Accounting Fundamentals for Nonfinancial Executives

Irwin/McGraw-Hill

This text discusses and presents accounting principles and concepts in lay man's terms using simple day-to-day terminologies. Definitions are always amplified by examples familiar to students. The steps in the accounting process are discussed using the same

illustration problems from chapter to chapter so that the student can connect the relationship of the steps in the accounting process. Being a basic accounting textbook, the book will provide students with a solid and strong basic accounting knowledge to better equip them to tackle more advanced accounting courses. Accounting, as a field of study is profressive; accounting knowledge is learned in stages; what is learned in basic accounting is used and applied in more advanced accounting courses. Consequently, if a student has a weak basic accounting foundation, he will have difficulty succeeding in more advanced accounting courses.
