My Life in Seven Dogs  
Random House Trade  
Paperbacks  
After the ultimate  
betrayal, which is more

important: trust or  
forgiveness? In KEEP NO  
SECRETS, the  
controversial follow-up to  
Compton's debut legal  
thriller TELL NO LIES, a  
district attorney struggles  
to redeem himself after a  
one-night stand damaged  
his marriage and  
professional reputation.  
After surviving the private

and public fallout from a  
one-night stand four years  
before, St. Louis DA Jack  
Hilliard wants nothing  
more than to be trusted  
again by his wife, Claire,  
and to earn back the  
respect of the community  
he serves. Since the day  
Claire accepted him back  
into the family, he's  
vowed to be true to these

goals, and so far he's succeeded. But all of Jack's efforts begin to crumble when the woman involved in his earlier downfall, Jenny Dodson, returns to town claiming threats on her life and asking for his help, and resurrecting for Jack long-buried emotions and questions of her guilt for the murder of a client. Just when he thinks the pressure can't get any worse, his son's girlfriend, Celeste, accuses him of sexual assault, and he suddenly finds himself on the wrong end of a

criminal case, battling for his freedom. Can Jack trust his freedom to the legal system on which he built his career? Or will the ghost of his one-night stand four years before come back to haunt him, causing him to be convicted on the mistakes of his past?

"Wolfe Lowenthal's quiet little memoir will with window-opening wisdom reinforce, I think, my view of how Cheng stood on Tai

Chi. It tells how a young writer reacted to this strange Chinese man when he appeared in New York City in the mid-1960s and stayed there for a decade before returning to Taiwan to die in 1975. In a nickel town where neurosis is a cardinal virtue, the Tai Chi center established by Cheng soon became an oasis of learning. In my visits there I was invariably approached by a quiet fellow with a ready smile and loads of questions. His form and sensing hands improved but he

never lost his kindly ways. This led me once to tell the three seniors that the one person in the club who best exemplified Tai Chi was this junior. That man who has since become a teacher of the art is the author of this book." -Robert W. Smith, from the Preface

**A Novel** Harmony  
A handbook of the classical Chinese literature on which the art of t'ai chi is based. First English translation of the classic texts of T'ai Chi Ch'uan. This is required reading for practitioners

of every style.  
*Professor Cheng Man Ch'ing and His T'ai Chi Chuan* Knopf  
From bestselling author of *She's Not There*, New York Times opinion columnist, and human rights activist Jennifer Finney Boylan, *Good Boy: My Life in Seven Dogs*, a memoir of the transformative power of loving dogs. This is a book about dogs: the love we have for them, and the way that love helps us understand the people we have been. It's in the love of dogs, and my love for them, that I can best now

take the measure of the child I once was, and the bottomless, unfathomable desires that once haunted me. There are times when it is hard for me to fully remember that love, which was once so fragile, and so fierce. Sometimes it seems to fade before me, like breath on a mirror. But I remember the dogs. In her New York Times opinion column, Jennifer Finney Boylan wrote about her relationship with her beloved dog Indigo, and her wise, funny, heartbreaking piece went

viral. In *Good Boy*, Boylan explores what should be the simplest topic in the world, but never is: finding and giving love. *Good Boy* is a universal account of a remarkable story: showing how a young boy became a middle-aged woman—accompanied at seven crucial moments of growth and transformation by seven memorable dogs. “Everything I know about love,” she writes, “I learned from dogs.” Their love enables us to pull off what seem like impossible

feats: to find our way home when we are lost, to live our lives with humor and courage, and above all, to best become our true selves.

**With Selected Writings on Meditation, the I Ching, Medicine, and the Arts** Blue Snake Books

When Sam visits Zara and Ben and their great-uncle, the quirky inventor Professor Ampersand, he never expects to embark on a fantastical adventure. But when Professor Ampersand and his group of professor

friends are kidnapped by the evil Professor Murdo, it's up to Sam, Zara, and Ben to save them. They have only three days in which to journey to an icy, desolate land and uncover Murdo's sinister plot. Only then can they save the professors— and the fate of the whole world.

*Discovering the Wisdom of the Forest* Carnegie Mellon University Press  
A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.  
*Lessons from a Street-*

*wise Professor UM Libraries*  
Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael

next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

"When the creator of a high school gossip app mysteriously dies in front of four high-profile

students all four become suspects. It's up to them to solve the case"--  
*A Simplified Method of Calisthenics for Health and Self-Defense*  
iUniverse  
NEW YORK TIMES BEST SELLER • From the world's leading forest ecologist who forever changed how people view trees and their connections to one another and to other living things in the forest—a moving, deeply personal journey of discovery Suzanne Simard is a pioneer on the frontier of plant

communication and intelligence; she's been compared to Rachel Carson, hailed as a scientist who conveys complex, technical ideas in a way that is dazzling and profound. Her work has influenced filmmakers (the Tree of Souls of James Cameron's Avatar) and her TED talks have been viewed by more than 10 million people worldwide. Now, in her first book, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the

fascinating and vital truths--that trees are not simply the source of timber or pulp, but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard writes--in inspiring, illuminating, and accessible ways—how trees, living side by side for hundreds of years,

have evolved, how they perceive one another, learn and adapt their behaviors, recognize neighbors, and remember the past; how they have agency about the future; elicit warnings and mount defenses, compete and cooperate with one another with sophistication, characteristics ascribed to human intelligence, traits that are the essence of civil societies--and at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the

others that surround them. Simard writes of her own life, born and raised into a logging world in the rainforests of British Columbia, of her days as a child spent cataloging the trees from the forest and how she came to love and respect them—embarking on a journey of discovery, and struggle. And as she writes of her scientific quest, she writes of her own journey--of love and loss, of observation and change, of risk and reward, making us understand how deeply human scientific inquiry

exists beyond data and technology, that it is about understanding who we are and our place in the world, and, in writing of her own life, we come to see the true connectedness of the Mother Tree that nurtures the forest in the profound ways that families and human societies do, and how these inseparable bonds enable all our survival.

Martial Arts Biographies:

An Annotated

Bibliography lists

hundreds of martial arts related biographies and autobiographies. Most of the entries are annotated, giving a synopsis of the relevant material in the book. Included are listings for martial artists of Karate, Kung Fu, Aikido, Judo, Jiu Jitsu, Tae Kwon Do, Ninjutsu, Tai Chi, and many other styles.

Appendices list productive sources for new and used

books, and contact information for major publishers of martial arts books. Martial Arts Biographies: An Annotated Bibliography is a useful resource for martial arts researchers, readers, book collectors, and libraries.

*Technology Review* Via Media Publishing

Six American divers-a college professor, soldiers-of-fortune, an unfulfilled woman, a driven Jesuit archaeologist-search the crystalline, menacing waters of the Greek Isles

of Santorini for a fabled lost city. They find it. Yet the end of their search is the beginning of an extraordinary adventure, for the treasures of Atlantis are sought by governments and cutthroats alike, threatened by volcanic eruptions and guarded by a monumental icon that has defied the touch of all but one man for a thousand years before Plato's time. This superbly crafted novel, set amid the mystery and majesty of the Aegean, combines high tension and

suspense with a terrifying realism, climaxing in an unforgettable undersea battle between two armies in wetsuits deep in the exhaust vents of a submerged volcano. Praise for Atlantis Fire:"e;. . . [A] fast, colorful suspense-adventure. The story races to a literally explosive climax that is better than [Peter] Benchley [Jaws, The Deep] at his best. . . Atlantis Fire blew me away. This is a fine thriller, seasoned with wit and sensibility."e; -- Stephen King"e;A splendid

novel. The best novel I've read in five years."e; -- Robert B. Parker "e;A lively and dramatic story of underwater exploration, of the stunning discovery of what may be the lost city of Atlantis, and its golden treasure. . . . full of chilling surprises."e; -- Publishers Weekly"e;[Goshgarian/Braver] keeps everything moving. . . an entertainment full of eminently filmable aquatic action and scenic locales."e; --Kirkus Reviews"e;Move over, Peter Benchley. This

subaquatic thriller has a new frogman in residence. . . This adventure story about searching for sunken treasure sprang from experience. While he was scuba diving in the Mediterranean, [Goshgarian's/Braver's] boat was boarded by Spanish officials who informed him he lacked proper credentials. This niggler was prompted by a local racketeer profiting from underwater archaeology and kicking back to custom officials. Upon that personal framework Goshgarian

[Braver] placed the legends of Atlantis, went to the Greek island of Santorini. . . With a shift of locale to Greece, the addition of scoundrels, saboteurs and scholars, a drowned island, an earthquake, the icon of a bull, flying bullets and spear guns, he had a tale destined for high noon, a beach, midsummer."e; --The Boston Globe "e;Archaeological diving sequences are very well done-the author has actually participated in such expeditions. . . The climax, a free-for-all fight

in underwater caves . . . is as exciting as any reader would want."e; --Library Journal"e;. . . the underwater searches and fights are vivid with authentic detail. It's the sort of stuff which should tempt the producers of money-making films like *Jaws* and *The Deep* to try again."e; --The Boston Herald  
[How Black Families Can Heal from Sexual Abuse](#)

that come with the episodes  
*Martial Arts Biographies*  
 Via Media Publishing  
 "Brilliant.... A loving and detailed celebration of a diverse, beautiful and often astounding people."—Laurence Gonzales, Chicago Tribune  
 They are sometimes called the people who died twice, once at the hands of the Spaniards and their brutal process of civilization, then at the hands of Anglos, practicing a subtler exploitation. They are Latinos, the fastest-

growing minority in the United States. Earl Shorris's deeply moving narrative—enlivened by biographical sketches of Mexican Americans, Cuban Americans, Puerto Ricans, and many others struggling with the burden of a rich and terrible history—illuminates every aspect of the Latino experience in America, from language to education to social and political organization. "[A] powerful, beautifully-written and thoughtful book...likely to remain unequalled in its sweep

and profundity for some time to come."—J. Jorge Klor de Alva, *The New York Times Book Review* "A smart, perceptive and wonderfully readable book.... Should be required reading for anyone who would hope to understand America."—Gerald Volgenau, *Boston Globe* [The Secret History](#) Houghton Mifflin Harcourt "Lessons from a Street-Wise Professor" sheds light on what every successful musician knows but most music schools don't teach--that

a musician, regardless of instrument or specialty, is a small business and with that comes the need for entrepreneurial savvy.

Celadon Books

This is the original classic about Short Form, the most popular and widespread form of T'ai Chi in the West. T'ai Chi Ch'uan is a must-read for every serious T'ai Chi student. This book is not meant to "teach" T'ai Chi Ch'uan, but meant to expound upon its meaning to the earnest practitioner; to offer the layperson a glimpse into this ancient art; and to communicate the author's

unique perceptions and experiences that only a lifetime of practice can cultivate. Taken in this context, this is a most valuable book.

Mystery, Medicine, and Alchemy in Renaissance Italy  
National Geographic Books

Combative forms of movement meet all the criteria required to be called "arts". Additionally, items associated with martial art theory and practice can be shown in a variety media and appreciated as objets d'art in their own right.

This anthology presents the aesthetic side of the martial arts as they are found in numerous examples of material culture and items of fine art. An often neglected but incredibly rich area for seeing martial themes represented in art are museum collections. Five of the fourteen chapters in this book deal with museum collections. In many museums you can find interesting items that reflect aspects derived from a martial tradition. Weaponry is the most obvious category. You

may also discover items in other categories that are directly related, such as painted scrolls and training equipment. Other fascinating items can be hidden in plain sight. It seems martial themes can be found in any museum category, including collections of statuary, ceramics, prints, paintings, jewelry, and calligraphy. For example, there are paintings of famous generals and battles, fearsome statues of temple guardian warriors, and philosophical insights in

brush writings. While contemplating a particular collection from the interest of martial traditions, one museum curator said she had never previously thought of the collection from this perspective. — It's enlightening. Objects that exhibit martial themes are made by artists and craftspeople. Only some of these items go into museums. Others are found in personal collections, stores, research institutes, art galleries, universities, practice halls, and

elsewhere. Aid in recognizing martial themes in objects is one objective of this book, regardless of where these objects may be found. Who are the real martial art heroes? What symbols were created to represent

the warriors' bravery and ethical codes? This anthology—comprised of fourteen chapters conveniently gathered here for your ease of reading—assists anyone interested in discovering the artistic representations of martial

traditions. In doing so, we hope that readers who appreciate the contents of this book will be inspired to discover and appreciate the artifacts associated with the martial side of the world's cultural heritage.
