In the study of language, as in any other systematic study, there is no neutral terminology. Every technical term is an expression of the assumptions and theoretical presuppositions of its users;

and in this introduction, we want to clarify some of the issues that have surrounded the assumptions behind the use of the two terms "speech acts" and "pragmatics". The notion of a speech act is fairly well understood. The theory of speech acts starts with the assumption that the minimal unit of human communication is not a sentence or other expression, but rather the performance of certain kinds of acts, such as making statements, asking questions, giving orders, describing, explaining, apologizing, thanking, congratulating, etc. Characteristically, a speaker performs one or more of these

acts by uttering a sentence or sentences; but the act itself is not to be confused with a sentence or other expression uttered in its performance. Such types of acts as those exemplified above are called, following Austin, illocutionary acts, and they are standardly contrasted in the literature with certain other types of acts such as perlocutionary acts and propositional acts. Perlocutionary acts have to do with those effects which our utterances have on hearers which go beyond the hearer's understanding of the utterance. Such acts as convincing, persuading, annoying, amusing, and frightening are all cases of perlocutionary acts.

*Tuesday* Turtleback Books

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and

John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation’s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

\*\*\*\*Testimonials\*\*\*\*I just wanted to drop you guys a line and tell you that I passed my final CLEP exam last Monday which gives me all of the credits I need to graduate. I have taken 30 credits worth of CLEP exams and I've passed them all by using your study guides. I actually purchased one of your study guides and

failed my first test. I didn't fail because of your guide though, I failed because I didn't manage my time effectively and I ran short. I looked at your study guide after failing though, and a lot of the information on your study guide was very relevant to what was on the test. So, I tried again with a different test and a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S.\*\*\*\*I would like to thank you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. I gained 36 credits through CLEP and your study guides helped me through almost all of them. I

can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!! -Erin W.\*\*\*\*
