This book analyses the careers, governance and management practices of some of the institutional sports leaders who have had the greatest impact on global sport in the 120 years since Baron Pierre de Coubertin revived the Olympic Games. Through their positions in major sports organisations, their influence, the examples they set, their successes and failures, and their ability to bring about change, these notable individuals controlled and continue to control the development of Olympic and international sport. The portraits included within this collection provide a critical analysis of these leaders' careers by examining sports management from a biographical perspective, and allowing readers to understand the challenges and obstacles faced by international sport's top administrators. The contributors explore

the interactions between these leaders' career paths and their strategies, both within their organisations and in the overall sporting context. Global Sport Leaders will be of interest to students and scholars across a range of disciplines including sports management, sociology, politics, history and international relations.

BENCHMARK GAMES is unique as there has been no previous study of an individual Paralympic Games. The book documents and analyses the new benchmarks that were set at the time of the successful Sydney Paralympic Games. BENCHMARK GAMES explores many questions about the appeal of the Games to the community and disability sport and the place of the disability community in Australian life. This book gives a wonderful insight into the background and running of the Sydney Paralympic Games and the legacy it has left (Karen Tighe, Foreword).

The fields of marketing and communication have become increasingly important for modern public administrations in recent years but the focus on these subjects has been geared mainly towards the generation of outputs, leaving somewhat behind the analysis and deeper reflections on the impact they make and their limitations. This book provides a thorough overview of the major concepts in marketing and communication which is done by utilizing an exclusive and decisive public-sector approach, with an unambiguous international outlook. The possibilities and limits of the application of marketing and communication, from strategic aspects to the more concrete questions of instruments and implementation, are discussed and if the realities of the public sector are the key to any understanding of marketing and communication, the international scene is the only possible ground to do this in. Aided by a multitude of pedagogical features, *Marketing Management and Communications in the Public Sector* is a key read for all students, practitioners and scholars working or studying in this field.

Drawing upon historical, cultural, economic and socio-demographic perspectives, this book examines the role of a sporting mega-event in promoting urban regeneration and social renewal. Comparing cities that have or will be hosting the event, it explores the political economy of the games and the changing role of the state in creating post-industrial metropolitan spaces. It evaluates the changing perceptions of the Olympic Games and the role of sport in the global media age in general and assesses the implication of 'mega-event' regeneration policies for local communities and their cultural, social and economic identities, with specific reference to east London and the Thames Gateway.

1896 (including Atlanta). First published in 1992, *The Imaginary Indian* is a revealing history of the "Indian" image mythologized by popular Canadian culture since 1850, propagating stereotypes that exist to this day. Images of First Nations people have always been fundamental to Canadian culture. From the paintings and photographs of the 19th century to the Mounted Police sagas and the spectacle of Buffalo Bill's Wild West Show; from the performances of Pauline Johnson, Grey Owl, and Buffalo Long Lance to the media images of Oka and the Vancouver Winter Olympics?the *Imaginary Indian* is ever with us, oscillating throughout our history from friend to foe, from Noble Savage to bloodthirsty warrior, from debased alcoholic to wise elder, from

monosyllabic "squaw" to eloquent princess, from enemy of progress to protector of the environment. The Imaginary Indian has been, and continues to be—as Daniel Francis reveals in this book—just about anything the non-Native culture has wanted it to be; and the contradictory stories non-Natives tell about Imaginary Indians are really stories about themselves and the uncertainties that make up their cultural heritage. This is not a book about Native people; it is the story of the images projected upon Native people—and the desperate uses to which they are put. This new edition, published almost twenty years after the book's first release, includes a new preface and afterword by the author. Daniel Francis is an award-winning historian and the author of twenty books.

SUNY Press

"Olympic Education" is not only a text book for students and teachers in physical and sport education but also for course instructors and coaches in children's youth sport programmes, as well as for executives in sports federations. It answers the question, what the term "Olympic" really means in the broader context of the Olympic

Games movement and as a global purpose and new challenge for a balanced physical, social and moral education. Olympic education has a traditional vision and an important future mission that is relevant for all children and youths, in schools as well as in sport clubs. In five parts and fifteen chapters, the book shows why the Olympic ideals are a modern challenge not only for a new physical and sport education but also for the development of essential life skills for today. It introduces pedagogical and didactical fundamentals for an Olympic education, in order to bring motor abilities, social behaviour and moral actions in sports and everyday life back together again - in the mind, learning and actions of children and youths, but also of grown-ups in the social settings where young people live.
