Sacred

Knowledge is

the first well-

documented,
sophisticated
account of the
effect of
psychedelics
on biological
processes,

human consciousness, and revelatory religious experiences. Based on nearly three decades of legal research with volunteers, William A. Richards argues that, if used responsibly and legally, psychedelics have the potential to assuage suffering and constructively affect the quality of human life. Richards's analysis contributes to social and political debates over the responsible integration of psychedelic substances into modern society. His book serves as an invaluable resource for readers who, whether spontaneously or with the facilitation of psychedelics, have encountered meaningful, inspiring, or even disturbing states of consciousness and seek clarity about their experiences. Testing the limits of language and conceptual frameworks, Richards makes the most of experiential phenomena that stretch our understanding of reality, advancing new frontiers in the study of belief, spiritual awakening, psychiatric treatment, and social well-being. His findings enrich humanities and scientific scholarship, expanding work in philosophy, anthropology, theology, and religious

studies and bringing depth to research in mental health, psychotherapy, and psychopharmacology.

Anthology of Musical Forms - Structure & Style (Expanded Edition)

Alfred Music Structure and Style, first published in 1962 and expanded in 1979, fills the need for new ways of analysis that put 20th-century music in perspective. It spans forms in use before 1600 through forms and

techniques in use today. Anthology of Musical Forms provides musical examples of forms treated in Structure and Style. Some examples are analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student, musician, and composer. Stein studied composition with Leo Sowerby, Frederick Stock

(conductor of the Chicago Symphony) and orchestration with Eric DeLamarter, his assistant. He earned M. Mus and Ph.D degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including

compositions for orchestra, chamber combinations, two operas, and a violin concerto.

First published in 2001, this work provides detailed information taken from the 'Programmes-as-Broadcast' daily log of output held at the BBC
Written
Archives Centre in Caversham.
Arranged in chronological order, entries are given for broadcasts of

first performances of musical works in the United Kingdom, and include details of: the date of the broadcast, the composer, the title of the work, performers and conductor. In addition to its usefulness as a reference tool, the Chronicle enables us to gauge the trends in twentieth-century British musical life, and the role of the BBC in their promotion.

This is the first scholarly work to document the musical contribution of Joseph Holbrooke, one of Britain's most controversial composers during the first half of the twentieth century. Paul Watt and Anne-Marie Forbes have gathered a team of scholars who focuses on the musical and literary life of the composer.

James Tobin explores the origins and fate of neoclassicism, arguing how efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope. Tobin surveys the careers of various figures, drawing especially on early reviews of performances before offering	his own critical assessment of individual works. His examination includes such European influencers, as Igor Stravinsky, Paul Hindemith, and Nadia Boulanger, before he turns his attention to Edward Burlingame Hill, Walter Piston, Harold Shapero, Irving Fine, early Lukas Foss, Alexei Haieff, Ingolf Dahl, Louise Talma, John Lessard, Nicolai Lopatnikoff,

Edward Elgar rose from obscurity to become the most popular English

composer of his day. Elgar's music is known world-wide and works such as the 'Enigma Variations' and 'The Dream of Gerontius' together with the two symphonies and the two concertos have established him as one of the greatest British composers of all time. The Elgar Society was founded in 1951 to further the cause of Elgar's music and the present

volume of essays has been compiled as an expression of gratitude for the work that it has done. These essays reflect the variety and richness of Elgar's music and the debate that this music continues to encourage. The book is not simply for academics however; lovers of music in general will find much to entertain them and it will add greatly to our appreciation of Elgar.

Gramophone

This updated second edition is an in-depth exploration of Elgar's compositions and of writings by and about the composer and his music. The past 16 years have seen a steady increase in scholarly publications and the emergence of The Elgar Society Journal, as well as further discoveries of the composer's MSS and letters, and the new edition incorporates this latest

research. The compositions are examined in a work-by-work catalog, in chronological order, in which each entry gives a complete census and collation of manuscript, proof, text, biographical, printed edition and bibliographical sources for each item. The listing also includes unfinished sketches and details of much unpublished material. The bibliography section covers selected

established literature as well as details of reviews and articles contained in the European periodicals at the climax of Elgar's career. Christopher Kent was nominated unanimously by the Scrutiny Panel of the International Association of Music Libraries, Archives and Research Centres for the 2014 C.B. Oldman Prize for the most outstanding reference resource published in 2014. He

received the award at their Annual Conference held at the University of Aston, Birmingham in April. **Scenarios, Priorities, Strategies, Essentials, and Repertoire** This volume contains a detailed biography of Elgar, and is part of the 'Master Musicians' series written by W. H. Reed. In writing this biography, Reed was aided by Elgar's daughter who helped him

piece together the various incidents in Edward Elgar's life in chronological order from her personal knowledge and from old diaries. This biography offers the reader a unique insight into the life of this master musician, and it will be of considerable value to those with an interest in Elgar's personal life. The chapters of this book include: 'Childhood and Youth', 'In Search of a Career', 'The

Teaching of Experience', 'Marriage and Artistic Progress', 'Growing Mastery', 'Gradual Recognition and Fame', 'Full Maturity', 'Creative Activity', 'Fame at Home and Abroad', 'The Elgar Festival and Knighthood', and more. We are republishing this antiquarian text now in a modern, affordable edition complete with a new prefatory biography of the author.
