Italo Calvino's beloved, intricately crafted novel about an Emperor's travels?—??a brilliant journey across far-off places and distant memory. "Cities, like dreams, are made of desires and fears, even if the thread of their discourse is secret, their rules are absurd, their perspectives deceitful, and everything conceals something else." In a garden sit the aged Kublai Khan and the young Marco Polo?—??Mongol emperor and Venetian traveler. Kublai Khan has sensed the end of his empire coming soon. Marco Polo diverts his host with stories of the cities he has seen in his travels around the empire: cities and memory, cities and desire, cities and designs, cities and the dead, cities and the sky, trading cities, hidden cities. As Marco Polo unspools his tales, the emperor detects these fantastic places are more than they appear.

It is a classical anthropological paradox that symbols of rebirth and fertility are frequently found in funerary rituals throughout the world. The original essays collected here re-examine this phenomenon through insights from China, India, New Guinea, Latin America, and Africa. The contributors, each a specialist in one of these areas, have worked in close collaboration to produce a genuinely innovative theoretical approach to the study of the symbolism surrounding death, an outline of which is provided in an important introduction by the editors. The major concern of the volume is the way in which funerary rituals dramatically transform the image of life as a dialectic flux involving exchange and transaction, marriage and procreation, into an image of a still, transcendental order in which oppositions such as those between self and other, wife-giver and wife-taker, Brahmin and untouchable, birth and therefore death have been abolished. This transformation often involves a general devaluation of biology, and, particularly, of sexuality, which is contrasted with a more spiritual and controlled source of life. The role of women, who are frequently associated with biological processes, mourning and death pollution, is often predominant in funerary rituals, and in examining this book makes a further contribution to the

understanding of the symbolism of gender. The death rituals and the symbolism of rebirth are also analysed in the context of the political processes of the different societies considered, and it is argued that social order and political organisation may be legitimated through an exploitation of the emotions and biology.

The 'Southern Question' has been a major topic in Italian political, economic and cultural life for a century and more. During the Cold War, it was the justification for heavy government intervention. In contemporary Italy, a major part of the appeal of the Lombard League has been its promise to dissociate the South from the North, even to the point of secession. The South also remains a resonant theme in Italian literature. This interdisciplinary book endeavours to answer the following: - When did people begin to think of the South as a problem? - Who - intellectuals, statisticians, criminologists, political exiles, novelists (among them some important southerners) - contributed to the discourse about the South and why? - Did their view of the South correspond to any sort of reality? - What was glossed over or ignored in the generalized vision of the South as problematic? -

What consequences has the 'Question' had in controlling the imaginations and actions of intellectuals and those with political and other forms of power? - What alternative formulations might people create and live by if they were able to escape from the control of the 'Question' and to imagine the political, economic and cultural differences within Italy in some other way? This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of 'Orientalism'. In situating the devaluation of Southern Italian culture in relation to the recent emergence of 'anti-mafia' ideology in the South and the threat posed to national unity by the Lombard League, it also illuminates the world's stiff inter-regional competition for investment capital.

"A devastating portrait of a boy holding onto the shreds of his innocence during a war that deliberately, remorselessly works to yank it away."—Los Angeles Times Part Inferno, part Paradise Lost, part Sunjata epic, Song for Night is the story of a West African boy soldier's terrifying yet oddly beautiful journey through a nightmare landscape of brutal war in search of his lost platoon. The mute protagonist—his vocal cords cut to lower the risk of detection by the enemy—writes in a ghostly voice about his fellow minesweepers, the things he's witnessed, and the things he's done, each chapter headed by a line of the sign language these children invented. This "immersive and dreamlike" novella (Publishers Weekly, starred review) by a PEN/Hemingway Award winner is unlike anything else written about an African war. "Not since Jerzy Kosinski's *The Painted Bird* or Agota Kristof's *Notebook Trilogy* has there been such a harrowing novel about what it's like to be a young person in a war. That Chris Abani is able to find humanity, mercy, and even, yes, forgiveness, amid such devastation is something of a miracle."—Rebecca Brown, author of *The End of Youth* "Impressive and fast-paced...narrated with such dry and lucid precision that it brings to mind Babel, Hemingway, McCarthy."—Esquire

From Athens to New York, recent mass movements around the world have challenged austerity and authoritarianism with expressions of real democracy. For more than forty years, Murray Bookchin developed these democratic aspirations into a new left politics based on popular assemblies, influencing a wide range of political thinkers and social movements. With a foreword by the best-selling author of *The Dispossessed*, Ursula K. Le Guin, *The Next Revolution* brings together Bookchin's essays on freedom and direct democracy for the first time, offering a bold political vision that can move us from protest to social transformation.

Enduring icon of creativity, authenticity, and rebellion, and the subject of numerous new biographies, Arthur Rimbaud is one of the most repeatedly scrutinized literary figures of the last half-century. Yet almost thirty years have elapsed without a major new translation of his writings. Remediating this state of affairs is *Rimbaud Complete*, the first and only truly complete edition of Rimbaud's work in English, translated, edited, and introduced by Wyatt Mason. Mason draws on a century of Rimbaud scholarship to choreograph a superbly clear-eyed presentation of the poet's works. He arranges Rimbaud's writing chronologically, based on the latest manuscript evidence, so readers can experience the famously teenaged poet's rapid evolution, from the lyricism of "Sensation" to the groundbreaking early modernism of *A Season in Hell*. In fifty pages of previously untranslated material, including award-winning early verses, all the fragmentary poems, a fascinating early draft of *A Season in Hell*, a school notebook, and multiple manuscript versions of the important poem "O saisons, ô châteaux," *Rimbaud Complete* displays facets of the poet unknown to American readers. And in his Introduction, Mason revisits the Rimbaud myth, addresses the state of disarray in which the poet left his work, and illuminates the intricacies of the translator's art. Mason has harnessed the precision and power of the poet's rapidly changing voice: from the delicate music of a poem such as "Crows" to the mature dissonance of the *Illuminations*, *Rimbaud Complete* unveils this essential poet for a new generation of readers.

"Utterly sublime . . . Aduatells a gripping story of war, migration and family, exposing us to the pain and hope that reside in each encounter" (Maaza Mengiste, author of *The Shadow King*). Adua, an immigrant from Somalia, has lived in Italy nearly forty years. She came seeking freedom from a strict father and an oppressive regime, but her dreams of becoming a film star ended in shame. A searing novel about a young immigrant woman's dream of finding freedom in Rome and the bittersweet legacies of her African past. "Lovely prose and memorable characters make this novel a thought-provoking and moving consideration of the wreckage of European oppression." —Publishers Weekly (starred review) "Igiaba Scego is an original voice who connects Italy's present with its colonial past. Adua is an important novel that obliges the country to confront both memory and truth." —Amara Lakhous, author of *Dispute over a Very Italian Piglet* "This book depicts the soul and the body of a daughter and a father, illuminating words that are used every day and swiftly emptied of meaning: migrants, diaspora, refugees, separation, hope, humiliation, death." —Panorama "A memorable, affecting tale . . . Brings the decolonialization of Africa to life . . . All the more affecting for being told without sentimentality or self-pity." —ForeWord Reviews "Deeply and thoroughly researched . . . Also a captivating read: the novel is sweeping in its geographical and temporal scope, yet Scego nonetheless renders her complex protagonists richly and lovingly." —Africa Is a Country

This volume offers an empirically rich, theoretically informed study of the shifting intersections of nation/alism, gender and sexuality. Challenging a scholarly legacy that has overly focused on the masculinist character of nationalism, it pays particular attention to the people and issues less commonly considered in the context of nationalist projects, namely women and sexual minorities. Bringing together both established and emerging researchers from across the globe, this multidisciplinary and comparison-rich volume provides a multi-sited exploration of the shifting contours of belonging and Otherness generated by multifarious nationalisms. The diverse, and context specific positionings of men and women, masculinities and femininities, and hegemonic and non-normative sexualities, vis-à-vis nation/alism, are illuminated through a vibrant array of contemporary theoretical lenses. These include historical and feminist institutionalism, post-colonial theory, critical race approaches, transnational and migration theory and semiotics.

In *Migrancy, Culture, Identity*, Iain Chambers unravels how our sense of place and identity is realised as we move through myriad languages, worlds and histories. The author explores the uncharted impact of cultural diversity on today's world, from the 'realistic' eye of the painter to the 'scientific' approach of the cultural anthropologist or the critical distance of the historian; from the computer screen to the Walkman and 'World Music'. *Migrancy, Culture and Identity* takes us on a journey into the disturbance and dislocation of culture and identity that faces all of us to explore how migration, marginality and homelessness have disrupted the West's faith in linear progress and rational thinking, undermining our knowledge, history and cultural identity.

In terms of migration, Italy is often thought of as a source country - a place from which people came rather than one to which people go. However, in the past few decades, Italy has indeed become a destination for many people from poor or war-torn countries seeking a better life in a stable environment. Graziella Parati's *Migration Italy* examines immigration to Italy in the past twenty years, and explores the processes of cultural hybridization that have occurred. Working from a cultural studies viewpoint, Parati constructs a theoretical framework for discussing Italy as a country of immigration. She gives special attention to immigrant literature, positing that it functions as an act of resistance, a means to talk back to the laws that regulate the lives of migrants. Parati also examines Italian cinema, demonstrating how native and non-native filmmakers alike create parallels between old and new migrations, complicating the definitions of sameness and difference. These definitions and the complexities inherent in the different cultural, legal, and political positions of Italy's people are at the heart of *Migration Italy*, a unique work of immense importance for understanding society in both modern-day Italy and, indeed, the entire European continent.

2021 Reprint of the 1940 Edition. Translated by Bertram D. Wolfe. Facsimile of the original edition and not reproduced with Optical Recognition Software. In this short work the author criticizes the Bolsheviks and presents a prescient warning of their dictatorship. Nonetheless, she continued to call for a "dictatorship of the proletariat", albeit not of the one-party Bolshevik model. In that context, she wrote the words "Freiheit ist immer die Freiheit des Andersdenkenden" ("Freedom is always the freedom of the one who thinks differently") and continues in the same chapter: "The public life of countries with limited freedom is so poverty-stricken, so miserable, so rigid, so unfruitful, precisely because, through the exclusion of democracy, it cuts off the living sources of all spiritual riches and progress". Bolshevik theorists such as Vladimir Lenin and Leon Trotsky responded to this criticism by arguing that Luxemburg's notions were classical Marxist ones, but they could not be applied to Russia of 1917. They stated that the lessons of actual experience such as the confrontation with the bourgeois parties had forced them to revise the Marxian strategy.

A moving firsthand account of migrant landings on the island of Lampedusa that gives voice to refugees, locals, and volunteers while also exploring a deeply personal father-son relationship. On the island of Lampedusa, the southernmost part of Italy, between Africa and Europe, Davide Enia looks in the faces of those who arrive and those who wait, and tells the story of an individual and collective shipwreck. On one side, a multitude in motion, crossing entire nations and then the Mediterranean Sea under conditions beyond any imagination. On the other, a handful of men and women on the border of an era and a continent, trying to welcome the newcomers. In the middle is the author himself, telling of what actually happens at sea and on land, and the failure of words in the attempt to understand the present paradoxes. Enia reveals the emotional consequences of this touching and disconcerting reality, especially in his relationship with his father, a recently retired doctor who agrees to travel with him to Lampedusa. Witnessing together the public pain of those who land and those who save them from death, alongside the private pain of his uncle's illness, pushes them to reinvent their relationship, to forge a new and unprecedented dialogue that replaces the silences of the past.

This book offers a unique contribution, exploring how the intersections among migrants and radical squatter's movements have evolved over past decades. The complexity and importance of squatting practices are analyzed from a bottom-up perspective, to demonstrate how the spaces of squatting can be transformed by migrants. With contributions from scholars, scholar-activists, and activists, this book provides unique insights into how squatting has offered an alternative to dominant anti-immigrant policies, and the implications of squatting on the social acceptance of migrants. It illustrates the different mechanisms of protest followed in solidarity by migrant squatters and Social Center activists, when discrimination comes from above or below, and explores how can different spatialities be conceived and realized by radical practices.

Contributions adopt a variety of perspectives, from critical human geography, social movement studies, political sociology, urban anthropology, autonomous Marxism, feminism, open localism, anarchism and post-structuralism, to analyze and contextualize migrants and squatters' exclusion and social justice issues. This book is a timely and original contribution through its exploration of migrations, squatting and radical autonomy.

It is well known that large numbers of Europeans migrated overseas during the century preceding the Great Depression of 1930, and that a great many of them went to the United States. What is not well known, particularly in the United States, is that more than 20 percent of these migrants emigrated to Latin America, and that they significantly influenced the demographic, economic, and cultural evolution of many areas in the region. Individuals have migrated to Latin America since the beginning of the Conquest more than 500 years ago, but by far the largest number, 10 million, migrated from 1870 to 1930. This incredible influx was also concentrated in terms of the origins and destinations of the individuals: three-quarters came from the Iberian peninsula and Italy, while 91 percent relocated to just three countries—Argentina (50 percent), Brazil (36 percent), and Uruguay (5 percent). Mass Migration to Modern Latin America includes original contributions from more than a dozen of the leading scholars of the new methodologically and theoretically

innovative Latin American migration history that has emerged during the past 20 years. Although the authors focus primarily on the nature and impact of mass migration to Argentina and Brazil from 1870 to 1930, they place their analysis in broader historical and comparative contexts. They link the mass migrations at the turn of the past century to older migratory traditions and existing social networks, some of which had their roots in the colonial period. The editors begin each section of the book with personal stories of individual immigrants and their families, providing students with a glimpse into the complex process of migration and how it played out in various situations. This text will help readers understand that Latin America is more than a "traditional society," composed of the descendants of the Conquistadors and Native Americans. This book demonstrates the crucial impact of the mass migrations of the late nineteenth and early twentieth

From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing

issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war, persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation - and on the ultimate reality that we are all temporary guests and tenants of the earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes

towards migrants, as well as students and scholars of philosophy and political theory.

This anthology deals with the complexity, variety and experience of all the forms of mobility we witness today in Sub-Saharan Africa. Three sets of issues are being discussed. This book intends to turn the whole notion of mobility as a supposedly rupturing phenomenon on its head, emphasizing that rather through travelling connections are established and continuity is experienced. We are challenged to delve into the traveller's mind, to think and follow their multi-spatial livelihoods and to explore what it means to people if they move in a variety of spaces.
