The Classic Texts  
Series is the only of its  
kind selection of classic  
pieces of work that  
started off as bestseller  
and continues to be  
the bestseller even  
today. These classic

texts have been designed so as to work as elementary textbooks which play a crucial role in building the concepts from scratch as in-depth knowledge of concepts is necessary for students preparing for various entrance exams. The present book on Higher Algebra presents all the elements of Higher Algebra in a single book meant to work as textbook for the students beginning their preparation of the varied aspects covered under Higher Algebra. The present book has been divided into 35 chapters namely Ratio, Proportion, Variation, Arithmetical Progression, Geometrical Progression, Harmonical Progression Theorems Connected

with The Progression, Scales of Notation, Surds & Imaginary Quantities, The Theory of Quadratic Equations, Miscellaneous Equations, Permutations & Combinations, Mathematical Induction, Binomial Theorem Positive Integral Index, Binomial Theorem, Any Index, Multinomial Theorem, Logarithms, Exponential & Logarithmic Series, Interest & Annuities, Inequalities, Limiting Values & Vanishing Fractions, Convergency & Divergency of Series, Undetermined Coefficients, Partial Fractions, Recurring Series, Continued Fractions, Recurring Series, Continued Fractions, Indeterminate

Equations of the First Degree, Recurring Continued Fractions, Indeterminate Equations of the Second Degree, Summation of Series, Theory of Numbers, The General Theory of Continued Fractions, Probability, Determinants, Miscellaneous Theorems & Examples and Theory of Equations, each subdivided into number of topics. The first few chapters in the book have been devoted to a fuller discussion of Ratio, Proportions, Variation and the Progressions. Both the theoretical text as well as examples have been treated minutely which will help in better understanding of the concepts covered in the book. Theoretical

explanation of the concepts in points has been provided at the beginning of each chapter. At the end of each chapter, unsolved practice exercises have been provided to help aspirants revise the concepts discussed in the chapter. At the end of chapterwise study, miscellaneous examples have also been given along with answers and solutions to the unsolved examples covered in each chapter. All the relevant theorems covered under the syllabi of Higher Algebra have also been covered in the detail in this book. As the book covers the whole syllabi of Higher Algebra in detail along with ample number of solved examples, it for sure will help the students perfect the

varied concepts covered under the Higher Algebra section.

When life presents problems, all a heroine really wants is an answer key to fix them. Shannon Waller lives a paycheck-to-paycheck existence in far north Montana. A missing husband. Not even a pet. Alone. Suddenly life hands her the kind of money she only dreams of—an amount that starts with a B. A move to Ithaca, New York and into a home she inherits plus new friends—what more can she ask for? Private investigator Michael Silver is determined to find out who might want to kill Shannon. While his life seems safe, hers is one 'accident' after

another, each hurting her worse. When a bullet barely misses Shannon, she and Michael have to discover who, what and why she's a target for murder. And do it fast before the next attempt succeeds!

Draw with Confidence and Creativity! New in paperback! Creativity occurs in action. It is not a trait; it is something you do. To be creative, you need to engage in the art-making process. When you are "in the flow," you shift out of the future and into the present, making connections, generating variations and surrendering to the process. This ten-

year edition of Keys to Drawing With Imagination is a course for artists in how to take something, do something to it and make something new. Bert Dodson, author of the best-selling Keys to Drawing (more than 250,000 copies sold!) presents fun techniques and mind-stretching strategies to get you drawing better and more imaginatively than you ever have before. In every section, he offers you basic guidelines that help you channel your creative energies in the right direction. Before you know it, you'll lose yourself in the process, enjoying the experience as you create something gratifying and worthwhile. The subjects covered in this hands-on book are as

vast as the imagination itself. Through 58 strategies, 36 exercises and 13 step-by-step demonstrations, you'll explore how to:

- Take your doodling from mindless to masterful
- Create your own reality by crumbling, melting or breaking objects
- Flip the familiar on its ear to create something utterly original
- Experiment with visual paradox and metaphor
- Tell vivid stories through the details in your drawings
- Play with patterns to create captivating compositions
- Build your drawings by borrowing ideas from different cultures
- Develop a theme in your work

Along the way, Dodson offers you priceless advice on the creative process culled

from his 70 years of drawing and teaching. For additional inspiration and encouragement, he includes the work of 30 other outstanding artists, including R. Crumb and Maya Lin. So what are you waiting for? Grab this book and start drawing! You'll be amazed at what you can create. \*Note to readers: This book is a 10-year anniversary paperback reprint of the Keys to Drawing with Imagination hardcover edition (2006).
