The Closure of Space in
Roman Poetics Harvard
University Press

An uninhibited glance into
the extensive baths of
Rome

**The Oxford
encyclopedia of
ancient Greece and
Rome. - Vol. 1 - 7**

Cambridge University
Press

This book discusses
social, religious and
medical attitudes towards
bathing in Late Antiquity.
It examines the place of
bathing in late Roman and
early Byzantine society as
seen in the literary,
historical, and
documentary sources
from the late antique
period. The author argues
that bathing became one
of the most important
elements in defining what
it meant to be a Roman;
indeed, the social and
cultural value of bathing
in the context of late
Roman society more than
justified the efforts and
expense put into
preserving bathing
establishments and the
associated culture. The
book contributes a unique

perspective to
understanding the
changes and
transformations
undergone by the bathing
culture of the day, and
illustrates the important
role played by this culture
in contributing to the
transitional character of
the late antique period. In
his examination of the
attitudes of medical
professionals and laymen
alike, and the focus on its
recuperative utility, Zytka
provides an innovative
and detailed approach to
bathing.

**Decoration and Display
in Rome's Imperial**

Thermae Wm. B.
Eerdmans Publishing
In 11 in-depth essays and
over 500 encyclopedia
entries, a cast of experts
provides fresh
perspectives on an era
marked by the rise of two
world religions,
unprecedented
upheavals, and the
creation of art of enduring
glory. 79 illustrations, 16
in color.

The Architecture of
Bathing BRILL

A discussion of the
relationship between
people and water in
medieval Italy, first
published in 1998.

The Bath-Gymnasium

Complex at Sardis

Harvard University Press

'This book is a not-so-
small joy in itself.'

NIGELLA LAWSON

'Parkinson has the gift of
making you look with new
eyes at everyday things.

The perfect daily

diversion.' JOJO MOYES

'Always funny and frank
and full of insight, I

absolutely love

Parkinson's writing.'

DAVID NICHOLLS 'I loved

this book . . . Parkinson's

writing transports you to

unexpected places of joy

and comfort . . . these

pages contain happiness.'

MARINA HYDE 'The

twenty-first century feels

a lot more bearable in

Parkinson's company.'

CHARLOTTE MENDELSON

Drawn from the successful

Guardian column, these

everyday exultations and

inspirations will get you

through dismal days.

Hannah Jane Parkinson is

a specialist in savouring

the small pleasures of life.

She revels in her fluffy

dressings gown ('like

bathing in marshmallow'),

finds calm in solo cinema

trips, is charmed by the

personalities of fonts

('you'll never see Comic

Sans on a funeral notice'),

celebrates pockets and

gleefully abandons a book

she isn't enjoying. Parkinson's everyday exaltations - selected from her immensely successful Guardian column - will utterly delight. FEATURES BRAND NEW MATERIAL 'A compendium of delights.' OBSERVER 'Delightful . . . a love letter to those little moments of bliss that get us through the daily grind.' RED

Baths and Bathing in Classical Antiquity

Routledge

This book examines the survival, transformation and eventual decline of Roman public baths and bathing habits in Italy, North Africa and Palestine during Late Antiquity.

Bathing in Public in the Roman World Princeton University Press

This book opens the world of the ancient Greeks to all readers through easily accessible entries on topics essential to understanding Greek high culture and daily life. The ancient Greeks provided the foundation for Western civilization. They made significant advances in science, mathematics, philosophy, literature, and government. While many readers might have heard of Plato and Aristotle, however, or be familiar with the classic works of

Greek tragedy, most people know significantly less about daily life in the ancient Greek world. This encyclopedia opens the world of the ancient Greeks, spanning Greek history from the Bronze Age through Roman times, with an emphasis on the Classical and Hellenistic Eras. The encyclopedia provides roughly 270 easily accessible entries on topics essential to understanding everything from Greek high culture to daily life. These entries are grouped in topical sections on the arts, science and technology, politics and government, domestic life, and other subjects. Sidebars on particularly noteworthy people, places, and concepts provide related information, while primary documents allow readers to delve into the mindset and feelings of the ancient Greeks themselves. Extensive bibliographic references give curious readers direction for further research.

Bathing in the Roman World Cambridge University Press

The studies presented in the book express the spirit of A. Segal research work and reflect his interest and curiosity in a

wide spectrum of Classical archaeology, such as town planning and architecture in the Graeco-Roman world, Roman theatres, Roman temples, Herodian art and architecture, Nabataean art and architecture, architectural decoration, and more.

The Classical Tradition

Oxford University Press

These essays offer scholars, teachers, and students a new basis for discussing attitudes toward, and technological expertise concerning, water in antiquity through the early Modern period, and they examine historical water use and ideology both diachronically and cross regionally. Topics include gender roles and water usage; attitudes, practices, and innovations in baths and bathing; water and the formation of identity and policy; ancient and medieval water sources and resources; and religious and literary water imagery. The authors describe how ideas about the nature and function of water created and shaped social relationships, and how religion, politics, and science transformed, and were themselves transformed by, the manipulation of, uses of, and disputes over water

in daily life, ceremonies, and literature. Contributors are Rabun Taylor, Sandra Lucore, Robert F. Sutton, Jr., Cynthia K Kosso, Kevin Lawton, Evy Johanne HA land, HA(c)IA]ne Cazes, Alexandra Cuffel, Mark Munn, Brenda Longfellow, Gretchen Meyers, Sara Saba, Scott John McDonough, Etienne Dunant, E. J. Owens, Mehmet TaAlAalan, Deborah Chatr Aryamontri, John Stephenson, Lin A. Ferrand, Paul Trio, Anne Scott, Misty Rae Urban, Ruth Stevenson, Charles Connell, Alyce Jordan, Ronald Cooley, and Irene Matthews.

Roman Baths and Bathing
BAR International Series
A provocative account of Jewish encounters with the public baths of ancient Rome Public bathhouses embodied the Roman way of life, from food and fashion to sculpture and sports. The most popular institution of the ancient Mediterranean world, the baths drew people of all backgrounds. They were places suffused with nudity, sex, and magic. A Jew in the Roman Bathhouse reveals how Jews navigated this space with ease and confidence, engaging with Roman bath culture rather

than avoiding it. In this landmark interdisciplinary work of cultural history, Yaron Eliav uses the Roman bathhouse as a social laboratory to reexamine how Jews interacted with Graeco-Roman culture. He reconstructs their thoughts, feelings, and beliefs about the baths and the activities that took place there, documenting their pleasures as well as their anxieties and concerns. Archaeologists have excavated hundreds of bathhouse facilities across the Mediterranean. Graeco-Roman writers mention the bathhouse frequently, and rabbinic literature contains hundreds of references to the baths. Eliav draws on the archaeological and literary record to offer fresh perspectives on the Jews of antiquity, developing a new model for the ways smaller and often weaker groups interact with large, dominant cultures. A compelling and richly evocative work of scholarship, *A Jew in the Roman Bathhouse* challenges us to rethink the relationship between Judaism and Graeco-Roman society, shedding new light on how cross-cultural engagement

shaped Western civilization.

Baths and Bathing
Penguin

This all embracing survey of Pompeii provides the most comprehensive survey of the region available. With contributions by well-known experts in the field, this book studies not only Pompeii, but also - for the first time - the buried surrounding cities of Campania. The World of Pompeii includes the latest understanding of the region, based on the up-to-date findings of recent archaeological work. Accompanied by a CD with the most detailed map of Pompeii so far, this book is instrumental in studying the city in the ancient world and is an excellent source book for students of this fascinating and tragic geographic region.

Roman Baths and Bathing BRILL

The legacy of ancient Greece and Rome has been imitated, resisted, misunderstood, and reworked by every culture that followed. In this volume, some five hundred articles by a wide range of scholars investigate the afterlife of this rich heritage in the fields of literature, philosophy, art,

architecture, history, politics, religion, and science.

The Oxford Classical Dictionary Oxford

University Press

In *Bathing in the Roman World*, Fikret Yegul examines the social and cultural aspects of one of the key Roman institutions. Guiding the reader through the customs, rituals, and activities associated with public bathing, Yegul traces the origins and development of baths and bathing customs and analyzes the sophisticated technology and architecture of bath complexes, which were among the most imposing of all Roman building types. He also examines the reception of bathing throughout the classical world and the transformation of bathing culture across three continents in Byzantine and Christian societies. The volume concludes with an epilogue on bathing and cleanliness in post-classical Europe, revealing the changes and continuities in culture that have made public bathing a viable phenomenon even in the modern era. Richly illustrated and written in an accessible manner, this book is geared to undergraduates

for use in courses on Roman architecture, archaeology, civilization, and social and cultural history.

Public Baths and Bathing Habits in Late Antiquity Cambridge

University Press

This book examines the survival, transformation and eventual decline of Roman public baths and bathing habits in Italy, North Africa and Palestine during Late Antiquity.

The Archaeology of Sanitation in Roman Italy Faber & Faber

During the rise of New York from the capital of an upstart nation to a global metropolis, the visual language of Greek and Roman antiquity played a formative role in the development of the city's art and architecture. This compilation of essays offers a survey of diverse reinterpretations of classical forms in some of New York's most iconic buildings, public monuments, and civic spaces. Classical New York examines the influence of Greco-Roman thought and design from the Greek Revival of the late eighteenth and early nineteenth centuries through the late-nineteenth-century American Renaissance and Beaux Arts period and

into the twentieth century's Art Deco. At every juncture, New Yorkers looked to the classical past for knowledge and inspiration in seeking out new ways to cultivate a civic identity, to design their buildings and monuments, and to structure their public and private spaces. Specialists from a range of disciplines—archaeology, architectural history, art history, classics, and history—focus on how classical art and architecture are repurposed to help shape many of New York City's most evocative buildings and works of art. Federal Hall evoked the Parthenon as an architectural and democratic model; the Pantheon served as a model for the creation of Libraries at New York University and Columbia University; Pennsylvania Station derived its form from the Baths of Caracalla; and Atlas and Prometheus of Rockefeller Center recast ancient myths in a new light during the Great Depression. Designed to add breadth and depth to the exchange of ideas about the place and meaning of ancient Greece and Rome in our experience of New York

City today, this examination of post-Revolutionary art, politics, and philosophy enriches the conversation about how we shape space—be it civic, religious, academic, theatrical, or domestic—and how we make use of that space and the objects in it.

The Nature and Function of Water, Baths, Bathing, and Hygiene from Antiquity Through the Renaissance MIT Press (MA)

A celebration of communal bathing—swimming pools, saunas, beaches, ritual baths, sweat lodges, and more—viewed through the lens of architecture and landscape. We enter the public pool, the sauna, or the beach with a heightened awareness of our bodies and the bodies of others. The phenomenology of bathing opens all of our senses toward the physical world entwined with the social, while the history of bathing is one of shared space, in both natural and built environments. In *The Architecture of Bathing*, Christie Pearson offers a unique examination of communal bathing and its history from the perspective of architecture and

landscape. Engagingly written and richly illustrated, with more than 260 illustrations, many in color, *The Architecture of Bathing* offers a celebration of spaces in which public and private, sacred and profane, ritual and habitual, pure and impure, nature and culture commingle. Pearson takes a wide-ranging view of her subject, drawing on architecture, art, and literary works. Each chapter is structured around an architectural typology and explores an accompanying theme—for example, tub, sensuality; river, flow; waterfall, rejuvenation; and banya, immersion. Offering examples, introducing relevant theory, and recounting personal experiences, Pearson effortlessly combines a practitioner's zest with astonishing erudition. As she examines these forms, we see that they are inextricable from landscapes, bodily practices, and cultural production. Looking more closely, we experience architecture itself as an immersive material and social space, embedded in the interdependent environmental and cultural fabric of our world.

Ancient Baths and Bathing

Giorgio Bretschneider editore
 "The present study evolved out of an attempt to explore the mechanisms involved in the transformation of a social practice and its spatial context from one cultural, technological and architectural system to another in a given geographical area in classical antiquity. The practice chosen was that of the bath, the two main and overlapping cultural traditions were the Greek and the Roman and the two technological traditions are termed in the present study 'before' and 'after' the hypocaust. The geographical area covered in the study is that of modern Greece with a more detailed analysis of the Peloponnese. Chapter 1 presents the description and classification of the different bathing traditions which appeared in the Greek territory before the 6th century BC, when the first relevant evidence becomes present in the archaeological record. The evolution of bath architecture in Italy, the main characteristics of the Roman bathing tradition, the spatial configuration of the bath

in the Roman culture and finally the different kinds of typological classifications used by scholars are described in Chapter 2. In Chapter 3 the two basic bathing traditions which appear in Greece in classical antiquity are analyzed following the classification scheme which was described in the introductory chapter. The final chapter looks at the key issues of the Hellenization of the Roman bathing tradition, the Romanization of the bathing traditions of the Greek world and the long term evolution of the bath in antiquity are readdressed in the light of the present research."--

 Routledge
 In (Re)using Ruins, Douglas Underwood presents the history of Roman urban public monuments in the Late Antique West, demonstrating that their vibrant, yet variable, development was closely tied to significant shifts in urban ideologies and euergetic patterns.
Water and Society in Early Medieval Italy, AD 400-1000 Rizzoli
 International Publications
 The Bath-Gymnasium at

Sardis is the most important known example of a complex that combines the gymnasium, a Greek institution, with the Roman bath, a unique architectural and cultural embodiment comparable in size and organization to the great Imperial *thermae* of Rome. The restoration by the Harvard-Cornell Expedition of the "Marble Court" or Imperial cult hall provides a rare opportunity to appreciate firsthand the scale and elegance of the major Imperial monuments. In this fully illustrated volume Fikret Yeg I describes the complex from the palaestra of the east through the richly decorated Marble Court to the vast swimming pool, lofty halls, and hot baths, including analysis of the excavation, evidence for structural systems, roofing, vaulting, and decoration, and the significance of building inscriptions. The author traces the building history from its completion in the second century through five centuries of renovation and redecoration. Mehmet Bolgil, a practicing architect who was in charge of the restoration at Sardis, contributes a clear description of the

reconstruction process.
Greek Athletic Sports and Festivals Oxford University Press
 The Romans developed sophisticated methods for managing hygiene, including aqueducts for moving water from one place to another, sewers for removing used water from baths and runoff from walkways and roads, and public and private latrines. Through the archeological record, graffiti, sanitation-related paintings, and literature, Ann Olga Koloski-Ostrow explores this little-known world of bathrooms and sewers, offering unique insights into Roman sanitation, engineering, urban planning and development, hygiene, and public health. Focusing on the cities of Pompeii, Herculaneum, Ostia, and Rome, Koloski-Ostrow's work challenges common perceptions of Romans' social customs, beliefs about health, tolerance for filth in their cities, and attitudes toward privacy. In charting the complex history of sanitary customs from the late republic to the early empire, Koloski-Ostrow reveals the origins of waste removal technologies and their implications for urban

health, past and present.
