Examines the development of Off-Broadway theater and analyzes the plays of writers including Sam Shepard, Robert Wilson, David Mamet, and Lee Breuer

Implementing Business and Human Rights Norms in Africa: Law and Policy Interventions

Random House
Books for Young Readers

The Routledge Handbook of Japanese Business and Management provides a comprehensive overview of management and business processes and practices in Japanese companies. The contributors combine theoretical findings and research results with a practical and contemporary view on how corporations and firms are managed in Japan. The handbook is divided into eight sections covering: historical perspectives on Japanese management; structure and theory of the Japanese firm; the corporate environment in Japan; the Japanese work environment; the Japanese market; manufacturing and logistics; interaction and communication; the future of Japanese management. This book is an essential reference resource for students and scholars working on Japanese companies, the Japanese market-place, Japanese consumers, or management processes in the Japanese firm. The book also provides an interesting and informative read for managers who need to deepen

their knowledge on Japanese business processes.

Abe Lincoln's Hat Routledge

Public policy interventions aimed at encouraging, supporting and developing small businesses are important for understanding entrepreneurship and small business management. This textbook is the first to provide teachers and students with a resource that gives an overview of how institutional and policy structures interact with small firm start-ups, continuation and succession/failures. Beginning with a brief introduction to policy processes, the text covers the main policy instruments for entrepreneurial market entry and start-up support, for on-going small business advice and financial support, and succession planning. It particularly focuses on policies that improve the Business Enabling Environment through macroeconomic policy, institutional reform, and deregulation of bureaucratic burdens. Theoretical rigour is complemented by detailed assessments of current policies around the world, including USA, advanced and emerging economies and Policy support from global institutions such as the World Bank and the ILO are included. Written by a pre-eminent scholar of public policy and entrepreneurship, this textbook provides a concise but thorough introduction to the subject for Master's students internationally. Policy recommendations in the author's conclusion also highlight the book's value to policy-makers as they adapt to the globalized, digital world.

A Critical Introduction to Twentieth-

Century American Drama: Volume 2, Williams, Miller, Albee Springer Science & Business Media

This pioneering book explains the causes of war through a sustained combination of theoretical insights and detailed case studies from WWI to the Iraq War.

Cashman and Robinson find that, while all wars have multiple causes, specific factors typically combine in identifiable "dangerous patterns" that lead to bloody conflicts between countries.

An Introduction to the Causes of War

When it's exam time you need the right information in the right format to study efficiently and effectively. Emanuel® CrunchTime is the perfect tool for exam studying. With flowcharts and capsule summaries of major points of law and critical issues, as well as exam tips for identifying common traps and pitfalls, sample exam and essay questions with model answers - you will be prepared for your next big test. Here's why you will need Emanuel® CrunchTime to help you ace your exams: Perfect for the visual learner: The flow charts walk you through a series of yes/no questions that can be used to analyze any question on the exam. Featured capsule summaries help you quickly review key concepts not just before the exam, but throughout the semester Exams Tips recap the most commonly tested issues and fact patterns.

The Plumbers Trade Journal OECD Publishing

This book argues that sound - as it is created, transmitted, and perceived - plays a key role in the constitution of space and community in contemporary Japan. The book examines how sonic practices reflect politics, aesthetics, and ethics, with transformative effects on human relations. From right-wing sound

trucks to left-wing protests, from early 20th century jazz cafes to contemporary avant-garde art forms, from the sounds of U.S. military presence to exuberant performances organized in opposition, the book, rich in ethnographic detail, contributes to sensory anthropology and the anthropology of contemporary Japan. Comparative Responses to Globalization Juta

Introduction to Air Transport Economics: From Theory to Applications uniquely merges the institutional and technical aspects of the aviation industry with their theoretical economic underpinnings. Its integrative approach offers a fresh point of view that will find favor with many students of aviation. This third edition has been extensively updated throughout. It features new material that stresses the dynamic aspects of demand and supply and the ongoing competitive aspects of the marketplace. It now features an introductory chapter, and specific examples, to more directly relate management decisions to the economic theory. Also, in addition to an expanded coverage of revenue management and pricing decisions, the third edition includes case studies that give real-world examples to reflect actual industry practice as well as a discussion of the more up-to-date computer applications that make the new techniques so effective. This book offers a self-contained theory and applications-oriented text for any individual intent on entering the aviation industry as a practicing professional in the management area. It will be of greatest relevance to undergraduate and graduate students interested in obtaining a more complete understanding of the economics of the aviation industry. It will also appeal to

many professionals who seek an accessible and practical explanation of the underlying economic forces that shape the industry.

Was Abe Lincoln absent-minded?

Indeed! President Lincoln came up with a trick involving his stovepipe hat to nudge his memory! Fascinating anecdotes and historical context enrich this expanded biographical picture book that brings to life one of our nation's most revered presidents. Long before he became the 16th president, Abe Lincoln started out as a frontier lawyer. He resorted to sticking letters and notes deep inside his hat so they stayed handy. Adapted from the Step into Reading leveled reader of the same name, author Martha Brenner has revised and enriched her original text to include more historical material and resources for those who want to explore this captivating figure further. Illustrator Brooke Smart's clever art makes history more appealing than ever. Including both humor and painful, hard-hitting American history, this new edition traces Lincoln's evolution into a compelling commander-in-chief during a contentious time in our nation's history. Young readers will be intrigued!

Political Survival and Yasukuni in Japan's Relations with China Cengage Learning

In the current changing environment, it is important for businesses to be managed efficiently and effectively. Offering an introduction to business management—focusing on the four management functions, the different levels of management, and the skills managers need—this book argues that to remain competitive and ensure long-term success, businesses need to be innovative. The atmospheres in which businesses operate also receive special

attention in order to demonstrate that businesses are influenced by both internal and external forces.

Economics Cambridge University Press

An authoritative introduction to efficiency and productivity analysis with applications in both the banking and finance industry In light of the recent global financial crisis, several studies have examined the efficiency of financial institutions. A number of open questions remain and this book reviews recent issues and state-of-the-art techniques in the assessment of the efficiency and productivity of financial institutions.

Written by an international team of experts, the first part of the book links efficiency with a variety of topics like Latin American banking, market discipline and governance, economics of scale, off-balance-sheet activities, productivity of foreign banks, mergers and acquisitions, and mutual fund ratings. The second part of the book compares existing techniques and state-of-the-art techniques in the bank efficiency literature, including among others, network data envelopment analysis and quantile regression. The book is suitable for academics and professionals as well as postgraduate research students working in banking and finance. Efficiency and Productivity Growth: Provides an authoritative introduction to efficiency and productivity analysis with applications in both the banking and mutual funds industry such as efficiency of Asian banks, cooperatives and not-for-profit credit associations. Explores contemporary research issues in the

area of efficiency and productivity measurement in the financial sector. Evaluates the most suitable approaches to selecting inputs and outputs as well as selecting the most efficient techniques, such as parametric and non-parametric, to estimate the models.

Abe The Service Dog Manchester University Press

Abe was a real Service Dog who dedicated his life assisting BJ, a good family friend. Service Dogs are smart, well trained, well behaved, dedicated, and committed to ensuring their master is safe. They are sometimes the eyes of their master, a companion and aid to the mentally challenged, and an early warning system for those with seizures and other intermittent disorders. This book is intended to bring an awareness of their importance to early readers.

Business Functions Routledge

Introduction to Business covers the scope and sequence of most introductory business courses. The book provides detailed explanations in the context of core themes such as customer satisfaction, ethics, entrepreneurship, global business, and managing change. Introduction to Business includes hundreds of current business examples from a range of industries and geographic locations, which feature a variety of individuals. The outcome is a balanced approach to the theory and application of business concepts, with attention to the knowledge and skills necessary for student success in this course and beyond.

United States History: Through the 20th century Leuven University Press

What role does the political survival of prime ministers play in Japan's relations with China over the Yasukuni issue?

Three Japanese prime ministers, including Nakasone Yasuhiro, Hashimoto Ryutaro and Abe Shinzo, complied with China's demands and stopped visiting the controversial Shrine in 1986, 1997 and 2007, respectively. By contrast, the Yasukuni controversy intensified between 2001 and 2006 when a popular Prime Minister Koizumi Junichiro was determined to pay regular homage to the Yasukuni Shrine annually. Prime Minister Abe, who previously demonstrated restraint over the issue in his first term between 2006 and 2007, visited the Yasukuni unexpectedly in 2013 but not in 2014 or 2015. To explain this variation, this book presents an alternative interpretation of Japan's official responses toward China's pressure over the Yasukuni issue between 1985 and 2015 by applying a political survival approach that highlights the domestic political legitimacy of the Japanese prime minister or the ruling party. This book will be of great interest to students and researchers of Sino-Japanese relations, Japan's foreign policy and international relations.

Business Tokyo Routledge

Explores how British and Japanese firms have responded to globalization from a long-term perspective. Incorporates studies from the 18th century and sheds light on the impact of the institutional setting, the influence of government and entrepreneurs, and the weight of historical contingency in conditioning firm responses to globalization.

Catalog of Copyright Entries, Third Series Cengage Learning

Since his death, Abraham Lincoln has been celebrated as savior of the Union, proponent for emancipation, president of the United States, and skilled statesman. Although Lincoln's adult life has been well documented and analyzed, most

biographers have regarded his early years as inconsequential to his career and accomplishments. In 1920 a group of historians known as the Lincoln Inquiry were determined to give Lincoln's formative years their due. Abe's Youth takes a look into their writings, which focus on Lincoln's life between 7 and 21 years of age. By filling in the gaps on Lincoln's childhood, these authors shed light on how his experiences growing up influenced the man he became. As the first fully annotated edition of the Lincoln Inquiry papers, Abe's Youth offers indispensable reading for anyone hoping to learn about Lincoln's early life.

Emanuel CrunchTime for Corporations and Other Business Entities Rowman & Littlefield

The global distribution of power is changing. But how should we make sense of this moment of transition? With the rise of new powers and the decline of seemingly unchallenged US dominance in world politics, a conventional wisdom is gaining ground that a new multipolar order is taking shape. Yet multipolarity – an order with multiple centres of power – is variously used as a description of the current distribution of power, of the likely shape of a future global order, or even as a prescription for how power 'should' be distributed in the international system. To understand the power of the different – and sometimes competing – narratives on offer today about the changing global order, a global perspective is necessary. This book explores how the concept of a multipolar order is being used for different purposes in different national contexts. From rising powers to established powers, contemporary debates are analysed by a set of leading scholars to provide in-depth insight into the use and

abuse of a widely employed but rarely explored concept.

Cengage Advantage Books: Introduction to Business Law Springer

This volume seeks to explain the political economy of the Abe government and the so-called 'Abenomics' economic policies. The Abe government represents a major turning point in postwar Japanese political economy. In 2019, Abe became the longest serving Prime Minister in Japanese history. Abe's government stood out not only for its longevity, but also for its policies. Abe came to power promising to reinvigorate Japan's economy under the banner of Abenomics. He pursued a host of structural reforms and industrial promotions to increase Japan's potential growth rate. Abe also achieved important legislative victories in security policy. However, the government also faced significant controversies. The book will hold appeal to scholars and students specializing in the study of Japanese politics, comparative political economy, the politics of contemporary advanced democracies, macroeconomic policy, labor market reforms, corporate governance, gender equality, agricultural reforms, energy and climate change, and East Asian security.

PISA Take the Test Sample Questions from OECD's PISA Assessments Indiana University Press

This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

Billboard Springer Nature

The United States is the world's most legalistic nation not only because of its laws, lawyers, and courts but also due to

the amount, variety, and appeal of its law-related popular culture. This large body of materials and experiences profoundly affects what Americans expect from their legal institutions and government. Indeed, might it be true that pop cultural law is more important in shaping the lay public's assumptions and expectations than are actual laws and real-life courtroom proceedings? *Law and Popular Culture* is the first classroom text to examine the full range of American law-related popular culture. Designed primarily for law school use, the text examines the most influential pop cultural media—film, radio, television, and inexpensive fiction—but each of the text's 14 chapters begins with a list of five readily available Hollywood films that are relevant to that particular chapter. Instructors might screen selections from these lists in conjunction with their courses. After an introduction to the study of popular culture and an outline of the text's goals,

the chapters themselves fall into two categories. Half concern the pop cultural portrayals of legal institutions and actors—law schools, the legal profession, clients, witnesses, judges, and juries. The second half concern assorted areas of law—Constitutional Law, Criminal Law, and Torts from the first-year curriculum and Business Law, Family Law, International Law, and Military Law from standard upper-level electives. Instructors might use the text at the pace of one chapter per week for an entire semester or pick and expand upon selected chapters as they think best. Overall, *Law and Popular Culture* underscores and scrutinizes the immense role popular culture plays in shaping the American legal consciousness. Teachers and students alike can use the text to explore what Americans expect from their law and legal institutions while at the same time honing their understanding of law and of the meaning of justice under law.
