*Why the Rich Are
Getting Richer*

Forget the 10,000 hour
rule— what if it's
possible to learn the
basics of any new skill
in 20 hours or less?
Take a moment to
consider how many
things you want to
learn to do. What's on
your list? What's

holding you back from
getting started? Are
you worried about the
time and effort it takes
to acquire new
skills—time you don't
have and effort you
can't spare? Research
suggests it takes
10,000 hours to
develop a new skill. In
this nonstop world
when will you ever find
that much time and
energy? To make
matters worse, the
early hours of prac-
ticing something new

are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this

book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the

subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Poor Man's Fight Simon and Schuster

Douglas Coupland's inventive novel-think *Clerks meets Who's Afraid of Virginia Woolf?*-is the story of an extraordinary epistolary relationship between Roger and Bethany, two very different, but strangely connected, "aisles associates" at Staples. Watch as their lives unfold alongside Roger's work-in-progress, the oddly titled *Glove Pond*. A raucous tale of four academics, two malfunctioning marriages, and one rotten dinner party, Roger's opus is a Cheever-style novella gone horribly wrong. But as key characters migrate into and out of its pages, *Glove Pond* becomes an anchor of Roger's unsettled-and unsettling-life. Coupland electrifies

us on every page of this witty, wise, and unforgettable novel. Love, death, and eternal friendship can all transpire where we least expect them...and even after tragedy seems to have wiped your human slate clean, stories can slowly rebuild you. *The Seven Husbands of Evelyn Hugo* Moody Publishers

OneCry: A Call to Spiritual Awakening is a challenge, a plea for readers to shake off spiritual apathy and wake up to the hope of God moving with extraordinary power in our day. It paints a picture of both desperation and hope; without spiritual revival our country has no hope, but when it comes we will need no other hope. Drawing on an abundance of

stories from ordinary people who have experienced the power of life-changing revival in their own lives, this book provides a contemporary roadmap for spiritual awakening and real revival. Passionate and story-rich, OneCry engages readers to seek God urgently at this moment in history, it inspires them with hope for what God can do, and it invites them to join a growing movement of believers who are uniting in one cry for revival and spiritual awakening. It is a summons to join together in a single focus: passionate prayer for revival in our nation like hasn't been seen in nearly two hundred years.

Fiction. Finalist for the 2016 Quebec Writers' Federation Paragraphe Hugh MacLennan Prize for Fiction. The Globe 100: Best Books of 2016 Selection. Who hasn't, at one time or another, considered killing a billionaire? Following on the critical success of his novel POLYAMOROUS LOVE SONG (BookThug, 2014), Montreal-based writer and performer Jacob Wren picks up the mantle of the politically

and economically disenfranchised in RICH AND POOR--the story of a middle-class, immigrant pianist who has fallen on hard times, and now finds himself washing dishes to make ends meet. Wren capably balances personal reflections with real-time political events, as his protagonist awakens to the possibility of a solution to his troubles and begins to formulate a plan of attack, in which the only answer is to get rid of "the 1%." RICH AND POOR is a rare work of literary fiction that cuts into the psychology of politics in ways that are off-kilter, unexpected, and unnerving. This compelling, fast-paced, and energizing read may just become the new Bible for

adventure-seeking, politically active and/or interested readers who rowdily question their position among "the 99%." "For far too long, literature has deemed it inconvenient to speak about the rich and the poor. Jacob Wren's intriguing novel calls into question this very notion. The fascinating result resides in the author's intelligent use of class struggle as a narrative principle to drive the novel. The two men, who assume the contrasting roles, have the ability to analyze their actions and the facts of all that is around them, while at the same time remaining unaware of the nature of the forces they answer to."--

Rich Man's War Delta Systems

"WE REQUIRE A DIFFERENT BATTLEFIELD." Nobody expected the war to last three hours, let alone three years. The star system of Archangel holds the line against invading corporate fleets, but a quarter of its territory is already lost. The navy can't hang on much longer. Faced with this grim truth, Archangel's leaders

shift their strategy to diplomacy and espionage. For both arenas, they call upon a reluctant weapon: a frontline grunt named Tanner Malone. These days, Tanner doesn't aspire to win the war. He merely wants to survive it. Now he'll be thrust into the center of events once again, pulled back and forth from covert missions to the media spotlight. Yet with every battle, he gets closer to the old enemy hidden in the shadows, and the ugly truth about the war that could unravel everything Archangel might hope to win.

"With the Master Before the Mirror of God's Word is a women's Bible Study on 1st John. The book

of First John is a letter of self-examination to see if you are in the faith and living the example of the life of Christ. 1 John 2:1: ""My little children, I am writing these things to you so that you may not sin. But if anyone does sin, we have an advocate with the Father, Jesus Christ the righteous (1 John 2:1). The tone is tender in this book as the Apostle John expresses love and concern to his readers, using that phrase, ""little children"" seven times.

As we look in the mirror of God's Word we are to examine our hearts closely and we will see that we need to change!"

How do you find your original self? Osho

perceives man as becoming increasingly alienated from his inner self, gradually losing his natural innocence and creativity in the mindless quest for worldly power and success. To appear strong, the average man suppresses his innate qualities of love and compassion. For Osho, the ideal man is Zorba, the Buddha—a perfect blend of matter and soul. This seamless collection of discourses takes the reader through the various stages of man's evolution: from Adam to Slave, Son, Homosexual, Priest and Politician, until he attains the pinnacle of his consciousness as the Rebel or Zorba. Sparkling with anecdotes and enriched with brilliant

repartee, *The Book of Man* is a remarkable blend of wisdom and wit.

It's Robert Kiyosaki's position that "It is our educational system that causes the gap between the rich and everyone else." He laid the foundation for many of his messages in the international best-seller *Rich Dad Poor Dad* -- the #1 Personal Finance book of all time -- and in *Why the Rich Are Getting Richer*, he makes his case... In this book, the reader will learn why the gap between the rich and everyone else grows wider. In this book, the reader will get an explanation of why savers are losers. In this book, the reader will find out why debt

and taxes make the rich richer. In this book, the reader will learn why traditional education actually causes many highly educated people, such as Robert's poor dad, to live poorly. In this book, the reader will find out why going to school, working hard, saving money, buying a house, getting out of debt, and investing for the long term in the stock market is the worst financial advice for most people. In this book, the reader will learn the answers Robert found on his life-long search, after repeatedly asking the question, "When will we learn about money?" In this book, the reader will find out why real financial education may never be taught in schools. In this book, the reader

will find out "What financially education is... really."

Nick Colton was a spoiled rich kid when he ran away from Seattle, leaving his best friend and lover Alex Diaz behind. Ten years later, he's back. He says he's there to donate bone marrow for his half-sister, but Alex knows there's more to it than that. Alex wants to protect himself and everyone else from Nick's plans, but he needs to spend time with the man in

order to figure out what he's up to. And the more time they spend together, the more Alex realizes that his own attraction to Nick is far from resolved. Nick is bent on revenge, Alex is trying to maintain his straight and conservative lifestyle, but neither of them can forget what they used to have and what they might, someday, be able to have again.

Riven Oxford [Oxfordshire] ; New York : Oxford University Press 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how

it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial

gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-

for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity -

compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

Red Rising Penguin

During World War I, thousands of rural southern men, black and white, refused to serve in the military. Some failed to register for the draft, while others deserted after being inducted. In the countryside, armed bands of deserters defied local authorities; capturing them required the dispatch of federal troops into three southern states. Jeanette Keith traces southern draft resistance to several sources, including whites' long-term political opposition to militarism, southern blacks' reluctance to serve a nation that refused to respect their rights, the peace witness of southern

churches, and, above all, anger at class bias in federal conscription policies. Keith shows how draft dodgers' success in avoiding service resulted from the failure of southern states to create effective mechanisms for identifying and classifying individuals. Lacking local-level data on draft evaders, the federal government used agencies of surveillance both to find reluctant conscripts and to squelch antiwar dissent in rural areas. Drawing upon rarely used local draft board reports, Selective Service archives, Bureau of Investigation reports, and southern political leaders' constituent files, Keith offers new insights into rural southern politics and society as well as the

growing power of the nation-state in early twentieth-century America.

"Fresh from prison, young Bento stumbles into a job at a quirky collection agency, joining an unconventional crew that works out of a former warehouse where bats and pigeons roost in the rafters. Collectors scavenge among hammered victims of an economy that never seems to work for them. Debtors include

patsies, cheats, liars, bewildered shopaholics, and furiously dedicated deadbeats. All bought the American dream but couldn't pay the price. "Bill collectors are like priests," says a crew member. "You can tell me anything." Battered "schmoes" do just that, sharing secrets with collector-confessors who in some cases only recently exited the list of shame themselves. A blue-skinned survivalist cop dreams of acceptance as he schemes to steal drug money; a young woman with a masters in library science waves to drivers from inside a chicken costume; a world-renowned author is picked clean by an ex-girlfriend; an Air Force navigator loses control

as he transports corpses of the fallen back to the States; and lovers find each other at the other end of a collection call.

Meanwhile Bento struggles to elude a cell that's awaited him all along. As their paths intersect, characters' lives throb with humor, suspense, and the intensity that flows from human beings under relentless pressure" --

That they will own the land their father gave them.” “I live for you,” I say sadly. Eo kisses my cheek. “Then you must live for more.” Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind

have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity’s overlords struggle for power.
