Atria Books: A Booklovers Sampler John Wiley & Sons
 These fibs just got real! The first hilarious book in a brand-new series for boys. Hi! I'm Oliver Tibbs (some people call me "Oliver Fibbs") and everyone in my family is super-brilliant at something - chess, ballet, brain surgery and architecture - but I'm not brilliant at anything. Show and Tell (or as I call it: Pain and Torture Time) is my worst nightmare... I haven't got a black belt at karate or made a mega-powerful electro-magnet. All I'm good at is reading comics and eating pizza. But I'm fed up with being Dull and Boring, so I've been telling the class about my adventures as a Defender of Planet Earth - battling against the evil Alien Brain Drain who wants to take over the world! Everyone loved it except Miss Wilkins, who gave me a detention for telling fibs. Now my parents think I'm Going Bad. I keep telling them - THEY'RE NOT FIBS, THEY'RE STORIES!

Banking On America Tyndale House Publishers, Inc.
 Fiction. "Old 'water hermit' Stu, barely adrift in a world of two-bit marinas, bad choices, and hard times, holds this loosely-linked 'novel in stories' together, and what fine stories they are! Tough, heartbreaking, unforgettable, necessary. Chances are pretty good that you have not met anybody like these desperate characters before, and you haven't read anything like this collection, either. IT TURNS OUT LIKE THIS deserves every reader it can get, and every prize out there." —Lee Smith

 When Anne Boleyn falls to the executioner's ax on a cold spring morning in 1536, Anne Seymour knows her family faces peril. As alliances shift and conspiracies multiply, the Seymours plot to establish their place in the treacherous court of King Henry VIII, where a courtier's fate is decided by the whims of a hot-tempered and fickle monarch. Lady Anne's own sister-in-law, Jane Seymour, soon takes Anne Boleyn's place as queen. But if Jane cannot give King Henry a son, history portends that she, too, will be executed or set aside and her family with her. In desperation, Lady Anne throws herself into the intoxicating intrigue of the Tudor court, determined to ensure the success of the new queen's marriage and the elevation of the Seymour family to a more powerful position. Soon her machinations earn her a reputation as a viper in a den of rabbits. In a game of betrayal and favor, will her family's rise be worth the loss of her soul?"

Leap Day Constable
 From New York Times Bestselling Author Kristen Proby comes *Tied With Me*? Nic Dalton's cupcake bakery is thriving. She serves both rock stars and locals alike, content with her growing business. But one adventurous night out with her best friend, Bailey, turns her

life upside down. She meets a handsome stranger who makes her skin sizzle and her heart race. Their one night together is explosive and unexpected, but when he has to suddenly leave without taking her phone number, Nic resigns herself to never seeing him again. Matt Montgomery is one of Seattle's finest. He works hard, loves and protects his family fiercely, and is loyal almost to a fault. And he has a penchant for bondage. Matt enjoys the way a woman looks wrapped up in his ropes, and makes no apologies for his preferences. When he meets Nic at a fetish festival, the small, beautiful woman catches his eye, drawing him to her. His one night with her was everything he's ever looked for in a partner, but is cut short because of a family emergency. Even before he sees her again weeks later, he knows he'll never get her out of his system. And he'll do whatever it takes to make her his.

WALL STREET JOURNAL BESTSELLER As featured in the New York Post and as seen on Tucker Carlson, Fox and Friends, Martha MacCallum, and more. The Parkland school shooting was the most avoidable mass murder in American history. And the policies that made it inevitable are being forced into public schools across America. "After my sister Meadow was murdered at Marjory Stoneman Douglas High School, the media obsessed for months about the type of rifle the killer used. It was all clickbait and politics, not answers or justice. That wasn't good enough for us. My dad is a real tough guy, but Meadow had him wrapped around her little finger. He would do anything she wanted, and she would want him to find every answer so that this never happens again. My dad teamed up with one of America's leading education experts to launch his own investigation. We found the answers to the questions the media refused to ask. Questions about school safety that go far beyond the national gun debate. And the answers to those questions matter for parents, teachers, and schoolchildren nationwide. If one single adult in the Broward County school district had made one responsible decision about the Parkland shooter, then my sister would still be alive. But every bad decision they made makes total sense once you understand the district's politically correct policies, which started here in

Broward and have spread to thousands of schools across America." —Hunter Pollack, "Foreword"

Why Meadow Died Springer Science & Business Media

Asymptotic methods provide considerable physical insight and understanding of diffraction mechanisms and are very useful in the design of electromagnetic devices such as radar targets and antennas. However, difficulties can arise when trying to solve problems using multipole and asymptotic methods together, such as in radar cross section objects. This new book offers a solution to this problem by combining these approaches into hybrid methods, therefore creating high demand for both understanding and learning how to apply asymptotic and hybrid methods to solve diffraction problems. The book provides the very latest and most comprehensive research on this subject.

Attack of the Copula Spiders Pearson Education

Intended as a textbook for students taking a first graduate course in the subject, as well as for the general reference of interested research workers, this text discusses, in a readable form, developments from recently published work on certain broad topics not otherwise easily accessible, such as robust inference and the use of the bootstrap in a multivariate setting. A minimum background expected of the reader would include at least two courses in mathematical statistics, and certainly some exposure to the calculus of several variables together with the descriptive geometry of linear algebra.

When she agrees to take on one of the abused horses just rescued by the local SPCA, a new chapter opens in Susan Richards's difficult life. She lost her mother at the age of five and was raised by uncaring relatives; she married unhappily and divorced; and she'd been an alcoholic. Now, at the age of forty-three, she lives with three horses who keep her company: the diva-like Georgia, boyish Tempo and hopelessly romantic Hotshot. While trying to capture another horse assigned to her, Lay Me Down, a skeletal mare, walks into Susan's horse trailer of her own volition. When Susan agrees to take her, she begins to forge a special, healing relationship that alters her life. Poignant and evocative, this is a book for anyone who has ever loved a horse, and for everyone who has ever lost a loved one.

If You Could Talk To The Greatest Master of This Century - What Would You Ask? The sages of the centuries, each one tincturing their thought with their own soul essence, have united in telling us that, ""As a man thinketh in his heart, so is he."" It has been established by the experience of the ages that always the law is the same. But HOW shall one think in their heart, so that only goodness may blossom and ripen into rich deed and rare result? What is the apparently mysterious secret by which life's dull metal is transmuted into precious mintage? As Troward has said, ""Thought is the only action of the mind. By your habitual thoughts you create corresponding external physical conditions, because you thereby create the nucleus which attracts to itself its own correspondence, in due order, until the finished work is manifested on the material plane."" Attaining Your Desires Cico Kidz

This book is an examination of American army legal proceedings that resulted from a series of moments when soldiers in a war zone crossed a line between performing their legitimate functions and committing crimes against civilians, or atrocities. Using

individual judicial proceedings held within war-time Southeast Asia, Louise Barnett analyses how the American military legal system handled crimes against civilians and determines what these cases reveal about the way that war produces atrocity against civilians. Presenting these atrocities and subsequent trials in a way that considers both the personal and the institutional the author considers how and why atrocity happens, the terrain of justification, and the degree to which the army and American society have been willing to take military crimes against civilians seriously. Atrocity and American Military Justice in Southeast Asia will be of interest to students, scholars and professionals interested in Military Justice, Military history and Southeast Asian History more generally.
