SANAA GONZALEZ

Pacific States Cast Iron

Pipe Ductile-iron Pipe and
Fittings

Provides practical
information about the
design and installation of
ductile iron pressure

piping systems for water
utilities. The 12 chapters
outlines the procedure for
calculating pipe wall
thickness and class, and
describes the types of

joints, fittings, valves, linings, and corrosion protection a

American Water Works Association

This standard describes materials and installation procedures for polyethylene encasement to be applied to underground installations of ductile-iron pipe. This

standard also may be used for polyethylene encasement of fittings, valves, and other appurtenances to ductile-iron pipe systems. This standard or sections of this standard can be referenced in documents for the purchasing and installation of polyethylene sheet or tubes for corrosion protection of buried ductile-iron pipe, fittings, and appurtenances.

This standard covers
shop-applied, cement-
mortar linings specified in
the ANSI/AWWA C100/A21
series of standards for
ductile-iron pipe and

ductile-iron and gray-iron
fittings for water and is
intended to be used as a
supplement to those
standards.
