FOOD AND CULTURE is the market-leading text for the cultural foods courses, providing information on the health, culture, food, and nutrition habits of the most common ethnic and racial groups living in the United States. It is designed to help health professionals, chefs, and others in the food service industry learn to work effectively with members of different ethnic and religious groups in a culturally sensitive manner. Authors Pamela Goyan Kittler and Kathryn P. Sucher include comprehensive coverage of key ethnic, religious, and regional groups, including Native Americans, Europeans, Africans, Mexicans and Central Americans, Caribbean Islanders, South Americans, Chinese, Japanese, Koreans, Southeast Asians, Pacific Islanders, Greeks, Middle Easterners, Asian Indians, and regional Americans.

Community Nutrition in Action American Dietetic Association

The text covers communications, counseling, interviewing, motivating clients, delivering oral presentations and using media in presentations. Communication is basic to the relationship that the Registered Dietitian (RD) professional has with their clients. The Academy of Nutrition and Dietetics recognizes the importance of communication skills for practitioners to promote health, disease prevention and treatment. Providing people with information on what to eat is not enough, the RD must also promote and facilitate behavior changes to more healthful food choices. The text incorporates the Nutrition Care Process (NCP) and model, including four steps of nutrition assessment, nutrition diagnosis using PES statement (Problem, Etiology and Signs/Symptoms), nutrition intervention, and nutrition monitoring and evaluation. The PES statements are the most critical in that the Academy of Nutrition and Dietetics has been stressing this as an essential component of their standards and requirements. The text uses activities, case studies, self assessment questions, web references and graphics to engage the student and drive the content home.

Nutrition Therapy and Pathophysiology Lippincott Williams & Wilkins

This text presents the basic principles of weight management and examines the role that nutrition and physical fitness play in weight control. The text includes detailed coverage of assessment techniques, behavioral and non-behavioral treatment approaches, and prevention strategies.
