Levitt, coauthor of *Freakonomics* "Bursting with insights." —The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory book, Edward Glaeser, a

leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent,

eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future. Christian Ministries This book examines the interpretation of dreams that were thought to contain divine messages in the ancient Near East. The essays, written by scholars specializing in different regions and bodies of literature, shed light on dream divination in the Bible, the Talmud, and in writings from Canaan, Mesopotamia, and Hittite Anatolia. Contributors include

Franziska Ede, Esther J. Hamori, Koowon Kim, Christopher Metcalf, Alice Mouton, Scott B. Noegel, Andrew B. Perrin, Stephen C. Russell, Jonathan Stökl, and Haim Weiss. Elisha Goodman Bette Davis answered, "George Brent" whenever asked to name her favorite co-star. Her longtime crush on the actor (they teamed in eleven films) culminated in an off-screen

affair while filming *Dark Victory* (1939) for which she won an Oscar nomination and Brent gave what many consider his "finest performance." Hollywood's top stars clamored to play opposite Brent, who infused his easy-going warmth into such blockbuster films as *42nd Street* (1933). Before long, Garbo demanded that MGM cast him opposite her in *The Painted Veil* (1934). Brent was perfect

foil for cinema's leading ladies: Ruth Chatterton (his second wife), Ginger Rogers, Loretta Young, Claudette Colbert, Barbara Stanwyck, Myrna Loy, Kay Francis, Olivia de Havilland, Joan Fontaine, Hedy Lamarr, Merle Oberon, and Ann Sheridan (his fourth wife). Not to be pigeonholed Brent's perfection as the dissipated Englishman in *The Rains Came* (1939) and surprise

turn as the heavy in *The Spiral Staircase* (1946) fueled the longevity of his career. The personal life of George Brent remained undercover. Upon signing with Warner Bros., studio publicity fabricated a back-story for Brent: a graduate of Dublin University (he dropped out of school at 16); a player in the Abbey Theatre (for which no record exists); a dead mother (who was very much alive); and, a

dispatcher for Michael Collins during the Irish Revolution (this . . . was true). Brent's biography offers a fascinating look into the life of Hollywood's elusive lone wolf. Scott O'Brien, whose biography on Ruth Chatterton made The Huffington Post's "Best Film Books of 2013," abetted by Irish filmmaker Brian Reddin, sheds new light on Ireland's gift

to Hollywood and its leading ladies: George Brent. (Foreword by Wesleyan University's Chair of Film Studies, Jeanine Basinger.) 331 pages with 125 illustrations capture the glamour and private world of Hollywood's Golden Age. Capital Punishment and American Culture, 1820–1925 Cambridge University Press From the rise of ticker-tape technology to the development

of conspiracy theories, Reading the Market argues that commentary on the Stock Exchange between 1870 and 1915 changed how Americans understood finance—and explains what our pervasive interest in Wall Street says about us now. *Trusting God in Tough Times* Oxford University Press The Success of Excess is the story of the evolution of extraordinary art icon, Bill

Bowers-a chronological perspective of his life and work over the last six decades set in the geopolitical milieu of these important artistic periods in America. Bill Bowers grew up feeling out of step with the interests and concerns of his peers in Wichita Falls, Texas. He had no desire to become a farmer or a father and instead felt drawn to the outré world of science fiction films of the 1950s. In high

school, he listened to the music of his generation on the radio-particularly, The Seeds, a garage band from Los Angeles. After graduation, he moved to LA, just to hear a live performance of the group at the Whiskey A Go-Go on the Sunset Strip. Inspired by the music and fashion on the Strip, Bill began making wearable items for the youth of the 1960s-hippies and Bohemians and later,

rockers and punks. He immersed himself in the culture of full-time pleasure-seekers in the dance clubs. When that scene became uncomfortable, due to police crackdowns and the closure of many clubs, Bill and his friends moved north to the mellower more sensual vibe of San Francisco. The mecca of quirkiness embraced Bill and he quickly became an indispensable member of the Cockettes-a group of

street performers who morphed into an avant-garde theatrical group that still influences artists to this day. Living in community with all manner people exploring consciousness and creativity, often enhanced by various drugs, freed Bill completely from conventional pursuits. The theatrical costumes he made for the Cockettes led him to sew dimensional clothing that

appealed to rock stars and a larger audience of fashionistas. He moved to New York to support the Cockettes performance there, but after their disastrous debut and their subsequent return to the City, Bill stayed to hang around with the East Coast designers, musicians, and actors he had met. His clothing caught the attention of the mainstream and was

shown in the windows of Bonwit Teller and Bergdorf Goodman. With support of designer Norma Kamali, he landed a six-page spread in Italian Vogue, and his work was sought out by rockers, such as Alice Cooper and Led Zeppelin. The pressure of success and freezing temperatures in New York inspired Bill's move back to San Francisco. When he returned, he also began taking photographs

of the kinky, glam, gay culture of San Francisco, resulting in his first solo photography exhibition in 1976. Eventually, photography would become an essential component of his mixed media pieces. External and personal pressures forced another move away from San Francisco. This time Bill chose Key West, Florida where he had a few friends and the lifestyle was attuned to sun, fun, beaches, bars,

parties and porn. Bill hooked up with a writer/entrepreneur and they began a book project of fictionalized "confessions" and staged photos of S and M activities. This drew interest from a New York publisher, but never materialized due to the new plague of HIV/AIDs that curtailed public and private interest in the topic. Within a decade the purposelessness of life in Key West had

lost its allure, so Bill began another exodus to San Francisco. However, passing through New Orleans during the Southern Decadence gay Mardi Gras delayed his journey. All the attractions in that city may have kept him there indefinitely, but three years later Bill was diagnosed with HIV. The impact of that medical issue was life changing for Bill-it brought a commitment to re-embrace his true self as an artist and

to use his gifts to inspire others. He returned to reside permanently in San Francisco, the center of all medical innovation focusing on his disease, as well as the support and understanding of the surrounding community. Since that day, Bill Bowers' life has not had a dull moment. His creative output is breathtaking and his drive to make art and to share his vision with the world is

relentless.

marine kingdom has been used by satan to challenge the purposes of God on earth.
