to defeat the ancient enemy, the bloodthirsty Trows. Halli longs for adventure but these days the most dangerous thing in the valley is boredom. He tries to liven things up by playing practical jokes. But when one of his jokes goes too far, he reawakens an old blood feud and finds himself on a hero's quest after all. Along the way he meets a ruthless thief, a murderous rival, and a girl

who may just be as fearless as he is . Jonathan Stroud has created an epic saga with a funny, unique spin, and an unforgettable anti-hero.

**The Novice** Random House

From Robin Sloan, author of *Mr. Penumbra's 24-Hour Bookstore*, the story of Mr. Penumbra's first trip to San Francisco—and of how he got entangled with the city's most unusual always-open enterprise... It is August 1969. The Summer of Love is a fading memory. The streets of San Francisco pulse to the sounds of Led Zeppelin and Marvin Gaye. And of jackhammers: A futuristic pyramid of a skyscraper is rising a few blocks from City Lights bookstore and an unprecedented subway tunnel is being built under the bay. Meanwhile, south of the city, orchards are quickly giving way to a brand-new industry built on silicon. But young Ajax Penumbra has not arrived in San Francisco looking for free love or a glimpse of the technological future. He is seeking a book—the single surviving copy of the *Techne Tycheon*, a mysterious volume that has brought and lost great fortune for anyone who has owned it. The last record of the book locates it in the San

Francisco of more than a century earlier, and on that scant bit of evidence, Penumbra's university has dispatched him west to acquire it for their library. After a few weeks of rigorous hunting, Penumbra feels no closer to his goal than when he started. But late one night, after another day of dispiriting dead ends, he stumbles across a 24-hour bookstore, and the possibilities before him expand exponentially . . .

*Summoner: Book One* HarperCollins UK Lucy has left Lockwood & Co. A freelance operative, she is hiring herself out to other agencies - agencies that might value her ever-improving skills. But now Lockwood needs her help. Penelope Fittes, leader of the well-renowned Fittes Agency wants Lockwood & Co. - and only them - to locate and remove the 'Source' for the legendary Brixton Cannibal. It's a tough assignment. Made worse by the tensions between Lucy and the other agents - even the skull is treating her like a jilted lover! What will it take to reunite the team? Black marketeers, an informant ghost, a Spirit Cape that transports the wearer, and mysteries involving their closest rivals may just do the trick. But not all is at it

seems. And it's not long before a shocking revelation rocks Lockwood & Co. to its very core . . . 'Stroud is a genius' - Rick Riordan, author of the Percy Jackson series.

#### **The Leap** Random House

From the renowned author/illustrator of the Popularity Papers series, Amy Ignatow, comes the first installment in a new series about a diverse crew of middle school kids who develop very limited superhero powers after a strange accident and manage to become unlikely friends on the adventure of a lifetime. When a sweet nerd, an artsy cartoonist, a social outcast, and the most popular girl in school are involved in a mysterious bus accident, this seemingly random group of kids starts to notice some very strange abilities they did not have before. Artsy Martina can change her eye color. Nerdy Nick can teleport . . . four inches to the left. Outcast Farshad develops super strength, but only in his thumbs. And Cookie, the It Girl of school's most popular clique, has suddenly developed the ability to read minds . . . when those minds are thinking about directions.
