Beyond Mars and Venus Vintage/Ebury (a Division of Random

Once upon a time, Martians and Venusians functioned in separate worlds. But in today's hectic and career-oriented

environment, relationships have become a lot more complicated, and men and women are experiencing unprecedented levels of stress. To add to the increasing tension, most men and women are also completely unaware that they are actually hardwired to react differently to the stress. It's a common scenario: a husband returns home from work stressed out and eager to kick back on the couch and watch television. A wife returns home from work stressed out and wants to talk about it with her husband. What happens? Neither is on the same page, anger and resentment set in, and Mars and Venus collide. Using his signature insight that has helped millions of couples transform their relationships, John Gray once again arms the inhabitants of Mars and Venus with information that will help them live harmoniously ever after. In *Why Mars and Venus Collide*, Gray focuses on the ways that men and women misinterpret and mismanage the stress in their daily lives, and how these reactions ultimately affect their relationships. "It's not that he's just not into you; he needs to fulfill a biological need," Gray explains. "And it's not that she wants to henpeck you; she also has a

biological drive." He shows, for instance, how a husband's withdrawal is actually a natural way for him to replenish his depleted testosterone levels and restore his well-being, and how a woman's need for conversation and support helps her build her own stress-reducing hormone, oxytocin. Backed up by groundbreaking scientific research, Gray offers a clear, easy-to-understand program to bridge the gap between the two planets, providing effective communication strategies that will actually lower stress levels. Whether in a relationship or single, this book will help both men and women understand their new roles in a modern, work-oriented society, and allow them to discover a variety of new and practical ways to create a lifetime of love and harmony.

Worlds of Mars and Venus Collide... Harper Collins

Popular marriage counselor and seminar leader John Gray provides a unique, practical and proven way for men and women to communicate and relate better by acknowledging the differences between them. Once upon a time Martians and Venusians met, fell in love, and had happy relationships together because they respected and accepted their differences.

Then they came to earth and amnesia set in: they forgot they were from different planets. Using this metaphor to illustrate the commonly occurring conflicts between men and women, Gray explains how these differences can come between the sexes and prohibit mutually fulfilling loving relationships. Based on years of successful counseling of couples, he gives advice on how to counteract these differences in communication styles, emotional needs and modes of behavior to promote a greater understanding between individual partners. Gray shows how men and women react differently in conversation and how their relationships are affected by male intimacy cycles ("get close", "back off"), and female self-esteem fluctuations ("I'm okay", "I'm not okay"). He encourages readers to accept the other gender's particular way of expressing love, and helps men and women learn how to fulfill each other's emotional needs. With practical suggestions on how to reduce conflict, crucial information on how to interpret a partner's behavior and methods for preventing emotional "trash from the past" from invading new relationships, *Men Are from Mars, Women*

Are from Venus is a valuable tool for couples who want to develop deeper and more satisfying relationships with their partners.
