Praise for George Saunders and *CivilWarLand in Bad Decline* "It's no exaggeration to say that short story master George Saunders helped change the trajectory of American fiction."—The Wall Street Journal "Saunders's satiric vision of America is dark and demented; it's also ferocious and very funny."—Michiko Kakutani, The New York Times "George Saunders is a writer of arresting brilliance and originality, with a sure sense of his material and apparently inexhaustible resources of voice. [*CivilWarLand in Bad Decline*] is scary, hilarious, and unforgettable."—Tobias Wolff "Saunders makes the all-but-impossible look effortless."—Jonathan Franzen "Not since Twain has America produced a satirist this funny."—Zadie Smith "An astoundingly tuned voice—graceful, dark, authentic, and funny—telling just the kinds of stories we need to get us through these times."—Thomas Pynchon

Saunders Comprehensive Review for the NAVLE Elsevier Health Sciences

The first comprehensive look at the global dilemma of child migration Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young

people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

NEW YORK TIMES BESTSELLER • From the Booker Prize-winning author of *Lincoln in the Bardo* and *Tenth of December* comes a literary master class on what makes great stories work and what they can tell us about ourselves—and our world today. LONGLISTED FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD • ONE OF THE BEST BOOKS OF THE YEAR: *The Washington Post*, *NPR*, *Time*, *San Francisco Chronicle*, *Esquire*, *Milwaukee Journal Sentinel*, *Town & Country*, *The Rumpus*, *Electric Lit*, *Thrillist*, *BookPage* • “[A] worship song to writers and readers.”—*Oprah Daily* For the last twenty years, George Saunders has been teaching a class on the Russian short story to his MFA students at Syracuse University. In *A Swim in a Pond in the Rain*, he shares a version of that class with us, offering some of what he and his students have discovered together over the years. Paired with iconic short stories by Chekhov, Turgenev, Tolstoy, and Gogol, the seven essays in this book are intended for anyone interested in how fiction works and why it’s more relevant than ever in these turbulent times. In his introduction, Saunders writes, “We’re going to enter seven fastidiously constructed scale models of the world, made for a specific purpose that our time maybe doesn’t

fully endorse but that these writers accepted implicitly as the aim of art—namely, to ask the big questions, questions like, How are we supposed to be living down here? What were we put here to accomplish? What should we value? What is truth, anyway, and how might we recognize it?” He approaches the stories technically yet accessibly, and through them explains how narrative functions; why we stay immersed in a story and why we resist it; and the bedrock virtues a writer must foster. The process of writing, Saunders reminds us, is a technical craft, but also a way of training oneself to see the world with new openness and curiosity. *A Swim in a Pond in the Rain* is a deep exploration not just of how great writing works but of how the mind itself works while reading, and of how the reading and writing of stories make genuine connection possible.

The book encompasses the history of bird keeping, common breeds of birds, their nutritional requirements, list of zoonotic diseases transmitted by birds and guideline for their prevention. It covers infectious, non-infectious clinical and metabolic diseases, and toxicity in detail with a special focus on the history of diseases, etiology, affected hosts, pathogenesis, clinical signs, diagnosis and treatment. Separate chapters detail relevant diagnostic techniques, management and care practices, including updated information. The book offers an invaluable guide for students and teachers in the field of (avian) veterinary medicine, scientists/research scholars working in related fields, and avian medicine practitioners, as well as all those progressive bird owners who want to know the basics of their care and management.
