 Anna Karenina, novel by Leo Tolstoy, published in installments between 1875 and 1877 and considered one of the pinnacles of world literature. The narrative centres on the adulterous affair between Anna, wife of Aleksey Karenin, and Count Vronsky, a young bachelor. Karenin's discovery of the liaison arouses only his concern for his own public image. Anna promises discretion for the sake of her husband and young son but eventually becomes pregnant by Vronsky. After the child is born, Anna and the child accompany Vronsky first to Italy and then to his Russian estate. She begins making furtive trips to see her older child and grows increasingly bitter toward Vronsky, eventually regarding him as unfaithful. In desperation she goes to the train station, purchases a ticket, and then impulsively throws herself in front of the incoming train. A parallel love story, involving the difficult courtship and fulfilling marriage of Kitty and Levin, provides a rich counterpoint to the tragedy and is thought to reflect Tolstoy's own marital experience. There is an inevitability about the tragic fate that hangs over the adulterous love of Anna and Vronsky. "Vengeance is mine, I will repay" is the epigraph of the novel and the leitmotif of the story. Anna pays not so much because she transgresses the moral code but because she refuses to observe the proprieties customarily exacted in such liaisons by the hypocritical high society to which she belongs. Leo Tolstoy, Tolstoy also spelled Tolstoi, Russian in full Lev Nikolayevich, Graf (count) Tolstoy, (born August 28 [September 9, New Style], 1828, Yasnaya Polyana, Tula province, Russian Empire--died November 7 [November 20], 1910, Astapovo, Ryazan province), Russian author, a master of realistic fiction and one of the world's greatest novelists.

Over the last two decades, interest in translation around the world has increased beyond any predictions. International bestseller lists now contain large numbers of translated works, and writers from Latin America, Africa, India and China have joined the lists of eminent, bestselling European writers and those from the global English-speaking world. Despite this, translators tend to be invisible, as are the processes they follow and the strategies they employ when translating. The Translator as Writer bridges the divide between those who study translation and those who produce translations, through essays written by well-known translators talking about their own work as distinctive creative literary practice. The book emphasises this creativity, arguing that translators are effectively writers, or rewriters who produce works that can be read and enjoyed by an entirely new audience. The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of

translating, away from more abstract speculation about what translation might involve.

Jirí Levý's seminal work, *The Art of Translation*, considered a timeless classic in Translation Studies, is now available in English. Having drawn on adjacent disciplines, the methodology of Czech functional sociosemiotic structuralism and the state-of-the art in the West, Levý synthesized his findings and experience in the field presenting them in a reader-friendly book, which combines the approaches of a theoretician, systemic analyst, historian, critic, teacher, practitioner and populariser. Although focused on literary translation from theoretical, descriptive and historical perspectives, it presents a conceptualization of a general theory, addressing a number of issues discussed today. The 'practical' mission of the book as a theory extending to practice is based on the same historical-dialectic affinity of methods, norms, functions and values, accounting for the translator's agency and other contextual agents involved in the communication process. The book will be useful to translators, researchers, students and teachers in Translation and Literary Studies.

Essays. Theater. Edited by Daniele Benati. Translated by Adria Bernardi. "Baldini's texts have the wonderful simplicity of fairy tales. It is for this reason that they can be read again and again without becoming tiresome. In the entire civilized western world, simplicity is usually considered as something inferior. Baldini is one of the few who makes us realize that simplicity is the highest conquest of words. But he achieves it through an unbelievably pliable, modulated, and complex prosody, which revolves around a few fundamental sounds, as in modern music. His dialect is a

reservoir of these fundamental sounds of emotion" - Gianni Celati. *Condominium of the Flesh* Portobello Books

The illegitimate son of a fortune teller, Ezio Comparoni (1920-52) never knew his father, rarely left his home town, and admitted no one to his home. His deliberate obscurity was compounded by his use of many pseudonyms, including Silvio d'Arzo, under which he wrote the remarkable novella and three stories collected in *The House of Others*. The novella *The House of Others* is among the rare perfect works of twentieth century fiction. In a desolate

mountain village an old woman visits the parish priest, ostensibly to ask about dissolving a marriage. Gradually, as she probes for information on "special cases"--cases in which what is obviously wrong can also be irrefutably right--it becomes clear her true question is whether or not she might take her own life. The question is metaphysical, involving not only the woman's life but the priest's; and to it he has no answer.
