Pet-Specific Care for the Veterinary Team Addison Wesley Longman

This book is written for use in the class room. It may, however, be studied just as easily by the field practitioner, and is not too technical in most of its parts to be readily grasped by the layman. It has grown, rather than having been written; it is the expansion of the notes which were tested in the class room for six years, and the writer believes that, with the constant arrangement and betterment to suit the requirements of the students of Chiropractic, this has created a real textbook, rendering easily understood a subject that students have always said was difficult.
