After a diverse and interesting career as a life insurance salesman, marathon runner, general manager of major department stores, Vice President of a health food company, and 25+ years in the mortgage banking industry, Paul retired and has written his second book about trying to establish a relationship with his estranged father. Paul is a fascinating story teller who brings to life his triumphs and failures, wins and losses, discouragement and hope while trying to communicate with his father. Paul and his beautiful wife live in the suburbs of Phoenix and his full time job is taking care of their home, walking the dog and making sure that his wife is happy. Happy wife...happy life.

Escorts Mk1 and Mk2 were built in huge numbers around the world, in Britain, France, Germany, Spain, Australia, New Zealand and South Africa. During the life of the models, no less than 130 different variants were produced, ranging from the 2-door base model saloon through four-doors, vans and estates, campers and plush Ghia models to the highly desirable sporting versions like the Twin-Cam and RS models. In addition there were special editions by companies such as Allard, Crayford, Broadspeed, Lawrencetune, Uren and Willment. For every variant, The Complete Catalogue of the Ford Escort Mk1 & Mk2 provides specifications and a description, and all of them are illustrated.

Ford Cortina and Escort Mk I and Mk II models brought family motoring to millions of people from the early 1960s. These Fords were straightforward, easy to drive and simple to maintain, and their popularity has been sustained largely because of this. Their basic simplicity of design and inherent ruggedness means that they are ideal candidates for DIY restoration. The booming owners' club movement and the continuing availability of spare parts ensures that these cars will have a strong following for many years to come.

As Ford's follow-up to the famous flathead, the Y-block was Ford's first overhead-valve V-8 and it established an impressive high-performance legacy, winning many races in NASCAR and setting records at the Bonneville Salt Flats. This venerable Ford engine, which powers classic Thunderbirds, Crown Victorias, Edsels, and other cars, is enjoying a performance renaissance. Many aftermarket parts, including heads, can turn a sedate Y-block into a powerhouse. The engine earned its name from its deep-skirt block design that looked like a "Y." This stout engine was installed in millions of

Ford cars from 1954 to 1962 and Ford trucks from 1952 to 1964. Author and Ford tech expert Charles Morris explains each critical aspect of rebuilding a stock 239-, 256-, 272-, 292-, and 312-ci Y-block and building a modified Y-block. He shows you how to identify components and conduct a thorough inspection so you select a sound block, heads, intake, and other components. He explains the specifics for obtaining high-quality machining work and verifying clearances. In addition, he delves into the intricacies of each step of the assembly process so you can rebuild a strong-running and reliable engine. Most important, Morris details the steps to effectively remedy the Y-block oiling problems. This is the book Ford Y-block owners and fans have been waiting for. It's an indispensable guide for performing a professional-caliber rebuild and buildup of the Y-block.

Order in the Court! Star Wars: the most significant, powerful myth of the twenty-first century or morally bankrupt military fantasy? Six films. Countless books. \$20 billion in revenue. No one can question the financial value or cultural impact of the Star Wars film franchise. But has the impact been for the good? In Star Wars on Trial's courtroom—Droid Judge presiding—Star Wars stands accused of elitist politics and sexism, religious and ethical lapses, the destruction of literary science fiction and science fiction film, and numerous plot holes and logical gaps. Supported by a witness list of bestselling science fiction authors, David Brin (for the prosecution) and Matthew Woodring Stover (for the defense) debate these charges and more before delivering their closing statements. The verdict? That's up to you. Covering the films from A New Hope to The Force Awakens, Brin and Stover provide new forewords that explore the newest generation of Star Wars films and what JJ Abrams must do to live up to—or redeem—the franchise.

Ford Escort RS1800 Herridge & Sons Limited

The Escort RS Cosworth, which began rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful model since the legendary Escorts of the 1970s. The combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions, and, until the all-new Focus WRC was launched in 1999, this generation of Escorts was the most effective rally car that Ford had ever produced.

Ford Escort Owners Workshop Manual Simon and Schuster

The story of the Ford 'RS' Escorts is that of a highly successful range of cars that remained in production for almost thirty years and which started as an idea in a manner that has almost passed into legend. From the Twin Cam Escort of 1968 through the Escort Mexico, the RS1600 and RS2000, up to the Escort RS Cosworth and RS2000 4x4 of the late 1990s, motoring author and confirmed Escort enthusiast, Graham Robson, tells the whole story of these fine cars in this new paperback edition.

The Ford Escort RS1800 (Escort MkII) was consistently the fastest, most successful, and most versatile car in the second half of the 1970s. Developed from the Mk1 blueprint, its rally successes were legendary; taking victories at British (RAC), Safari, Acropolis, Finland (1000 Lakes), Sweden, Portugal, Canada, and many more. These rugged, powerful, and efficiently designed cars were ideal for almost any condition any environment could throw at them. Between 1975 and 1981, the car would win 17 World Rallies, as well as the World Makes Championship in 1979 and Escort drivers like Bjorn Waldegard (1979) and Ari Vatanen (1981) won World Drivers' Championships. Ford claims, and it may be right, that RS1800s have won more rallies at World, International, and National level than any other car in the world.

Volkswagen Polo G40, Ford Escort RS Cosworth, Renault 5 Turbo, Ford Focus FCV, Ford Fiesta RS Turbo, Honda Civic GTi. Excerpt: The Ford Fiesta is a front wheel drive supermini/subcompact manufactured and marketed by Ford Motor Company and built in Europe, Brazil, Argentina, Mexico, Venezuela, China, India, Thailand and South Africa. The current-generation Fiesta is marketed worldwide. By 2010, the sixth-generation (Mark VI) Fiesta had been introduced worldwide, including in the United States and Canada-making it the first Fiesta model to be sold in North America since 1980. The Fiesta has sold over twelve million units since 1976. The Fiesta was originally developed under the project name "Bobcat" and approved for development by Henry Ford II in September 1972. Development targets indicated a production cost US\$100 less than the current Ford Escort. The car was to have a wheelbase longer than that of the Fiat 127, but with overall length shorter than that of Ford's Escort. The final proposal was developed by Tom Tjaarda at Ghia. The project was approved for production in autumn 1973, with Ford's engineering centres in Cologne and Dunton (Essex) collaborating. Ford estimated that 500,000 Fiestas a year would be produced, and built an all-new factory near Valencia, Spain; a transaxle factory near Bordeaux, France; factory extensions for the assembly plants in Dagenham, UK, and Saarlouis, Germany. Final assembly also took place in Valencia. When Ford of Europe began to design the car, the design proposals were named Iris, Beta, The Deutschlander (from Ford's Cologne studios), ...
