Kautilya, also known as Chanakya, is India's most

illustrious political economist of all time. He regarded economic activity as the driving force behind the functioning of any political dispensation. In fact, he went to the extent of saying that revenue should take priority over the army because sustaining the army was possible out of a well-managed revenue system. Kautilya advocated limiting the taxation power of the State, having low rates of taxation, maintaining a gradual increase in taxation and most importantly devising a tax structure that ensured compliance. He strongly encouraged foreign trade, basing it on the premise that for a successful trade contract to be established, it had to be beneficial to all. He emphasised State control and investment in land, water and mining. Kautilya was a true statesman who bridged the gap between experience and vision. For Kautilya, good governance was paramount. He suggested built-in checks and balances in systems and procedures for the containment of malpractices. Many postulates of Kautilya's

philosophy of political economy are applicable to contemporary times. *Certificate Physical and Human Geography* Lulu.com

Great leaders of the past century dominated Indian political scene for a decade or two. But Savarkar's name shines brightly from 1900 to 1966. Ganghiji said, 'No independence without Hindu-Muslim unity.' But Pakistan was created. When the late Prime Minister Nehru chided the Hindu nationalists for advocating Hindu Raj, Savarkar said, 'The choice, therefore, is not between two sets of personalities but between two ideologies, not Indian Raj or Hindu Raj but Muslim Raj or Hindu Raj, Akhand Hindustan or Akhand Pakistan.' He knew Savarkar personally

and wrote his biography in Marathi. The English version 'Veer Savarkar, Father of Hindu Nationalism' has been done now. Savarkar's biography enables the reader to understand the politics of the last century.

During the eighteenth and early years of the nineteenth century, the red tide of British expansion had covered almost the entire Indian subcontinent, stretching to the borders of the Punjab. There the great Sikh ruler Ranjit Singh had developed his military forces to thwart any British advance into his kingdom north of the River Sutlej. Yet on the death of Ranjit Singh, unworthy successors and disparate forces fought over his legacy while the British East India Company seized on the opportunity and prepared for battle. In the winter of 1845, the First Anglo-Sikh War broke out. Amarpal S.

Sidhu writes a warts and all tale of a conflict characterized by treachery, tragedy and incredible bravery on both sides. In an innovative approach to history writing, the narrative of the campaign is accompanied by battlefield guides that draw on eyewitness accounts and invite the reader to take a tour of the battlefields, either physically or virtually.

"Families around the world look, feel, and live differently today. Families can be "make or break" for women and girls when it comes to achieving their rights. They can be places of love, care, and fulfillment but, too often, they are also spaces where women's and girls' rights are violated, their voices are stifled, and where gender inequality prevails. In today's changing world, laws and policies need to be based on the reality of how families live. UN Women's flagship report, "Progress of the world's women

2019-2020: Families in a changing world", assesses the reality of families today in the context of sweeping economic, demographic, political, and social transformation. The report features global, regional, and national data. It also analyses key issues such as family laws, employment, unpaid care work, violence against women, and families and migration. At a critical juncture for women's rights, this landmark report proposes a comprehensive family-friendly policy agenda to advance gender equality in diverse families. A package of policies to deliver this agenda is affordable for most countries, according to a costing analysis included in the report. When families are places of equality and justice, economies and societies thrive and unlock the full potential of the Sustainable Development Goals (SDGs). The report shows that achieving the SDGs depends on promoting gender equality within families." - UNWomen.org.
