Sleep Tight, Little Wolf. Bilingual Children's Book (English - Anglo-Saxon/Old English) Metropolitan Museum of Art
"The early years of the seventeenth century saw a great flourishing of Dutch culture. In the arts, this was the era of Vermeer and Rembrandt, as well as the development of a local art market. Commerce extended around the world, with state-sponsored trading companies importing foreign goods. Politically, the Netherlands became the first nation-state in Europe, in 1648. In this book, Claudia Swan considers all these aspects together, examining the material culture of the period-the designed, manufactured, and hand-crafted materials and wares-to show

how the Dutch encounter with so-called "exotic" goods played a fundamental role in the country's political formation"--

The present volume owes its ongm to a Colloquium on "Alchemy and Chemistry in the Sixteenth and Seventeenth Centuries", held at the Warburg Institute on 26th and 27th July 1989. The Colloquium focused on a number of selected themes during a closely defined chronological interval: on the relation of alchemy and chemistry to medicine, philosophy, religion, and to the corpuscular philosophy, in the sixteenth and seventeenth centuries. The relations between Medicina and alchemy in the Lullian treatises were examined in the opening paper by Michela Pereira, based on researches on unpublished manuscript sources in the period between the 14th and 17th centuries. It is several decades since the researches of R.F. Multhauf gave a prominent

role to Johannes de Rupescissa in linking medicine and alchemy through the concept of a quinta essentia. Michela Pereira explores the significance of the Lullian tradition in this development and draws attention to the fact that the early Paracelsians had themselves recognized a family resemblance between the works of Paracelsus and Roger Bacon's scientia experimentalis and, indeed, a continuity with the Lullian tradition. *Parents, Children and the Search for Identity* Princeton University Press

This gorgeous oversized tome features thirty-six sublime country homes, many overlooking the Hudson River. This scenic stretch of estates along the Hudson offers some of the finest examples of American architecture and landscape design. The edition's thirty-five featured homes were designed in a range of styles by notable architects Stanford White, A. J. Davis, Calvert Vaux, Warren and Wetmore, and more. All pair exquisite interiors with expansive lush lawns and riverfront views. Formerly country homes for eighteenth-century landed gentry and nineteenth-century industrialists--Astors, Chanlers, Chapmans, Delanos, Roosevelts--they include Dutch colonial cottages and grand Gothic Revival, Federal, Georgian, and Beaux-Arts residences. Constructed on land owned by the influential Livingston family, who settled in the area in the late seventeenth century, many have been restored to their former splendor by the original owners' descendants as well as recent leaders of New York City industry and the arts, including Richard Jenrette and Brice Marden.

This powerful collection of essays ranges from pop culture to politics, from Hillary Clinton to Susan Sontag, from Facebook to Mad Men, from Joan Didion to David Foster Wallace to—most strikingly—the author's own life. For fans of the essays of John Jeremiah Sullivan and Jonathan Lethem. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times • The Wall Street Journal Katie Roiphe's writing—whether in the form of personal essays, literary criticism, or cultural reporting—is bracing, wickedly entertaining, and deeply engaged with our mores and manners. In these pages, she turns her exacting gaze on the surprisingly narrow-minded conventions governing the way we live now. Is there a preoccupation with “healthiness” above all else? If so, does it lead insidiously to judging anyone who tries to live differently? Examining such subjects as the current fascination with Mad Men, the oppressiveness of Facebook (“the novel we are all writing”), and the quiet malice our society displays toward single mothers, Roiphe makes her case throughout these electric pages. She profiles a New York prep school grad turned dominatrix; isolates the exact, endlessly repeated ingredients of a magazine “celebrity profile”; and draws unexpected, timeless lessons from news-cycle hits such as Arnold Schwarzenegger's “love child” revelations. On ample display in this book are Roiphe's insightful, occasionally obsessive takes on an array of literary figures, including Jane Austen, John Updike, Susan Sontag, Joan Didion, and Margaret Wise Brown, the troubled author of Goodnight, Moon. And reprinted for the first

time and expanded here is her much-debated New York Times Book Review cover piece, “The Naked and the Conflicted”—an unabashed argument on sex and the contemporary American male writer that is in itself an exciting and refreshing reminder that criticism matters. As steely-eyed in examining her own life as she is in skewering our cultural pitfalls, Roiphe gives us autobiographical pieces—on divorce, motherhood, an emotionally fraught trip to Vietnam, the breakup of a female friendship—that are by turns deeply moving, self-critical, razor-sharp, and unapologetic in their defense of “the messy life.” *In Praise of Messy Lives* is powerfully unified, vital work from one of our most astute and provocative voices.

The debut novel, first published nearly twenty years ago, from the National Book Award-winning author of *The Noonday Demon: An Atlas of Depression* and *Far from the Tree: Parents, Children, and the Search for Identity*—a luminous and moving evocation of the love between a son and his mother. A finalist for the Los Angeles Times First Fiction prize, *A Stone Boat* is an achingly beautiful, deeply perceptive story of family, sexuality, and the startling changes wrought by grief, loss, and self-discovery. Harry, an internationally celebrated young concert pianist, travels to Paris to confront his glamorous and formidable mother about her dismay at his homosexuality. Before he can give voice to his hurt and anger, he discovers that she is terminally ill. In an attempt to escape his feelings of guilt and despair over the prospect of her death, he embarks on several intense affairs—one with a longtime female friend—that force him to

question his capacity for love, and finally to rediscover it. Part eulogy, part confession, and part soliloquy on forgiveness, *A Stone Boat* is a luminous evocation of the destructive and regenerative, all-encompassing love between a son and his mother, by America’s foremost chronicler of personal and familial resilience.

Marriage today isn’t what it used to be: for better, not for worse. As same-sex weddings are becoming more common, the classic love-story happy ending is taking on a decidedly new twist, everyone has a fresh role to play, and supporters and opponents of gay marriage alike are finding themselves in the midst of a revolution that’s redefining marriage—both as a personal choice and as an institution—as we know it. In *Here Come the Brides!*, editors Audrey Bilger and Michele Kort gather together the voices of women taking part in—and shaping—this major historical shift. Representing a diversity of points of view in terms of race, class, ethnicity, and gender identification, this collection of essays, stories, and visual images takes a multidimensional look at how opening up the traditional order of “man and wife” to include the possibility of “wife and wife” is altering our social landscape. From wedding pictures and images of protest signs to comical anecdotes and sober philosophical analyses, *Here Come the Brides!* is an exploration of how the legalization of same-sex marriages has irrevocably changed the way lesbians think about their unions and their lives—and a celebration of the dream of lesbian happily-ever-afters.

"A memoir about the author's relationship with renowned painter Lucian Freud that includes interviews with many close friends and family members as well as critical analyses of Freud's art"--
The Energy and Resources Institute (TERI)

A new look at the life, times, and music of Polish composer and piano virtuoso Fryderyk Chopin Fryderyk Chopin (1810–49), although the most beloved of piano composers, remains a contradictory figure, an artist of virtually universal appeal who preferred the company of only a few sympathetic friends and listeners. *Chopin and His World* reexamines Chopin and his music in light of the cultural narratives formed during his lifetime. These include the romanticism of the ailing spirit, tragically singing its death-song as life ebbs; the Polish expatriate, helpless witness to the martyrdom of his beloved homeland, exiled among friendly but uncomprehending strangers; the sorcerer-bard of dream, memory, and Gothic terror; and the pianist's pianist, shunning the appreciative crowds yet composing and improvising idealized

operas, scenes, dances, and narratives in the shadow of virtuoso-idol Franz Liszt. The international Chopin scholars gathered here demonstrate the ways in which Chopin responded to and was understood to exemplify these narratives, as an artist of his own time and one who transcended it. This collection also offers recently rediscovered artistic representations of his hands (with analysis), and—for the first time in English—an extended tribute to Chopin published in Poland upon his death and contemporary Polish writings contextualizing Chopin's compositional strategies. The contributors are Jonathan D. Bellman, Leon Botstein, Jean-Jacques Eigeldinger, Halina Goldberg, Jeffrey Kallberg, David Kasunic, Anatole Leikin, Eric McKee, James Parakilas, John Rink, and Sandra P. Rosenblum. Contemporary documents by Karol Kurpiński, Adam Mickiewicz, and Józef Sikorski are included.

Singing occurs in nearly every setting of Amish life. It is a sanctioned pleasure that frames all Amish rituals and one that enlivens and sanctifies both routine and special events, from

household chores, road trips by buggy, and family prayer to baptisms, youth group gatherings, weddings, and “single girl” sings. But because Amish worship is performed in private homes instead of public churches, few outsiders get the chance to hear Amish people sing. Amish music also remains largely unexplored in the field of ethnomusicology. In *Why the Amish Sing*, D. Rose Elder introduces readers to the ways that Amish music both reinforces and advances spiritual life, delving deep into the *Ausbund*, the oldest hymnal in continuous use. This illuminating ethnomusicological study demonstrates how Amish groups in Wayne and Holmes Counties, Ohio—the largest concentration of Amish in the world—sing to praise God and, at the same time, remind themselves of their 450-year history of devotion. Singing instructs Amish children in community ways and unites the group through common participation. As they sing in unison to the weighty words of their ancestors, the Amish confirm their love and support for the community. Their singing delineates their common journey—a journey that demands separation from the world and yielding to God's will. By making school visits, attending worship services and youth sings, and visiting private homes, Elder has been given the rare opportunity to listen to Amish singing in its natural social and familial context. She combines one-on-one interviews with detailed observations of how song provides a window into Amish cultural beliefs, values, and norms.

"Hell Camp" is one helluva ride. A fast-paced, slap-you-in-the-face journey through a bizarre childhood with a crazy mother. A mother who will stop at nothing to get what she wants; a mother who crashes cars, beats up the maid, extinguishes cigarettes on her arms, sleeps with the neighborhood, runs away from home for months at a time and eventually "kidnaps" a toddler. "Hell Camp" is laugh-out loud funny and heartbreakingly sad - a tragicomedy of momentous proportions. A story of love, determination, betrayal, violence, sex, abuse and utter madness - you won't be able to put this book down.

The American Jewish Experience Longman Publishing Group From the National Book Award-winning author of *The Noonday Demon: An Atlas of Depression* comes a monumental new work, a decade in the writing, about family. In *Far from the Tree*, Andrew Solomon tells the stories of parents who not only learn to deal with their exceptional children but also find profound meaning in doing so. Solomon's startling proposition is that diversity is what unites us all. He writes about families coping with deafness,

dwarfism, Down syndrome, autism, schizophrenia, multiple severe disabilities, with children who are prodigies, who are conceived in rape, who become criminals, who are transgender. While each of these characteristics is potentially isolating, the experience of difference within families is universal, as are the triumphs of love Solomon documents in every chapter. All parenting turns on a crucial question: to what extent parents should accept their children for who they are, and to what extent they should help them become their best selves. Drawing on forty thousand pages of interview transcripts with more than three hundred families, Solomon mines the eloquence of ordinary people facing extreme challenges. Whether considering prenatal screening for genetic disorders, cochlear implants for the deaf, or gender reassignment surgery for transgender people, Solomon narrates a universal struggle toward compassion. Many families grow closer through caring for a challenging child; most discover supportive communities of others similarly affected; some are inspired to become advocates and activists, celebrating the very conditions they once feared. Woven into their courageous and affirming stories is Solomon's journey to accepting his own identity, which culminated in his midlife decision, influenced by this research, to become a parent. Elegantly reported by a spectacularly original thinker, *Far from the Tree* explores themes of generosity, acceptance, and tolerance—all rooted in the insight that love can transcend every prejudice. This crucial and revelatory book expands our definition of what it is to be human.

Measuring Vulnerability to Natural Hazards presents a broad

range of current approaches to measuring vulnerability. It provides a comprehensive overview of different concepts at the global, regional, national, and local levels, and explores various schools of thought. More than 40 distinguished academics and practitioners analyse quantitative and qualitative approaches, and examine their strengths and limitations. This book contains concrete experiences and examples from Africa, Asia, the Americas and Europe to illustrate the theoretical analyses. The authors provide answers to some of the key questions on how to measure vulnerability and they draw attention to issues with insufficient coverage, such as the environmental and institutional dimensions of vulnerability and methods to combine different methodologies. This book is a unique compilation of state-of-the-art vulnerability assessment and is essential reading for academics, students, policy makers, practitioners, and anybody else interested in understanding the fundamentals of measuring vulnerability. It is a critical review that provides important conclusions which can serve as an orientation for future research towards more disaster resilient communities.

Wendy Goodman has discovered and published stories on an astonishing array of private houses, notable for their character, personality, and flair, in her 30 years of design hunting. In *May I Come In?* she visits more than 75 that capture and express their owners' spirit and passions. In this pantheon, imagination and originality hold sway: Artists and eccentrics are the equals of aristocrats and the mandarins of design, and every room has a story to tell. *May I Come In?* is profusely illustrated with superb images by leading interior photographers, as well as Goodman's

own snapshots and memorabilia related to her quests. It is an irresistible visual record of the art of living by one of its most penetrating observers.

Bestselling author Dan Buettner reveals how to transform your health using smart nutrition, lifestyle, and fitness habits gleaned from longevity research on the diets, eating habits, and lifestyle practices of the communities he's identified as "Blue Zones"—those places with the world's longest-lived, and thus healthiest, people, including locations such as Okinawa, Japan; Sardinia, Italy; Costa Rica's Nicoya Peninsula; Ikaria, Greece; and Loma Linda, California. With the audacious belief that the lifestyles of the world's Blue Zones could be adapted and replicated in towns across North America, Buettner launched the

largest preventive health care project in the United States, The Blue Zones City Makeovers, which has impacted the health of millions of Americans since 2009. In *The Blue Zones Solution*, readers can be inspired by the specific stories of the people, foods, and routines of our healthy elders; understand the role community, family, and naturally healthy habits can play in improving our diet and health; and learn the exact foods—including the 50 superfoods of longevity and dozens of recipes adapted for Western tastes and markets—that offer delicious ways to eat your way to optimum health. Throughout the book are lifestyle recommendations, checklists, and stories to help you create your own personal Blue Zones solution. Readers will learn and apply the 80/20 rule, the plant slant diet, social aspects of eating that lead to weight loss and great health naturally, cultivating your "tribe" of friends and family, and your greater purpose as part of your daily routine. Filled with moving personal stories, delicious recipes, checklists, and useful tips that will transform any home into a miniature blue zone, *The Blue Zones Solution* is the ultimate blueprint for a healthy, happy life.
