In this book, Katrina

Hazzard-Donald explores

African Americans'

experience and practice

of the herbal, healing folk

belief tradition known as

Hoodoo. Working against

conventional scholarship,

Hazzard-Donald argues

that Hoodoo emerged first

in three distinct regions

she calls "regional Hoodoo

clusters" and that after

the turn of the nineteenth

century, Hoodoo took on a

national rather than

regional profile. The first

interdisciplinary

examination to

incorporate a full glossary

of Hoodoo culture, *Mojo*

Workin': *The Old African*

American Hoodoo System

lays out the movement of

Hoodoo against a series of

watershed changes in the

American cultural

landscape. Throughout,

Hazzard-Donald

distinguishes between

"Old tradition Black Belt

Hoodoo" and

commercially marketed

forms that have been

controlled, modified, and

often fabricated by

outsiders; this study

focuses on the hidden

system operating almost

exclusively among African

Americans in the Black

spiritual underground.

Hoodoo, voodoo, and

conjure are part of a

mysterious world of African American spirituality that has long captured the popular imagination. These magical beliefs and practices have figured in literary works by such authors as Toni Morrison, Alice Walker, and Ishmael Reed, and they have been central to numerous films, such as *The Skeleton Key*. Written for students and general readers, this book is a convenient introduction to hoodoo, voodoo, and conjure. The volume begins by defining and classifying elements of these spiritual traditions. It then provides a wide range of examples and texts, which illustrate the richness of these beliefs and practices. It also examines the scholarly response to hoodoo, voodoo, and conjure, and it explores the presence of hoodoo, voodoo, and conjure in popular culture. The volume closes with a glossary and bibliography. Students in social studies classes will use this book to learn more about African American magical beliefs, while literature students will enjoy its exploration of primary sources and literary works.

"Chireau has written a marvelous text on an important dimension of African American religious culture. Expanding beyond the usual focus of scholarship on Christianity, she describes and analyzes the world of magical-medical-religious practice, challenging hallowed distinctions among "religion" and "magic." Anyone interested in African American religion will need to reckon seriously with Chireau's text on conjure."—Albert J. Raboteau, Princeton University "Deprived of their own traditions and defined as chattel, enslaved Africans formed a new orientation in America. Conjuring—operating alongside of and within both the remnants of African culture and the acquired traditions of North America—served as a theoretical and practical mode of deciphering and divining within this, enabling them to create an alternate meaning of life in the New World. Chireau's is the first full-scale treatment of this important dimension of African American culture and religion. A wonderful book!"—Charles H. Long, Professor of History of Religions University of

California, Santa Barbara and author of *Significations: Signs, Symbols and Images in the Interpretation of Religion*

African-American Slave Medicine offers a critical examination of how African-American slaves medical needs were

addressed during the years before and surrounding the Civil War. Drawing upon ex-slave interviews conducted during the 1930s and 1940s by the Works Project Administration (WPA), Dr. Herbert C. Covey inventories many of the herbal, plant, and non-plant remedies used by African-American folk practitioners during slavery. He demonstrates how active the slaves were in their own medical care and the important role faith played in the healing process. This book links each referenced plant or herb to modern scientific evidence to determine its actual worth and effects on the patients. Through his study, Dr. Covey unravels many of the complex social relationships found between the African-American slaves, Whites, folk practitioners, and patients. African-American Slave Medicine is a compelling and captivating read that will appeal to scholars of African-American history and those interested in folk medicine.

Messages: Hoodoo Beliefs City Lights Books

A quick reference guide to 124 different herbs, roots, minerals, and ingredients and how they are used in the Hoodoo tradition. Excerpt: "Almost all seasoned practitioners of magic will tell you that using all natural ingredients is of utmost importance. Artificial fragrances and substances have no place in serious ritual or spiritual practice because they contain zero life-force. Herbs, roots, and real essential oils carry with them the heart of the plant they come from, its very essence. This is the very foundation of what is known as 'sympathetic magic.' Sympathetic magic, also known as imitative magic or homeopathic magic, is magic that is based on imitation or correspondence - or both. Imitation is the idea that one thing can represent another thing and, by proxy, stand in its place."

Hoodoo's first grimoire and spell-book, originally edited by the famed folklorist and novelist Zora Neale Hurston, holds a place that no other conjure book can claim, for it provides the modern

practitioner with practical training in authentic New Orleans rootwork, circa 1928. Although the author was certainly not Marie Laveau, the more than 50 rites and rituals in this volume present the classic hoodoo spells of the Crescent City, using herbs, candles, incense, powders, baths, and mojo hands to get your way in matters of luck, love, money, family, friendship, protection, uncrossing, and cursing. On the 90th anniversary of its first publication, the Lucky Mojo Curio Company is proud to present a new edition of this seminal text, restored and revised by Catherine Yronwode.

A renowned neurologist shares the true stories of people unable to get a good night's rest in *The Nocturnal Brain: Nightmares, Neuroscience, and the Secret World of Sleep*, a fascinating exploration of the symptoms and syndromes behind sleep disorders. For Dr. Guy Leschziner's patients, there is no rest for the weary in mind and body. Insomnia, narcolepsy, night terrors, apnea, and sleepwalking are just a sampling of conditions afflicting sufferers who cannot sleep—and their experiences in trying are the stuff of nightmares. Demoniac hallucinations frighten people into paralysis. Restless legs rock both the sleepless and their sleeping partners with unpredictable and uncontrollable kicking. Out-of-sync circadian rhythms confuse the natural body clock's days and nights. Then there are the extreme cases. A woman in a state of deep sleep who gets dressed,

unlocks her car, and drives for several miles before returning to bed. The man who has spent decades cleaning out kitchens while "sleep-eating." The teenager prone to the serious, yet unfortunately nicknamed Sleeping Beauty Syndrome stuck in a cycle of excessive unconsciousness, binge eating, and uncharacteristic displays of aggression and hypersexuality while awake. With compassionate stories of his patients and their conditions, Dr. Leschziner illustrates the neuroscience behind our sleeping minds, revealing the many biological and psychological factors necessary in getting the rest that will not only maintain our physical and mental health, but improve our cognitive abilities and overall happiness.

The Little Book of Rootwork A Beginner's Guide to Hoodoo-- Including Candle Magic, Rituals, Crystals, Herbs, and More

Secrets of Voodoo traces the development of this complex religion (in Haiti and the Americas) from its sources in the brilliant civilizations of ancient Africa. This book presents a straightforward account of the gods or loas and

their function, the symbols and signs, rituals, the ceremonial calendar of Voodoo, and the procedures for performing magical rites are given. "Voodoo," derived from words meaning "introspection" and "mystery," is a system of belief about the formation of the world and human destiny with clear correspondences in other world religions. Rigaud makes these connections and discloses the esoteric meaning underlying Voodoo's outward manifestations, which are often misinterpreted. Translated from the French by Robert B. Cross. Drawings and photographs by Odette Mennesson-Rigaud. Milo Rigaud was born in Port au Prince, Haiti, in 1903, where he spent the greater part of his life studying the Voodoo tradition. In Haiti he studied law, and in France ethnology, psychology, and theology. The involvement of Voodoo in the political struggle of Haitian blacks for independence was one of his main concerns.

From 2002 through 2013, the Lucky Mojo Curio Company offered an assortment of informational "shop flyers" to all in-store and mail-order customers, featuring basic information about African American hoodoo drawn from catherine yronwode's book "Hoodoo in Theory and Practice." Meanwhile, from 2008 through 2013, the Missionary Independent Spiritual Church annual Hoodoo Workshops, attendees who came to receive hands-on training in the practice of conjure
